**School patrons claiming denial of adequate education** are relegated to pending federal court litigation, since it is inappropriate, because of the potential for conflicting orders, for state and federal courts to entertain simultaneously two cases contending that vestiges of the dual school system have not been eliminated. *Deriso v. Cooper*, 246 Ga. 540, 272 S.E.2d 274 (1980).

**Proper and timely filing of notice of appeal is an absolute requirement** to confer jurisdiction upon the appellate court. *Cooper v. Gwinnett County Bd. of Educ.*, 157 Ga. App. 289, 277 S.E.2d 285 (1981); *Elbert County Bd. of Educ. v. Gurley*, 215 Ga. App. 205, 450 S.E.2d 258 (1994).

When no notice of appeal was filed with the State Board of Education but, instead, appellant filed an appeal directly in the superior court, proper appellate procedure was not followed; and, therefore, the su-

perior court did not have jurisdiction to review the decision sought to be appealed. *Cooper v. Gwinnett County Bd. of Educ.*, 157 Ga. App. 289, 277 S.E.2d 285 (1981); *Elbert County Bd. of Educ. v. Gurley*, 215 Ga. App. 205, 450 S.E.2d 258 (1994).

**When state board exercises judicial powers, certiorari available remedy.** — When the state board exercises the board's judicial powers in rendering a decision, a writ of certiorari is a remedy available. *Murdock v. Perkins*, 219 Ga. 756, 135 S.E.2d 869 (1964).

**Certiorari available directly to superior court from county board.** — Remedy of certiorari from a judicial decision of a county board of education is available directly to the superior court without first exhausting the authorized appeal to the State Board of Education. *Rockdale County Sch. Dist. v. Weil*, 245 Ga. 730, 266 S.E.2d 919 (1980).

**Alternate route for access to the superior court is certiorari from decision of local board of education.** *Deriso v. Cooper*, 246 Ga. 540, 272 S.E.2d 274 (1980).

**Plaintiff-high school principal had an adequate remedy at law as plaintiff** contended that the transfer was a demotion and not a reassignment as contended by the school superintendent. Such was a matter of local controversy in reference to the administration of school law; and, thus, the local board was the proper tribunal. *Emerson v. Bible*, 247 Ga. 633, 278 S.E.2d 382 (1981).

**Prerequisites to equitable relief.** — Barring extraordinary circumstances, exhaustion of statutory remedy of appeal is prerequisite to relief in equity. *Boatright v. Brown*, 222 Ga. 497, 150 S.E.2d 680 (1966).

When the controversy is a "local controversy," within the meaning of that term as used in this section, the plaintiffs are not entitled to resort to the extraordinary legal remedy of mandamus or to have equitable relief in the absence of a showing that the plaintiffs have exhausted the plaintiffs' administrative remedies or that the remedy provided by this section will not afford the plaintiffs adequate relief.

*Surrency v. Dubberly*, 225 Ga. 735, 171 S.E.2d 306 (1969) (see O.C.G.A. § 20-2-1160).

In the absence of extraordinary circumstances, the exhaustion of the remedy provided by this section for the resolution of local controversies in reference to the construction or administration of school laws is a prerequisite to relief in equity. *Deriso v. Cooper*, 246 Ga. 540, 272 S.E.2d 274 (1980) (see O.C.G.A. § 20-2-1160).

Before seeking equitable relief it is necessary that plaintiff-high school principal first exhaust administrative remedies and show the absence of an adequate remedy at law. *Emerson v. Bible*, 247 Ga. 633, 278 S.E.2d 382 (1981).

**Student must exhaust administrative remedies.** — When a student instituted suit against the superintendent of county schools and several high school officials, claiming that the student's civil rights had been violated when declared ineligible to play varsity basketball during the student's senior year in high school, since the student's claims were matters of local controversy and clearly related to the construction or administration of school law, the student was required to exhaust administrative remedies before instituting action in the courts. The student's failure to exhaust these remedies authorized the trial court to grant defendant's motion to dismiss. *Grayer v. Hagler*, 181 Ga. App. 662, 353 S.E.2d 545 (1987).

**If no "local controversy," exhaustion of administrative remedies not required.** — When the controversy is not a matter of "local controversy" in reference to the construction or administration of school law, an action for injunctive relief and damages against the board does not first require exhaustion of administrative remedies. *Eastwind Developers, Ltd. v. Board of Educ.*, 238 Ga. 587, 234 S.E.2d 504 (1977).

**When section's remedies not exhausted, resort to equity premature.** — When a plaintiff fails to exhaust the hearing and appeals remedy created by this section, or to indicate why this remedy at law is inadequate, a resort to equity for injunctive relief against a school board is premature. *Carter v. Board of Educ.*,

221 Ga. 775, 147 S.E.2d 315 (1966) (see O.C.G.A. § 20-2-1160).

Courts will not preempt the administrative remedy provided by O.C.G.A. § 20-2-1160 in the first instance except as a matter of equity when it is necessary to prevent irreparable injury, or when equity alone can grant adequate relief; the courts of equity will not interfere until and unless the administrative remedy has been exhausted and has failed to eliminate the violation of law or the gross abuse of discretion which is its equivalent, and this by way of appeal only. *Bacon v. Brewer*, 196 Ga. App. 130, 395 S.E.2d 383 (1990).

**Equity will not intervene.** — If no effort is made to exhaust one's administrative remedies, or an adequate remedy at law is available, equity will not intervene. *Otwell v. West*, 220 Ga. 95, 137 S.E.2d 291 (1964).

**Equity will not interfere with schools' management unless board has acted without authority of law.** *Patterson v. Boyd*, 211 Ga. 679, 87 S.E.2d 861 (1955).

**Discretion in local boards controls absent violations or gross abuse.** — Discretion has by law been vested in the county boards of education, and unless it is made clearly to appear that the board is acting in violation of the law or grossly abusing the boards' discretion, the boards' administration of the schools of the counties will not be enjoined by the courts. *Pass v. Pickens*, 204 Ga. 629, 51 S.E.2d 405 (1949).

Control and management of the public schools is in the county boards of education and will not be interfered with by the courts except in cases where that control and management is contrary to law. *Colston v. Hutchinson*, 208 Ga. 559, 67 S.E.2d 763 (1951).

Courts of equity will not interfere with the administration of the public school laws under which local controversies arise unless it is made clear to appear that the local school board is acting in violation of the law or is grossly abusing the board's discretion. *Walker v. McKenzie*, 209 Ga. 653, 74 S.E.2d 870 (1953).

Since the control and management of a county's public schools is vested by law in the county board of education, courts of

equity will not interfere with the control and management thereof, except when action taken by the board is contrary to law. *Warren v. Davidson*, 218 Ga. 25, 126 S.E.2d 221 (1962).

This section provides an adequate remedy for an aggrieved party and equity will not interfere with the action of the board of education of a county unless it appears that the board has acted without legal authority. *Davis v. Jarriel*, 223 Ga. 624, 157 S.E.2d 282 (1967) (see O.C.G.A. § 20-12-1160).

If the remedy provided by this section has not been exhausted, relief in equity is not available unless an act of the board violates some law or is such a gross abuse of discretion as amounts to a violation of the law. *Deriso v. Cooper*, 246 Ga. 540, 272 S.E.2d 274 (1980) (see O.C.G.A. § 20-12-1160).

**When statutory appeal remedy fails, or not adequate, equity grants relief.** — When the remedy by appeal from a decision of the local board has failed to eliminate the law violation, or the gross abuse of discretion which is its equivalent, equity will grant relief or, as is permissible in all cases to prevent irreparable injury, when equity alone can grant adequate relief, exhaustion of the statutory remedy of appeal is not a prerequisite to relief in equity. *Beddingfield v. Parkerson*, 212 Ga. 654, 94 S.E.2d 714 (1956) (decided under Ga. L. 1937, p. 864).

**Mandamus unavailable prior to exhaustion of administrative remedies.**

— Mandamus will not lie when it appears that the complainant has not availed himself or herself of the administrative remedies available under O.C.G.A. § 20-2-1160, which provides for an appeal to the State Board of Education from decisions concerning the termination of teachers pursuant to the Fair Dismissal Act, O.C.G.A. § 20-2-940 et seq. *Lansford v. Cook*, 252 Ga. 414, 314 S.E.2d 103 (1984).

**Mandamus against school board for restoration of teacher's former status not precluded.** — Even though it is true that this section has application to county school systems created by local law, such as that for Richmond County, and even though it is true that a proceeding by a

**Judicial Proceedings (Cont'd)**

teacher for restoration of former status as principal and former salary would be a controversy falling within the terms of this section, not even such a construction would preclude a direct proceeding by mandamus against the board of education to compel a proper discharge of official duty. *County Bd. of Educ. v. Young*, 187 Ga. 644, 1 S.E.2d 739 (1939) (see O.C.G.A. § 20-12-1160).

**Courts empowered to inquire into right to hold public office.** — Membership on a board of education is a public office. Nothing in this section is intended to take, or has the effect of taking from the courts of this state the power to inquire into the right to hold public office and to confer this important power upon the school boards. *Conley v. Brophy*, 207 Ga. 30, 60 S.E.2d 122 (1950) (see O.C.G.A. § 20-12-1160).

**Interlocutory injunction.** — Since for a breach of duty under former Code 1933, § 32-938, adequate remedies at law were available, it was error to grant an interlocutory injunction to prevent that breach upon a petition seeking an injunction, which was brought by residents and taxpayers of that portion of the county embraced within the school district. *Colston v. Hutchinson*, 208 Ga. 559, 67 S.E.2d 763 (1951).

**Judgment sustaining motion to dismiss petition seeking injunction proper.** — Judgment sustaining a demurrer (now motion to dismiss) to a petition seeking to have a county board of education enjoined from going forward with the board's program to establish a high school and erect a new high school building in and for a certain area of the county was proper since the petitioners had an adequate and complete remedy at law which the petitioners had not pursued, and since the petitioners had failed to appeal the board's decision alleging no sufficient reason for the failure to do so. *Boatright v. Yates*, 211 Ga. 125, 84 S.E.2d 195 (1954).

**Court may dismiss complaint if section's procedure not followed.** — If a county board of education seeks equitable and injunctive relief against a child and the parents for allegedly transporting the

child to another school district in disregard of the rules and regulations of the board, and it is nowhere shown in the record that the parties utilized the procedure provided in this section for determining matters of local controversy in regard to the administration of school law, either by holding a hearing at the county level or by appealing to the State Board of Education, the trial court may properly dismiss the complaint. *Wayne County Bd. of Educ. v. Anderson*, 231 Ga. 761, 204 S.E.2d 173 (1974) (see O.C.G.A. § 20-12-1160).

**Neither state board nor court is authorized to consider matter de novo from local board** because both sit as appellate bodies. *Ransom v. Chattooga County Bd. of Educ.*, 144 Ga. App. 783, 242 S.E.2d 374 (1978).

As an appellate body, the superior court (like the State Board of Education) is not authorized to consider matters which were not raised before the local board. *Sharpley v. Hall County Bd. of Educ.*, 251 Ga. 54, 303 S.E.2d 9 (1983).

When a school principal argued that the language of O.C.G.A. § 20-2-940(a) is too vague, indefinite, and uncertain to meet due process requirements, but did not challenge the constitutionality of O.C.G.A. § 20-2-1160 in the proceedings before the Professional Practices Commission, the county board of education, or the State Board of Education, and this issue was not raised until the case was heard by the superior court, which sat as an appellate court, this constitutional issue was not timely raised by the principal and would not be considered on appeal to the Supreme Court. *Sharpley v. Hall County Bd. of Educ.*, 251 Ga. 54, 303 S.E.2d 9 (1983).

**Under subsection (e), on review, state board and superior court shall be confined to record.** Therefore, the superior court and the Court of Appeals, as well as the parties, are bound by this rule. *Sumter County Bd. of Educ. v. Mosley*, 147 Ga. App. 478, 249 S.E.2d 284 (1978) (see O.C.G.A. § 20-12-1160).

Superior court's review is on the record of the proceedings, and the any evidence rule applies. Additionally, school appeals are governed by the procedures set out in O.C.G.A. § 20-2-1160 and do not fall

within the Georgia Administrative Procedure Act, O.C.G.A. Ch. 13, T. 50. *Johnson v. Pulaski County Bd. of Educ.*, 231 Ga. App. 576, 499 S.E.2d 345 (1998).

**Court bound to affirm decision supported by sufficient evidence.** — Sitting as an appellate body, the superior court is placed in a position similar to an appellate review of a jury verdict. Finding that there exists evidence sufficient to support the decision of a local board, the superior court is bound to affirm the decision. *Ransum v. Chattooga County Bd. of Educ.*, 144 Ga. App. 783, 242 S.E.2d 374 (1978).

Superior court erred in reversing a local school board's decision to terminate a teacher for insubordination and willful neglect of duty pursuant to O.C.G.A. § 20-2-940(a) because the decision was supported by evidence that the teacher made inappropriate comments about special education students, among other evidence. The "any evidence" standard of O.C.G.A. § 20-2-1160(e) applied. *Chattooga County Bd. of Educ. v. Searels*, 302 Ga. App. 731, 691 S.E.2d 629 (2010).

## OPINIONS OF THE ATTORNEY GENERAL

**County board empowered to select, locate, and acquire school sites.** — County board of education has the authority and power to select, locate, and acquire sites for school buildings in the county, according to the board's judgment and discretion, subject only to the approval or disapproval by the State Board of Education upon appeal. 1958-59 Op. Att'y Gen. p. 117.

**County board empowered to make changes and relocations in school sites.** — When a county board of education has previously selected sites for schools and school building projects, the board has the power to subsequently make changes and relocations of the sites, and when approved by the State Board of Education such action becomes final. 1958-59 Op. Att'y Gen. p. 117.

**County board may provide that no school bus shall transport pupils to unassigned attendance area.** — Under the general regulatory powers granted county boards of education, a county board, when the board deems it to be in the best interest and for the most efficient operation of the schools of the county, may by regulations duly adopted provide that no school bus under the jurisdiction of the board shall transport pupils to any attendance area other than areas to which the bus has been assigned by the board. 1950-51 Op. Att'y Gen. p. 272.

**Controversies related to "handi-**

**capped" children procedurally controlled by section.** — Controversies arising out of the construction and administration of laws pertaining to the education of "handicapped" children, just as controversies arising out of the construction and administration of school laws generally, are procedurally controlled with respect to hearings and appeals by this section. 1979 Op. Att'y Gen. No. 79-1 (decided under former Code 1933, § 32-910, prior to amendment by Ga. L. 1980, p. 1508, § 1, which added subsection (f)).

**Federal handicap provisions accept as proper those procedures contained in this section to assure "due process."** — 1979 Op. Att'y Gen. No. 79-1 (decided under former Code 1933, § 32-910, prior to amendment by Ga. L. 1980, p. 1508, § 1, which added subsection (f)).

**Procedure of using "regional hearing officer" and eliminating administrative appeal unauthorized.** — Procedure of using a "regional hearing officer" to conduct a hearing under this section and to eliminate any appeal to the State Board of Education is not only unauthorized by law but is in conflict with the "due process" guarantees of this section. 1979 Op. Att'y Gen. No. 79-1 (decided under former Code 1933, § 32-910, prior to amendment by Ga. L. 1980, p. 1508, § 1, which added subsection (f)).

## OBTAINING SCHOOL MEALS BY FALSE INFORMATION

(b) The forms used by any county or independent school system for the purpose of determining the qualifications for free school meals or school meals at a reduced price shall include thereon a statement that supplying false information in the completion of such form is a misdemeanor under Georgia law.

## LOITERING AT OR DISRUPTING SCHOOLS

**20-2-1180. Loitering upon school premises or within a school safety zone; penalty; required check in of visitors; posting signs of required check in.**

(a) It shall be unlawful for any person to remain upon the premises or within the school safety zone as defined in paragraph (1) of subsection (a) of Code Section 16-11-127.1 of any public or private school in this state or to remain upon such premises or within such school safety

zone when that person does not have a legitimate cause or need to be present thereon. Each principal or designee of each public or private school in this state shall have the authority to exercise such control over the buildings and grounds upon which a school is located so as to prohibit any person who does not have a legitimate need or cause to be present thereon from loitering upon such premises. Each principal or designee of each public or private school in this state shall notify the appropriate law enforcement agency to prohibit any person who does not have a legitimate need or cause to be present therein from loitering within the school safety zone.

(b) Any person who:

(1) Is present upon the premises or within the school safety zone of any public or private school in this state and willfully fails to remove himself or herself from such premises after the principal or designee of such school requests him or her to do so; or

(2) Fails to check in at the designated location as required by subsection (c) of this Code section

shall be guilty of a misdemeanor of a high and aggravated nature.

(c) Upon entering any school building between the official starting time and the official dismissal time, any person who is not a student at such school, an employee of the school or school system, a school board member, an approved volunteer following the established guidelines of the school, or a person who has been invited to or otherwise authorized to be at the school by a principal, teacher, counselor, or other authorized employee of the school shall check in at the designated location as stated on posted signs and provide a reason for his or her presence at the school.

(c.1) Subsections (b) and (c) of this Code section shall not apply to:

(1) Law enforcement officers, firefighters, emergency medical technicians or paramedics, or any public safety or emergency management officials in the performance of an emergency call or to other persons making authorized deliveries to the school;

(2) Any person entering a school on election day, for purposes of voting, when the school serves as an official polling place; or

(3) Any person attending or participating in an academic or athletic event while remaining in the authorized area or a parent, grandparent, or guardian listed on a child's pick-up list who fails to sign-in while delivering school supplies, food, clothing, other legitimate business and who has not previously been sanctioned by school officials for disrupting a school.

(d) A school administrator or his or her designee may ask any visitor to explain his or her presence in the school building at any time when the school is in official session.

(e) If the school posts signs on entrances to the school requiring visitors to check in at the designated location, such signs shall be deemed prima-facie evidence that persons entering the school were on notice of the requirements of this Code section.

(f) Nothing in this Code section shall be construed to prohibit school administrators from prohibiting the admission of any person who has violated school policy or state law. (Ga. L. 1973, p. 719, §§ 1, 2; Ga. L. 1994, p. 1012, § 5; Ga. L. 2002, p. 1078, § 1; Ga. L. 2006, p. 519, § 4/HB 1302.)

Any offense committed before July 1, 2006, shall be punishable as provided by the statute in effect at the time the offense was committed.

## JUDICIAL DECISIONS

**Principal's authority to control visitors.** — O.C.G.A. § 20-2-1180 does not impart a ministerial duty on school officials, rather, the statute imposes a duty on third party visitors and gives school principals discretionary authority to control visitors. *Teston v. Collins*, 217 Ga. App. 829, 459 S.E.2d 452 (1995).

## JUDICIAL DECISIONS

**No vagueness in statute.** — Phrase “disrupt or interfere with the operation of any public school” contains words of ordinary meaning that gives fair notice as to the application of O.C.G.A. § 20-2-1181; therefore, the statute is not vague. In re D.H., 283 Ga. 556, 663 S.E.2d 139 (2008).

**Evidence sufficient for conviction.** — Evidence that defendant and another student engaged in a fist fight just outside the front entrance of a public high school, that students were being dropped off to

start the school day at the time, that the altercation drew a large crowd of spectators, and that approximately four administrators and a police officer were required to stop the fight support defendant’s conviction for disrupting a public school. Pitts v. State, 260 Ga. App. 274, 581 S.E.2d 306 (2003).

Adjudication of a 13-year old student as a delinquent for disrupting a public school, in violation of O.C.G.A. § 20-2-1181, was upheld on appeal be-

cause the evidence established that the student disrupted a classroom while school was in session; the paraprofessional assigned to the classroom testified that the student was riling up the other children in the room to the point it was becoming uncontrollable. In the Interest of J.D., 288 Ga. App. 839, 655 S.E.2d 702 (2007).

Trial court properly found that a juvenile committed the delinquent offense of disrupting a public school under O.C.G.A. § 20-2-1181 due to the juvenile's boisterous, irate, and loud behavior in a classroom that caused the class to stop until the juvenile's removal and the juvenile's subsequent disruption of office staff with

similar behavior. In re D.H., 283 Ga. 556, 663 S.E.2d 139 (2008).

**Evidence insufficient for conviction.** — Evidence was insufficient to show a violation of O.C.G.A. § 20-2-1181, disruption of a public high school, because although the evidence showed that the beating took place at Washington County High School, there was no direct evidence that the school was in fact public, and the juvenile court did not take judicial notice of this fact. In the Interest of Q. S., 310 Ga. App. 70, 712 S.E.2d 99 (2011).

## OPINIONS OF THE ATTORNEY GENERAL

**Violation of section does not require fingerprinting.** — Violation of O.C.G.A. § 20-2-1184 is not, at this time,

designated as an offense for which those charged with a violation are to be fingerprinted. 1990 Op. Att’y Gen. No. 90-22.

## JUDICIAL DECISIONS

**Failure to report assault on a student.** — Appellate court’s reversal of a grant of judgment on the pleadings to defendants, the members of a school board of education, a school principal, the assistant principal, and a clinic nurse in their individual capacities, was in error in a negligence suit brought by the parents of a student who was assaulted by another student; the mandated action set forth in

O.C.G.A. § 20-2-1185 on the part of a school to create a safety plan was a discretionary duty rather than a ministerial duty, and while O.C.G.A. § 20-2-1184 establishes Georgia’s public policy concerning the need to report timely to the appropriate authorities the identity of students who commit certain proscribed acts on school grounds, the statute did not create a civil cause of action for damages in favor

of a victim or anyone else for the purported failure to report timely. Murphy v. Bajjani, 282 Ga. 197, 647 S.E.2d 54 (2007).

### **20-2-1185. School safety plans.**

(a) Every public school shall prepare a school safety plan to help curb the growing incidence of violence in schools, to respond effectively to such incidents, and to provide a safe learning environment for Georgia's children, teachers, and other school personnel. Such plan shall also address preparedness for natural disasters, hazardous materials or radiological accidents, acts of violence, and acts of terrorism. School safety plans of public schools shall be prepared with input from students enrolled in that school, parents or legal guardians of such students, teachers in that school, community leaders, other school employees and school district employees, and local law enforcement, fire service, public safety, and emergency management agencies. School safety plans of private schools may be prepared with input from students enrolled in that school, parents or legal guardians of such students, teachers in that school, other school employees, and local law enforcement, fire service, public safety, and emergency management agencies. Such plans shall be reviewed and, if necessary, updated annually. Such plans of public schools shall be submitted to the local emergency management agency.

(b) A public school may request funding assistance from the state for the installation of safety equipment including, but not limited to, video surveillance cameras, metal detectors, and other similar security devices. Funding may be provided to a public school in accordance with a school safety plan prepared by the school and approved by the local board of education, the Department of Education, and the Georgia Emergency Management Agency.

(c) School safety plans prepared by public schools shall address security issues in school safety zones as defined in paragraph (1) of subsection (a) of Code Section 16-11-127.1. School safety plans should also address security issues involving the transportation of pupils to and from school and school functions when such transportation is furnished by the school or school system and school functions held during noninstructional hours.

(d) The Georgia Emergency Management Agency shall provide training and technical assistance to public school systems, and may provide this same training and technical assistance to private school systems, and independent private schools throughout this state in the area of emergency management and safe school operations. This training and technical assistance shall include, but not be limited to, crisis response team development, site surveys and safety audits, crisis management planning, exercise design, safe school planning, emergency operations

planning, search and seizure, bomb threat management, and model school safety plans. (Code 1981, § 20-2-1185, enacted by Ga. L. 1994, p. 1012, § 3; Ga. L. 1999, p. 379, § 1.)

**Editor's notes.** — Ga. L. 1994, p. 1012, § 1, not codified by the General Assembly, provides that the Act shall be known and may be cited as the "School Safety and Juvenile Justice Reform Act of 1994."

Ga. L. 1994, p. 1012, § 2, not codified by the General Assembly, sets forth legislative findings and determinations for the "School Safety and Juvenile Justice Reform Act of 1994."

Ga. L. 1994, p. 1012, § 29, not codified

by the General Assembly, provides for severability.

## JUDICIAL DECISIONS

**Liability of officials.** — Trial court properly granted summary judgment to a county school board and the board's superintendent in a parents' negligence action arising out of an attack on school grounds that injured the parents' child as the board and the superintendent presented sufficient evidence that a school safety plan was in place at the elementary school at the time the child was attacked, entitling the board and the superintendent to official immunity barring the parents' negligence claims. *Leake v. Murphy*, 284 Ga. App. 490, 644 S.E.2d 328 (2007), cert. denied, 2007 Ga. LEXIS 671 (Ga. 2007).

Appellate court's reversal of a grant of judgment on the pleadings to defendants, the members of a school board of education, a school principal, the assistant principal, and a clinic nurse in their individual capacities, was in error in a negligence suit brought by the parents of a student who was assaulted by another student; the mandated action set forth in O.C.G.A. § 20-2-1185 on the part of a school to

create a safety plan was a discretionary duty rather than a ministerial duty, and while O.C.G.A. § 20-2-1184 establishes Georgia's public policy concerning the need to report timely to the appropriate authorities the identity of students who commit certain proscribed acts on school grounds, the statute did not create a civil cause of action for damages in favor of a victim or anyone else for the purported failure to report timely. *Murphy v. Bajjani*, 282 Ga. 197, 647 S.E.2d 54 (2007).

**Preparation of safety plan is discretionary; Leake v. Murphy overruled.**

— Mandated action set forth in O.C.G.A. § 20-2-1185 with regard to every public school preparing a school safety plan is a discretionary duty rather than a ministerial duty; by so deciding, the Supreme Court of Georgia determined that the holding in *Leake v. Murphy*, 274 Ga. App. 219 (2005) was incorrect and overruled that holding. *Murphy v. Bajjani*, 282 Ga. 197, 647 S.E.2d 54 (2007).

(b) The terms of any such agreement shall be reasonable and equitable, and the agreement and any amendments thereto shall be filed with the Commissioner at least 30 days prior to their use. Any such agreement and any and all amendments thereto which have not been specifically disapproved by the Commissioner within 30 days after the filing thereof shall be deemed to be approved.

(b) If the agency fails to make up the deficiency or to make the required assessment of the fund members within 30 days after the Commissioner orders it to do so or if the deficiency is not fully made up within 60 days after the date on which any such assessment is made or within such longer period of time as may be specified by the Commissioner, the fund shall be deemed to be insolvent and shall be proceeded against in the same manner as are domestic insurers under Chapter 37 of Title 33; and the Commissioner shall have the same powers and limitations in such proceedings as are provided under Chapter 37 of Title 33, except as otherwise provided for in this article.

The local board may revise its proposed charter system petition, upon resolution, as a result of testimony at the public hearings or for other purposes.

(c) Prior to approval or denial of a charter petition for a charter system, the state board shall receive and give all due consideration to the recommendation and input from the Charter Advisory Committee established in Code Section 20-2-2063.1. Such grants will be disbursed in accordance with any applicable guidelines, policies, and requirements established by the state board.

(2) Subject to specific appropriations by the General Assembly for this purpose, the state board shall disburse implementation grants in the amount of \$125,000.00 or such other amount as determined by the state board to each charter system. The state board shall be authorized to approve up to five petitions for charter systems during fiscal year 2008, and may approve up to a maximum number of petitions in following years as may be established pursuant to board rules and as subject to availability of funding for implementation grants.

(f) A system charter school shall not be precluded from petitioning to become a conversion charter school, in accordance with Code Section 20-2-2064, not subject to the terms of the system charter. In the event a system charter school becomes a conversion charter school, the system charter shall be amended to reflect that such school is no longer bound by the system charter.

(g) An existing conversion or start-up charter school within a local school system which is petitioning to become a charter system shall have the option of continuing under its own existing charter, not subject to the terms of the system charter, or of terminating its existing charter, upon agreement by the local board and state board, and becoming subject to the system charter as a charter system school. **20-2-2064. Approval or denial of petition.**

(a) A charter petitioner seeking to create a conversion charter school must submit a petition to the local board of the local school system in which the proposed charter school will be located. The local board must by a majority vote approve or deny a petition no later than 60 days after its submission unless the petitioner requests an extension; provided, however, that a denial of a petition by a local board shall not preclude the submission to the local board of a revised petition that addresses deficiencies cited in the denial; and provided, further, that the local board shall not act upon a petition for a conversion charter school, including, but not limited to, a conversion charter for a high school cluster, until such petition:

(1)(A) Has been freely agreed to, by secret ballot, by a majority of the faculty and instructional staff members of the petitioning local school at a public meeting called with two weeks' advance notice for the purpose of deciding whether to submit the petition to the local board for its approval; and

(B) Has been freely agreed to, by secret ballot, by a majority of the parents or guardians of students enrolled in the petitioning local school present at a public meeting called with two weeks' advance notice for the purpose of deciding whether to submit the petition to the local board for its approval; or

The local board must by a majority vote approve or deny a petition no later than 60 days after its submission unless the petitioner requests an extension. A denial of a petition by a local board shall not preclude the submission to the local board of a revised petition that addresses deficiencies cited in the denial.

(c) A system charter school's school council or governing council, as applicable, may petition to become a conversion charter school. The petition shall be submitted to the local board of the charter system in which the school is located. The local board must by a majority vote approve or deny a petition no later than 60 days after its submission unless the petitioner requests an extension; provided, however, that a denial of a petition by a local board shall not preclude the submission to the local board of a revised petition that addresses deficiencies cited in the denial.

(d) A local board shall approve a petition that complies with the rules, regulations, policies, and procedures promulgated in accordance with Code Section 20-2-2063 and the provisions of this title and is in the public interest. If a local board denies a petition, it must within 60 days specifically state the reasons for the denial, list all deficiencies with respect to Code Section 20-2-2063, and provide a written statement of the denial to the charter petitioner and the state board.

(b) The state board shall approve the charter of a charter petitioner if the petition has been approved by the local board of the local school system in which the proposed charter school will be located and the state board finds, after receiving input from the Charter Advisory Committee, that the petition complies with the rules, regulations, policies, and procedures promulgated in accordance with Code Section 20-2-2063 and the provisions of this title and is in the public interest. In such case, all such applicants shall have an equal chance of being admitted through a random selection process unless otherwise prohibited by law; provided, however, that a state chartered special school may give enrollment preference to a child of a full-time teacher, professional, or other employee of the state chartered special school as provided for in subsection (b) of Code Section 20-2-293 or to a sibling of a student currently enrolled in the state chartered special school.

## **20-2-2067. Reprisals by local boards or school system employees prohibited.**

A local board of education or a school system employee who has control over personnel actions shall not take unlawful reprisal against another employee of the school system because such other employee is directly or indirectly involved with a petition to establish a charter school. A local board of education or a school system employee shall not take unlawful reprisal against an educational program of any school or school system because a petition to establish a charter school proposes the conversion of such educational program to a charter school. As used in this Code section, the term “unlawful reprisal” means an action taken by a local board of education or a school system employee as a direct result of a lawful petition to establish a charter school which action is adverse to another employee and which is not lawfully taken in response to any action or behavior of such employee or is adverse to an educational program of the school or the school system and:

(1) With respect to such other employee, results in one or more of the following:

- (A) Disciplinary or corrective action;
- (B) Transfer or reassignment, whether temporary or permanent;
- (C) Suspension, demotion, or dismissal;
- (D) An unfavorable performance evaluation;
- (E) A reduction in pay, benefits, or awards;

- (A) Suspension or termination of the educational program;
- (B) Transfer or reassignment of the educational program to a less favorable department;
- (C) Relocation of the educational program to a less favorable site within the school or school system; or
- (D) Significant reduction or termination of funding for the educational program, unless necessitated by unfunded mandates from federal or state decisions which result in a significant reduction in funds available to the local board of education and which result in a proportionate loss of funding for all schools in the system. (Code 1981, § 20-2-2067, enacted by Ga. L. 1998, p. 1080, § 3; Ga. L. 1999, p. 81, § 20; Ga. L. 2002, p. 388, § 1.)

The local board and the state board, in accordance with Code Section 20-2-2064.1, may renew a local charter, upon the request of the charter school, for the period of time specified in the request, not to exceed ten years. The state board may renew a state chartered special school, upon the request of the school, for the period of time specified in the request, not to exceed ten years. The initial term of a charter for a charter system shall not exceed five years. The state board may renew the charter of a charter system, upon the request of the local board, for the period of time specified in the request, not to exceed ten years.

later than October 1 of each year. The report submitted by a charter system shall include, but not limited to, data on all of its system charter schools. The report shall contain, but is not limited to:

(1) An indication of progress toward the goals as included in the charter;

(2) Academic data for the previous year, including state academic accountability data, such as standardized test scores and adequate yearly progress data;

(3) Unaudited financial statements for the fiscal year ending on June 30, provided that audited statements will be forwarded to the local board and state board upon completion;

(4) Updated contact information for the school and the administrator, and for charter systems, each system charter school and its respective administrator;

**Editor's notes.** — Ga. L. 2007, p. 185, § 1/SB 39, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'Charter Systems Act.'"

Ga. L. 2007, p. 185, § 2/SB 39, not codified by the General Assembly, provides: "The General Assembly finds that

schools and school systems should be given high flexibility to tailor their educational programs to meet the unique needs of their communities. ## 20-2-2068. Termination of a charter.

(a) The state board may terminate a charter under the following circumstances:

(1)(A) If a majority of the parents or guardians of students enrolled at the charter school vote by a majority vote to request the termination of its charter at a public meeting called with two weeks' advance notice and for the purpose of deciding whether to request the state board to declare the charter null and void; or

(B) If a majority of the faculty and instructional staff employed at the charter school vote by a majority vote to request the termination of its charter at a public meeting called with two weeks' advance notice and for the purpose of deciding whether to request the state board to declare the charter null and void.

This paragraph shall not apply to system charter schools;

(2) If, after providing reasonable notice to the charter school or charter system, as applicable, and an opportunity for a hearing, the state board finds:

(A) A failure to comply with any recommendation or direction of the state board with respect to Code Section 20-14-41;

(B) A failure to adhere to any material term of the charter, including but not limited to the performance goals set forth in the charter;

(b) For a system charter school, if the school council or governing council, as applicable, at such school within the charter system requests that:

(1) The system charter be terminated; or

(2) The system charter be amended with respect to such system charter school,

the state board, after providing reasonable notice to the charter system and the system charter school, shall conduct a hearing. Based on the findings of the hearing, the state board may enter into negotiations with the charter system to amend the charter to address the concerns of the requesting system charter school. If negotiations fail and the state board finds good cause, the state board shall be authorized to terminate the system charter or to amend the system charter with respect to the requesting system charter school; provided, however, that the local board shall be authorized to terminate the system charter if it is unwilling to accept the amendments to such charter by the state board. The term “good cause” includes but is not limited to a local board’s failure to comply with its obligations and duties under the system charter, state board rules, or other applicable law, or other good cause as determined in the sole discretion of the state board. ## OPINIONS OF THE ATTORNEY GENERAL

**State charter schools could qualify for state grants** pursuant to former subsection (d) of O.C.G.A. § 20-2-2068, and a local system was required to treat a state

### 20-2-2068.1. Charter school funding.

(a) A local charter school shall be included in the allotment of QBE formula earnings, applicable QBE grants, applicable non-QBE state grants, and applicable federal grants to the local school system in which the local charter school is located under Article 6 of this chapter. The local board and the state board shall treat a conversion charter school no less favorably than other local schools located within the applicable local school system unless otherwise provided by law. The local board

and the state board shall treat a start-up charter school no less favorably than other local schools within the applicable local system with respect to the provision of funds for instruction, school administration, transportation, food services, and, where feasible, building programs.

(b) QBE formula earnings, applicable QBE grants, applicable non-QBE state grants, and applicable federal grants earned by a local charter school shall be distributed to the local charter school by the local board; provided, however, that state equalization grant earnings shall be distributed as provided in subsection (c) of this Code section. QBE formula earnings shall include the salary portion of direct instructional costs, the adjustment for training and experience, the nonsalary portion of direct instructional costs, and earnings for psychologists and school social workers, school administration, facility maintenance and operation, media centers, additional days of instruction in accordance with Code Section 20-2-184.1, and staff development. The local charter school shall report enrolled students in a manner consistent with Code Section 20-2-160.

(c) In addition to the earnings set out in subsection (b) of this Code section, local revenue shall be allocated to a local charter school on the same basis as for any local school in the local school system. In the case of a start-up charter school, local revenue earnings shall be calculated as follows:

- (1) Determine the total amount of state and local five mill share funds earned by students enrolled in the local start-up charter school as calculated by the Quality Basic Education Formula pursuant to Part 4 of Article 6 of this chapter including any funds for psychologists and school social workers but excluding 5 percent of system-wide funds for central administration and excluding any categorical grants not applicable to the charter school;

- (2) Determine the total amount of state and local five mill share funds earned by all students in the public schools of the local school system, including any charter schools that receive local revenue, as calculated by the Quality Basic Education Formula but excluding categorical grants and other non-QBE formula grants;

- (3) Divide the amount obtained in paragraph (1) of this subsection by the amount obtained in paragraph (2) of this subsection; and

- (4) Multiply the quotient obtained in paragraph (3) of this subsection by the school system's local revenue.

The product obtained in paragraph (4) of this subsection shall be the amount of local funds to be distributed to the local start-up charter school by the local board; provided, however, that nothing in this

subsection shall preclude a charter petitioner and a local board of education from specifying in the charter a greater amount of local funds to be provided by the local board to the local start-up charter school if agreed upon by all parties to the charter. Local funds so earned shall be distributed to the local start-up charter school by the local board. Where feasible and where services are provided, funds for construction projects shall also be distributed to the local start-up charter school as earned. In all other fiscal matters, including applicable federal allotments, the local board shall treat the local start-up charter school no less favorably than other local schools located within the applicable school system and shall calculate and distribute the funding for the start-up charter school on the basis of its actual or projected enrollment in the current school year according to an enrollment counting procedure or projection method stipulated in the terms of the charter.

(c.1) The adjustments in each program for training and experience used in calculating the start-up charter school's QBE formula earnings shall be calculated in the same manner as for any local school within the local school system; provided, however, that the adjustments in each program for training and experience used in calculating the start-up charter school's QBE formula earnings shall not be less than one-half of the comparable percentages for the local school system in which the charter school is located.

(c.2) For newly approved local charter schools, including charter renewals, the local board of education may retain an amount of the charter school's per pupil share of state and local funding not to exceed 3 percent of the total funds earned by the charter school to reimburse the local school system for administrative services actually provided to the charter school.

(d)(1) Effective July 1, 2012, except as otherwise provided in paragraph (2) of this subsection, the department shall pay to each state chartered special school through appropriation of state funds an amount equal to the sum of:

(A)(i) QBE formula earnings and QBE grants earned by the state chartered special school based on the school's enrollment, school profile, and student characteristics. For purposes of this subparagraph, the term "QBE formula earnings" means funds earned for the Quality Basic Education Formula pursuant to Code Section 20-2-161, including the portion of such funds that are calculated in accordance with Code Section 20-2-164. QBE formula earnings shall include the salary portion of direct instructional costs, the adjustment for training and experience, the nonsalary portion of direct instructional costs, and earnings for psychologists and school social workers, school administration, facility maintenance and operation, media centers, addi-

tional days of instruction in accordance with Code Section 20-2-184.1, and staff development, as determined by the department; and

(ii) A proportional share of earned state categorical grants, non-QBE state grants, transportation grants, school nutrition grants, and all other state grants, except state equalization grants, as determined by the department;

(B) The average amount of the total revenues less federal revenues less state revenues other than equalization grants per full-time equivalent for the lowest five school systems ranked by assessed valuation per weighted full-time equivalent count, as determined by the department; and

(C) The state-wide average total capital revenue per full-time equivalent, as determined by the department.

(2) In the event that a state chartered special school offers virtual instruction:

(A) The amount of funds received pursuant to subparagraph (B) of paragraph (1) of this subsection shall be equal to two-thirds of such calculated amount; provided, however, that this two-thirds amount may be increased by any amount up to the originally calculated amount in the discretion of the department if relevant factors warrant such increase; and

(B) The department may reduce the amount of funds received pursuant to subparagraph (C) of paragraph (1) of this subsection in proportion to the amount of virtual instruction provided and based on factors that affect the cost of providing instruction.

(3) For purposes of this subsection, the terms:

(A) "Assessed valuation" is defined as 40 percent of the equalized adjusted property tax digest reduced by the amount calculated pursuant to subsection (g) of Code Section 20-2-164.

(B) "Assessed valuation per weighted full-time equivalent count" is defined as the assessed valuation for the most recent year available divided by the weighted full-time equivalent count for the year of the digest.

(4) The department may withhold up to 3 percent of the amount determined pursuant to paragraphs (1) and (2) of this subsection for each state chartered special school for use in administering the duties required pursuant to this article with respect to state chartered special schools; provided, however, that any amount withheld pursuant to this subsection shall be spent solely on expenses incurred by

the department in performing the duties required by this article with respect to state chartered special schools.

(5) No deduction shall be made to any state funding which a local school system is otherwise authorized to receive pursuant to this chapter as a direct result or consequence of the enrollment in a state chartered special school of a specific student or students who reside in the geographical area of the local school system.

(6) Funding for state chartered special schools pursuant to this subsection shall be subject to appropriations by the General Assembly and such schools shall be treated consistently with all other public schools in this state, pursuant to the respective statutory funding formulas and grants.

(7) The local board shall not be responsible for the fiscal management, accounting, or oversight of the state chartered special school. The state chartered special school shall report enrolled students in a manner consistent with Code Section 20-2-160. Any data required to be reported by the state chartered special school shall be submitted directly by the school to the appropriate state agency. Where feasible, the state board shall treat a state chartered special school no less favorably than other public schools within the state with respect to the provision of funds for transportation and building programs.

(e) The state board may require a local referendum of the qualified voters in the local school system in which the state chartered special school will be located. Such referendum shall be held at the next regularly scheduled general election or as may otherwise be authorized at an earlier date by the local board or boards of education affected. Such referendum shall be held for the purpose of deciding whether the local board of education shall provide funds from school tax levies to support such state chartered special school or incur bonded indebtedness to support such state chartered special school or both. The ballot question shall be approved by the state board.

(f) The local board shall treat a state chartered special school for which the use of funds from local bonded indebtedness and local school tax levies has been approved by qualified voters in the system in accordance with subsection (e) of this Code section no less favorably than other public schools located within the applicable school system.

(g) The local board shall not distribute funds from local bond indebtedness and local school tax levies to a state chartered special school unless such use has been approved by qualified voters in accordance with subsection (e) of this Code section.

(h) For system charter schools, funds including federal, state, and local revenue shall be distributed to each such school by the charter

system in a manner and in such amounts as are provided in the terms of the charter with an objective of maximizing spending at the school level. (Code 1981, § 20-2-2068.1, enacted by Ga. L. 2002, p. 388, § 1; Ga. L. 2005, p. 798, § 15/SB 35; Ga. L. 2007, p. 185, §§ 12, 13/SB 39; Ga. L. 2008, p. 603, § 2/HB 881; Ga. L. 2009, p. 8, § 20/SB 46; Ga. L. 2012, p. 1298, § 2A/HB 797.)

**The 2012 amendment**, effective July 1, 2012, rewrote subsection (d), which read: “QBE formula earnings, applicable QBE grants, applicable non-QBE state grants, and applicable federal grants that are earned by a state chartered special school shall be distributed to the local board of the local school system in which the state chartered special school is located which shall distribute the same amount to the state chartered special school; provided, however, that a state chartered special school shall not be included in the calculation and distribution of the local school system’s equalization grant unless the voters of the local school system have approved the use of revenue from local tax levies and funds from local bonded indebtedness to support the state chartered special school in accordance with subsection (e) of this Code section. If such approval has been given, state equalization grant earnings shall be earned for the state chartered special school and shall be distributed as provided in subsection (f) of this Code section. The local board shall not be responsible for the fiscal management, accounting, or oversight of the state chartered special school. The state chartered special school shall report enrolled students in a manner consistent with Code Section 20-2-160. Any data required to be reported by the state chartered special school shall be submitted directly by the school to the appropriate state agency. Where feasible, the state board shall treat a state chartered special school no less favorably than other public schools within the state with respect to the provision of funds for transportation and building programs.”

In furtherance of this, schools and school systems should be encouraged to use innovative educational programs including local management of schools and should be provided resources to help design and implement innovative programs. The General Assembly further finds that schools and school systems shall be held accountable for student achievement.”

Ga. # ARTICLE 31A

## GEORGIA CHARTER SCHOOLS COMMISSION

**Editor's notes.** — Ga. L. 2012, p. 1298, § 3/HB 797, not codified by the General Assembly, provides that this article shall be repealed effective January 1, 2013, and

that a new article shall be enacted, which is set out following this version, only if a Constitutional amendment expressly authorizing the General Assembly to create

state charter schools as special schools is ratified at the November 2012, general election.

**JUDICIAL DECISIONS**

**Constitutionality.** — Georgia Charter Schools Commission Act, O.C.G.A. § 20-2-2081 et seq., violated the special schools provision of Ga. Const. 1983, Art. VIII, Sec. V, Para. VII(a) by authorizing a state commission to establish competing state-created general K-12 schools under the guise of being special schools. The special schools authorized by the constitu-

tion were not competitors with locally controlled schools in regard to the education of general K-12 students; rather, the constitutionally significant matters that made a school “special” were directly related to the school itself, the school’s student body and the school’s curriculum. *Gwinnett County Sch. Dist. v. Cox*, 289 Ga. 265, 710 S.E.2d 773 (2011).

**OPINIONS OF THE ATTORNEY GENERAL**

**Membership in the Teachers Retirement System.** — Unless and until the General Assembly adopts clarifying legislation, it is within the sound discretion of the Teachers Retirement System Board of Trustees to determine whether

teachers who are employed not less than half-time by commission charter schools must be members of the Teachers Retirement System. 2010 Op. Att’y Gen. No. 2010-5.

**20-2-2080. (For effective date, see note) Legislative findings.**

(a) The General Assembly finds that:

- (1) Charter schools are a critical component in this state’s efforts to provide efficient and high-quality schools within this state’s uniform system of public education;
- (2) Charter schools provide valuable educational options and learning opportunities while expanding the capacity of this state’s system of public education and empowering parents with the ability to make choices that best fit the individual needs of their children; and
- (3) The growth of charter schools in this state has contributed to enhanced student performance, greater efficiency, and increased parental satisfaction.

(b) It is the intent of the General Assembly that:

- (1) There be established a state-level commission whose primary focus is the development and support of charter schools in order to better meet the growing and diverse needs of some of the increasing number and array of charter schools in this state and to further ensure that charter schools of the highest academic quality are approved and supported throughout the state in an efficient manner; and

(2) New sources of community support from cosponsors should be authorized to participate in developing and supporting charter schools, with the goal of maximizing access to a wide variety of high-quality educational options for all students regardless of disability, race, or socioeconomic status, including those students who have struggled in a traditional public school setting. (Code 1981, § 20-2-2080, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**Editor's notes.** — For information as to the delayed, contingent repeal of this Code section, see the editor's note at the beginning of this article.

## 20-2-2081. (For effective date, see note) Definitions.

(1) "Commission" means the Georgia Charter Schools Commission established pursuant to Code Section 20-2-2082.

(2) "Commission charter school" means a charter school authorized by the commission pursuant to this article whose creation is authorized as a special school pursuant to Article VIII, Section V, Paragraph VII of the Constitution. A commission charter school shall exist as a public school within the state as a component of the delivery of public education within Georgia's K-12 education system.

(3) "Cosponsor" means a municipality, county, consolidated government, university or college of the board of regents, technical institution of the Technical College System of Georgia, or regional educational service agency which has been authorized by the commission pursuant to Code Section 20-2-2083.

The definitions set forth in Code Section 20-2-2062 shall be applicable to this article. (Code 1981, § 20-2-2081, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 2008, "Technical College System of Georgia" was substituted for "Department of Technical and Adult Education" in paragraph (3).

**Editor's notes.** — For information as to the delayed, contingent repeal of this Code section, see the editor's note at the beginning of this article.

## JUDICIAL DECISIONS

**Constitutionality.** — Georgia Charter Schools Commission Act, O.C.G.A. § 20-2-2081 et seq., violated the special schools provision of Ga. Const. 1983, Art. VIII, Sec. V, Para. VII(a) by authorizing a state commission to establish competing

state-created general K-12 schools under the guise of being special schools. The special schools authorized by the constitution were not competitors with locally controlled schools in regard to the education of general K-12 students; rather, the

constitutionally significant matters that made a school “special” were directly related to the school itself, the school’s stu-

dent body and the school’s curriculum. *Gwinnett County Sch. Dist. v. Cox*, 289 Ga. 265, 710 S.E.2d 773 (2011).

**20-2-2082. (For effective date, see note) Establishment of Georgia Charter Schools Commission; appointment of commission members; meetings; role; compensation.**

(a) The Georgia Charter Schools Commission is established as a state-level charter school authorizing entity working in collaboration with the Department of Education. Startup funds necessary to establish and operate the commission may be received by the State Board of Education in addition to such other funds as may be appropriated by the General Assembly. The department shall assist in securing federal and other institutional grant funds to establish the commission.

(b) The commission shall be appointed by the State Board of Education and shall be composed of a total of seven members and made up of three appointees recommended by the Governor, two appointees recommended by the President of the Senate, and two appointees recommended by the Speaker of the House of Representatives. The Governor, the President of the Senate, and the Speaker of the House of Representatives shall each recommend a list of no fewer than two nominees for each appointment to the commission. The appointments shall be made as soon as feasible but no later than September 1, 2008. Each member shall serve a term of two years; however, for the purpose of providing staggered terms, of the initial appointments, three members shall be appointed to one-year terms and four members shall be appointed to two-year terms as determined by the State Board of Education. Thereafter, each appointee shall serve a two-year term unless the State Board of Education, after review and upon recommendation by the initial recommending authority, extends the appointment. If a vacancy occurs on the commission, it shall be filled by the State Board of Education from a recommendation by the appropriate authority according to the procedure set forth in this subsection. The members of the commission shall annually vote to appoint a chairperson and a vice chairperson from among its membership. Each member of the commission shall hold a bachelor’s degree or higher, and the commission should include a group of diverse individuals representative of Georgia’s school population who has experience in finance, administration, law, education, public school teaching, and school governance.

(c) The commission is encouraged to convene its first meeting no later than October 1, 2008, and thereafter shall meet at least bimonthly at the call of the chairperson or upon the request of four members of the commission. Four members of the commission shall constitute a quorum.

(d) The commission shall determine the manner in which it reviews commission charter school petitions and may, in its discretion, use existing department personnel to conduct such review.

(e) The members of the commission shall not be compensated for their services on the commission but may be reimbursed for per diem and travel expenses in the same manner as provided for in Code Section 45-7-21. (Code 1981, § 20-2-2082, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**Editor's notes.** — For information as to the delayed, contingent repeal of this Code section, see the editor's note at the beginning of this article.

**20-2-2083. (For effective date, see note) Power and duties of the commission.**

- (a) The commission shall have the power to:
  - (1) Approve or deny petitions for commission charter schools and renew, nonrenew, or terminate commission charter school petitions in accordance with State Board of Education rules and regulations established pursuant to this article. At its discretion, the commission may preliminarily approve a charter petition for a commission charter school before the petitioner has secured space, equipment, or personnel, if the petitioner indicates such preliminary approval is necessary for it to raise working capital. The State Board of Education may overrule the approval, denial, renewal, nonrenewal, or termination of a commission charter school by the commission within 60 days of such decision by the commission upon a vote of at least two-thirds of the members of the state board; provided, however, that a commission charter school petitioner may re-apply to the commission for approval or renewal after remedying any deficiencies cited by the State Board of Education;
  - (2) Authorize cosponsors of commission charter schools; and
  - (3) Conduct facility and curriculum reviews of commission charter schools.

(b) The commission shall have the following duties:

At a minimum, the best practices shall encourage the development and replication of academically and financially proven charter school programs;

(3) Develop, promote, and require high standards of accountability for commission charter schools. The commission shall ensure that each commission charter school participates in the state's education accountability system. If a commission charter school falls short of performance measures included in the approved charter, the commission shall report such shortcomings to the Department of Education;

(4) Monitor and annually review the performance of cosponsors;

(5) Monitor and annually review and evaluate the academic and financial performance, including revenues and expenditures, of commission charter schools and hold the schools accountable for their performance pursuant to the charter and to the provisions of this article. The commission's duties to monitor the charter school shall not constitute the basis for a private cause of action;

(6) Report to each local school system the number of students who reside in such school system and are enrolled in a commission charter school;

(7) Work with its cosponsors to monitor the financial management of each commission charter school;

(8) Direct charter schools and persons seeking to establish charter schools to sources of private funding and support;

(9) Actively seek, with the assistance of the department, supplemental revenue from federal grant funds, institutional grant funds, and philanthropic organizations. The commission may, through the State Board of Education, receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of this article;

(10) Review and recommend to the General Assembly any necessary revisions to statutory requirements regarding standards and accountability for commission charter schools;

(11) Act as liaison for cosponsors and commission charter schools in cooperating with local boards of education that may choose to allow commission charter schools to utilize excess space within school facilities;

(12) Collaborate with cosponsors for the purpose of providing the highest level of public education to all students, including, but not limited to, low-income, low-performing, gifted, and underserved student populations and to students with special needs. Such collaborations shall:

(A) Allow universities and colleges of the board of regents and technical institutions of the Technical College System of Georgia that cosponsor commission charter schools to enable students attending a commission charter school to take college courses and receive high school and college credit for such courses; and

(B) Assist in determining the feasibility of establishing commission charter schools for students with disabilities;

(13) Meet the needs of commission charter schools and local school systems by uniformly administering high-quality commission charter schools, thereby removing administrative burdens from the local school systems;

(15) Provide training for members of commission charter school governing bodies after approval of the charter school. The training shall include, but not be limited to, best practices on charter school governance, the constitutional and statutory requirements relating to public records and meetings, and the requirements of applicable statutes and State Board of Education rules. (Code 1981, § 20-2-2083, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 2008, “Technical College System of Georgia” was substituted for “Department of Technical and Adult Education” in subparagraph (b)(12)(A).

## JUDICIAL DECISIONS

**Constitutionality.** — Georgia Charter Schools Commission Act, O.C.G.A. § 20-2-2081 et seq., violated the special schools provision of Ga. Const. 1983, Art.

VIII, Sec. V, Para. VII(a) by authorizing a state commission to establish competing state-created general K-12 schools under the guise of being special schools. The

special schools authorized by the constitution were not competitors with locally controlled schools in regard to the education of general K-12 students; rather, the constitutionally significant matters that

made a school “special” were directly related to the school itself, the school’s student body and the school’s curriculum. Gwinnett County Sch. Dist. v. Cox, 289 Ga. 265, 710 S.E.2d 773 (2011).

**20-2-2084. (For effective date, see note) Applications for cosponsorships; defining role of cosponsors.**

(a) The commission shall begin accepting applications to act as cosponsors no later than January 31, 2009. The commission shall review and evaluate all applications in accordance with commission rules and regulations established pursuant to this article to encourage technical assistance, academic support, curriculum review, financial assistance, or other support from cosponsors.

(b) Cosponsors shall have no authority to authorize charter schools. Cosponsors may partner with charter petitioners and the commission to provide community support for the proposed charter school. This support may include technical assistance, academic support, curriculum review, financial assistance, or other support as agreed to between the cosponsor and the commission charter school.

(c) Upon approval of a cosponsor, the commission and the cosponsor shall enter into an agreement that defines the cosponsor’s rights and obligations. (Code 1981, § 20-2-2084, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**20-2-2085. (For effective date, see note) Petition requirements for commission charter school.**

(a) Charter school petitions submitted to the commission shall be subject to State Board of Education rules and regulations established pursuant to this article and as otherwise applicable to charter schools.

(b) A petitioner for a commission charter school shall submit a petition for a start-up charter school to the local board of education in which the school is to be located and to each local school system from which the commission charter school plans to enroll students prior to or concurrently with a corresponding petition to the commission unless the proposed commission charter school plans to enroll students from five or more counties; provided, however, that the commission shall not

act on the commission charter school petition until the local board of education or local boards of education have had the opportunity to approve or deny the petition for a start-up charter school in accordance with State Board of Education rules and regulations. Local board of education approval or denial of a start-up charter school petition shall not preclude the petitioner from seeking authorization from the commission. A petitioner shall not be required to seek authorization from the commission for a commission charter school if the local board of education or local boards of education approve the petition for a start-up charter school; provided, however, that such start-up charter school shall be governed by Article 31 of this chapter. The commission shall take into consideration any support or opposition by the local board of education or local boards of education on a start-up charter school petition when it votes to approve or deny a corresponding commission charter school petition. (Code 1981, § 20-2-2085, enacted by Ga. L. 2008, p. 603, § 1/HB 881.)

**20-2-2086. (For effective date, see note) Petition from existing charter schools.**

A petition may be submitted pursuant to this Code section by an existing charter school approved by a local board of education or the State Board of Education provided that the obligations of its charter with the local board of education or State Board of Education will expire prior to entering into a new charter with the commission. A local board of education or the State Board of Education in the case of a state chartered special school may agree to rescind or waive the obligations of a current charter to allow a petition to be submitted by an existing charter school pursuant to this Code section. An existing charter school that is established as a commission charter school pursuant to this Code section shall be allowed to continue the use of all facilities, equipment, and other assets it used prior to the expiration or rescission of its charter with a local board of education. ### **20-2-2090. (For effective date, see note) Funding for commission charter schools.**

(a) The Department of Education shall pay to each commission charter school through appropriation of state and federal funds an amount equal to the sum of:

(1) QBE formula earnings, QBE grants, and federal grants earned by the commission charter school based on the school's enrollment, school profile, and student characteristics. QBE formula earnings shall include the salary portion of direct instructional costs, the adjustment for training and experience, the nonsalary portion of direct instructional costs, and earnings for psychologists and school social workers, school administration, facility maintenance and operation, media centers, additional days of instruction in accordance with Code Section 20-2-184.1, and staff development. For purposes of this paragraph, QBE formula earnings shall not include the additional amount provided for in Code Section 20-2-165.1 earned by a charter system for full-time equivalent students in its schools;

(2) A proportional share of state categorical grants, non-QBE state grants, state equalization grants, and all other state and federal grants; and

(3)(A) An amount determined by the commission for each student enrolled in such school equal to a proportional share of local revenue from the local school system in which the student attending the commission charter school resides; provided, however, that the commission may reduce the amount calculated pursuant to this paragraph based on factors that affect the cost of providing instruction.

(B) In making the funding determination required pursuant to this paragraph, the commission shall take into account the following factors:

(i) In the case of a commission charter school that draws students from multiple school systems, the commission shall

take into account the actual costs of operating such a commission charter school and any efficiencies gained by using an expanded attendance zone; and

(ii) In the case of a commission charter school that plans to offer virtual instruction, the commission may reduce the amount calculated pursuant to this paragraph based on the factors specified in subparagraph (A) of this paragraph.

(b) The department may withhold up to 3 percent of the amount determined pursuant to subsection (a) of this Code section for each commission charter school for use in administering the duties required pursuant to Code Section 20-2-2083; provided, however, that any amount withheld pursuant to this subsection shall be spent solely on expenses incurred by the commission in performing the duties required by this article.

(c) The total allotment of state and federal funds to the local school system in which a student attending a commission charter school resides shall be calculated as otherwise provided in Article 6 of this chapter with an ensuing reduction equivalent to the amount of state and federal funds appropriated to the commission charter schools pursuant to subsection (a) of this Code section.

(d) For purposes of funding students enrolled in commission charter schools in the first year of such charter school's operation and prior to the initial student count, the department shall calculate and distribute the funding for the commission charter school on the basis of its projected enrollment according to an enrollment counting procedure or projection method stipulated in the terms of the charter. After the initial student count during the first year of such commission charter school's operation and in all years of operation thereafter, each commission charter school's student enrollment shall be based on the actual enrollment in the current school year according to the most recent student count. Nothing in this Code section shall be construed to require the department to conduct more than two student counts per year. (Code 1981, § 20-2-2090, enacted by Ga. L. 2008, p. 603, § 1/HB 881; Ga. ARTICLE 31A

STATE CHARTER SCHOOLS

**Delayed effective date.** — This version of this article becomes effective and the Code sections formerly codified at this article are repealed effective January 1, 2013, only if a Constitutional amendment expressly authorizing the General Assembly to create state charter schools as special schools is ratified at the November

2012, general election. If such amendment is not so ratified, then this version of this article shall not become effective and shall stand repealed by operation of law on January 1, 2013, and the Code sections set out preceding this version shall remain in effect.

**20-2-2080. (For effective date, see note) Legislative findings and intent.**

(a) The General Assembly finds that:

(1) State charter schools can serve as a complement to the educational opportunities provided by local boards of education in the state’s system of public education; and

(2) State charter schools do not supplant public schools operated by local boards of education but provide options to enhance public educational opportunities.

(b) It is the intent of the General Assembly that there be established a state-level commission under the authority of the State Board of Education whose primary focus is the development and support of state charter schools in order to better meet the growing and diverse needs of students in this state and to further ensure that state charter schools of the highest academic quality are approved and supported throughout the state in an efficient manner. (Code 1981, § 20-2-2080, enacted by Ga. L. 2012, p. 1298, § 1/HB 797.)

**Editor’s notes.** — For information as to the effective date of this Code section, see the delayed effective date note at the beginning of this article.

**Editor's notes.** — For information as to the effective date of this Code section, see the delayed effective date note at the beginning of this article.

**20-2-2082. (For effective date, see note) State Charter Schools Commission; members; operations.**

(a) The State Charter Schools Commission is established as a state-level authorizing entity working in collaboration with the Department of Education under the authority of the State Board of Education. Start-up funds necessary to establish and operate the commission may be received by the State Board of Education in addition to such other funds as may be appropriated by the General Assembly. The department shall assist in securing federal and other institutional grant funds to establish the commission.

(b) The commission shall be appointed by the State Board of Education and shall be composed of a total of seven members and made up of three appointees recommended by the Governor, two appointees recommended by the President of the Senate, and two appointees recommended by the Speaker of the House of Representatives. The Governor, the President of the Senate, and the Speaker of the House of Representatives shall each recommend a list of no fewer than two nominees for each appointment to the commission. The appointments shall be made as soon as feasible but no later than the first regular meeting of the State Board of Education in February, 2013. Each member shall serve a term of two years; provided, however, that, for the purpose of providing staggered terms, of the initial appointments, three members shall be appointed to one-year terms and four members shall be appointed to two-year terms as determined by the State Board of Education. Thereafter, each appointee shall serve a two-year term unless the State Board of Education, after review and upon recommendation by the initial recommending authority, extends the appointment. If a vacancy occurs on the commission, it shall be filled by the State Board of Education from a recommendation by the appropriate authority according to the procedure set forth in this subsection. The members

of the commission shall annually vote to appoint a chairperson and a vice chairperson from among its membership. Each member of the commission shall hold a bachelor's degree or higher, and the commission should include a group of diverse individuals representative of Georgia's school population, to the extent possible, with respect to race, sex, and geography who have experience in finance, administration, law, and education.

(c) The commission is encouraged to convene its first meeting no later than March 1, 2013, and thereafter shall meet at least bimonthly at the call of the chairperson or upon the request of four members of the commission. Four members of the commission shall constitute a quorum.

(d) The commission shall determine the manner in which it reviews state charter school petitions and may, in its discretion, use existing department personnel to conduct such review.

(e) The members of the commission shall not be compensated for their services on the commission but may be reimbursed for per diem and travel expenses in the same manner as provided for in Code Section 45-7-21.

(f) No commission member shall solicit or accept any gift, favor, loan, contribution, service, promise of future employment, or other thing of value based upon an understanding that the gift, favor, loan, contribution, service, promise, or other thing of value was given or offered for the purpose of influencing that commission member in the discharge of his or her duties as a commission member. (Code 1981, § 20-2-2082, enacted by Ga. L. 2012, p. 1298, § 1/HB 797.)

**20-2-2083. (For effective date, see note) Powers and duties of commission.**

(a) The commission shall have the power to:

(1) Approve or deny petitions for state charter schools and renew, nonrenew, or terminate state charter school petitions in accordance with rules and regulations established pursuant to this article. At its discretion, the commission may preliminarily approve a petition for a state charter school before the petitioner has secured space, equipment, or personnel, if the petitioner indicates such preliminary approval is necessary for it to raise working capital. The State Board of Education shall review and may overrule the approval or renewal of a state charter school by the commission within 60 days of such decision by the commission upon a majority vote of the members of the state board; and

(2) Conduct facility and curriculum reviews of state charter schools.

If a state charter school falls short of performance measures included in the approved charter, the commission shall report such shortcomings to the Department of Education;

(4) Monitor and annually review and evaluate the academic and financial performance, including revenues and expenditures, of state charter schools and hold the schools accountable for their performance pursuant to the charter and to the provisions of this article. The commission shall also review the citizenship and immigration status of each individual that works at a state charter school and aggregate the information by school on an annual basis. The commission's duties to monitor the state charter school shall not constitute the basis for a private cause of action;

(5) Direct state charter schools and persons seeking to establish state charter schools to sources of private funding and support;

(6) Actively seek, with the assistance of the department, supplemental revenue from federal grant funds, institutional grant funds, and philanthropic organizations. The commission may receive and expend gifts, grants, and donations of any kind from any public or private entity to carry out the purposes of this article;

(9) Encourage collaboration with municipalities, counties, consolidated governments, universities or colleges of the board of regents,

technical institutions of the Technical College System of Georgia, and regional educational service agencies;

(10) Meet the needs of state charter schools and local school systems by uniformly administering high-quality state charter schools, thereby removing administrative burdens from the local school systems;

(11) Assist state charter schools in negotiating and contracting with local boards of education that choose to provide certain administrative or transportation services to the state charter schools on a contractual basis; and

(12) Provide for annual training, as determined by the commission, for members of state charter school governing boards. The training shall include, but not be limited to, best practices on school governance, the constitutional and statutory requirements relating to public records and meetings, and the requirements of applicable statutes and rules and regulations.

(c)(1) The commission shall establish rules and regulations requiring each state charter school to provide adequate notice of its enrollment procedures, including any provision for the use of a random selection process where all applicants have an equal chance of being admitted in the event that the number of applications to enroll in the school exceeds the capacity of the program, grade, or school.

(2) The commission shall provide adequate notice to local boards of education and to the public regarding meetings to be held by the commission. Such notice shall include the charter petitions to be discussed and acted upon. Such notice shall be provided in accordance with Chapter 14 of Title 50, relating to open and public meetings. (Code 1981, § 20-2-2083, enacted by Ga. L. 2012, p. 1298, § 1/HB 797.)

**Editor's notes.** — For information as to the effective date of this Code section, see the delayed effective date note at the beginning of this article.

**20-2-2084. (For effective date, see note) State charter school requirements.**

(a) Petitions submitted to the commission shall be subject to rules and regulations established pursuant to this article.

(b) The commission shall be authorized to approve a petition for a state charter school that meets the following requirements:

(1) Has a state-wide attendance zone; or

(2)(A) Has a defined attendance zone; and

(B) Demonstrates that it has special characteristics, such as a special population, a special curriculum, or some other feature or features which enhance educational opportunities, which may include the demonstration of a need to enroll students across multiple communities or an alternative delivery system; provided, however, that the petitioner shall demonstrate a reasonable justification for any proposed special curriculum that has a narrow or limited focus.

(c)(1) For petitions for state charter schools with a state-wide attendance zone, the petitioner shall submit such petition to the commission and concurrently to the local board of education in which the school is proposed to be located for information purposes; provided, however, that this shall not apply to a proposed state charter school which will solely provide virtual instruction.

(2) For petitions for state charter schools with a defined attendance zone, the petitioner shall concurrently submit such petition to the commission, to the local board of education in which the school is proposed to be located, and to each local school system from which the proposed school plans to enroll students. The commission shall not act on a petition unless the local board of education in which the school is proposed to be located denies the petition; provided, however, that such local board shall approve or deny the petition no later than 60 days after its submission, as required pursuant to subsection (b) of Code Section 20-2-2064, unless the petitioner requested an extension. Failure to approve or deny such petition by such local board, in violation of Code Section 20-2-2064, shall be deemed a denial for purposes of this paragraph. A local board that has denied a petition for a state charter school shall be permitted to present to the commission in writing or in person the reasons for denial and the deficiencies in such petition resulting in such denial.

(3) The commission may take into consideration any support or opposition by the local board of education or local boards of education on the start-up charter school petition when it votes to approve or deny a corresponding state charter school petition.

(d) A state charter school shall:

(1) Seek highly qualified, properly trained teachers and other qualified personnel for such schools; provided, however, that such schools shall give preference to hiring an individual who is a citizen or national of the United States over another individual who is not a citizen or national of the United States if the two individuals are equally qualified, unless a teacher is a foreign exchange teacher; provided, however, that prior to hiring an individual other than a citizen or national of the United States or a protected individual as

defined in 8 U.S.C. Section 1324b, the school shall receive approval by the commission and demonstrate that qualified teachers and other personnel were sought but not available in such area which warrants hiring an individual other than a citizen or national of the United States or a protected individual as defined in 8 U.S.C. Section 1324b, unless a teacher is a foreign exchange teacher; provided, further, that the commission and the state charter school shall not construe this paragraph in a manner in violation of 8 U.S.C. Section 1324b or other provisions of law; and

(2) Give preference in contracting and purchasing of services and materials to businesses incorporated under the laws of this state or qualified to do business within this state and having a regularly maintained and established place of business within this state, so long as such businesses are otherwise similarly situated and qualified as compared to a business from out of state.

(e)(1) The members of the governing board for the state charter school shall meet the following qualifications:

(C) Must not be an employee of the state charter school.

(2) No member of the governing board of the state charter school shall:

(B) Solicit or accept or knowingly allow his or her immediate family member or a business organization in which he or she has an interest to solicit or accept any gift, favor, loan, political contribution, service, promise of future employment, or other thing of value based upon an understanding that the gift, favor, loan, contribution, service, promise, or other thing of value was given or offered for the purpose of influencing that board member in the discharge of his or her duties as a board member;

(C) Use, or knowingly allow to be used, his or her position or any information not generally available to the members of the public which he or she receives or acquires in the course of and by reason of his or her position for the purpose of securing financial gain for himself or herself, his or her immediate family member, or any business organization with which he or she is associated; or

(D) Be an officer or serve on the board of directors of any organization that sells goods or services to that state charter school.

As used in this paragraph, the term “immediate family member” means a spouse, child, sibling, or parent or the spouse of a child, sibling, or parent.

(f) The members of the governing board of each state charter school shall participate in annual training conducted by the commission pursuant to paragraph (12) of subsection (b) of Code Section 20-2-2083.

(g) An individual that works at a state charter school or an individual that has administrative oversight at a state charter school shall not serve on the board of directors of an organization that sells goods or services to such state charter school. (Code 1981, § 20-2-2084, enacted by Ga. L. 2012, p. 1298, § 1/HB 797.)

**Editor’s notes.** — For information as to the effective date of this Code section, see the delayed effective date note at the beginning of this article.

**20-2-2085. (For effective date, see note) Petitions by existing charter schools.**

A petition may be submitted pursuant to this Code section by an existing charter school approved by a local board of education or the State Board of Education provided that the obligations of its charter with the local board of education or State Board of Education will expire prior to entering into a new charter with the commission. Upon the existing charter school’s request, a local board of education or the State Board of Education in the case of a state chartered special school may agree to rescind or waive the obligations of a current charter to allow a petition to be submitted by an existing charter school pursuant to this Code section. state charter school through appropriation of state funds an amount equal to the sum of:

(2) In the event that a state charter school offers virtual instruction:

(A) The amount of funds received pursuant to subparagraph (B) of paragraph (1) of this subsection shall be equal to two-thirds of such calculated amount; provided, however, that this two-thirds amount may be increased by any amount up to the originally calculated amount in the discretion of the commission if relevant factors warrant such increase; and

(B) The commission may reduce the amount of funds received pursuant to subparagraph (C) of paragraph (1) of this subsection in proportion to the amount of virtual instruction provided and based on factors that affect the cost of providing instruction.

(3) For purposes of this subsection, the terms:

(A) "Assessed valuation" is defined as 40 percent of the equalized adjusted property tax digest reduced by the amount calculated pursuant to subsection (g) of Code Section 20-2-164.

No later than July 1 of each year, the commission shall notify the department and the Office of Planning and Budget of the funding estimates calculated pursuant to this subsection for any new state charter schools and for any new grade levels offered by existing state charter schools. After the initial student count during the first year of such state charter school's operation or newly offered grade level and in all years of operation thereafter, each state charter school's student enrollment shall be based on the actual enrollment in the current school year according to the most recent student count. Nothing in this Code section shall be construed to require the department to conduct more than two student counts per year.

(e) Funding for state charter schools pursuant to this Code section shall be subject to appropriations by the General Assembly and such schools shall be treated consistently with all other public schools in this state, pursuant to the respective statutory funding formulas and grants. (Code 1981, § 20-2-2089, enacted by Ga. L. 2012, p. 1298, § 1/HB 797.)

- (5) Nothing in this article shall be construed as a basis for granting vouchers or tuition tax credits for any other students, with or without disabilities. (Code 1981, § 20-2-2111, enacted by Ga. L. 2007, p. 197, § 1/SB 10.)

The public school system may accept the student, and if it does, such system shall report the student for purposes of funding to the department;

(3) The parent may choose for the student to attend one of the state schools for the deaf and blind operated by the State Board of Education, if appropriate for the student's needs. Funding for such students shall be provided in accordance with Code Section 20-2-302; or

(4) The parent may request and receive from the department a scholarship for the student to enroll in and attend a participating private school in accordance with this article. (Code 1981, § 20-2-2113, enacted by Ga. L. 2007, p. 197, § 1/SB 10.)

The report must confirm that the school desiring to participate is insured and the owner or owners have sufficient capital or credit to operate the school for the upcoming school year serving the number of students anticipated with expected revenues from tuition and other sources that may be reasonably expected. The report shall be limited in scope to those records that are necessary for the department to make a determination on fiscal soundness and to make payments to schools for scholarships;

(e) A participating school intending to enroll scholarship students shall submit an application to the department by June 30 of the school year preceding the school year in which it intends to enroll scholarship students. The notice shall specify the grade levels and services that the school has available for students with disabilities who are participating in the scholarship program. This shall not include any federal funds.

(b) The amount of the scholarship shall be the lesser of the amount calculated in subsection (a) of this Code section or the amount of the participating school's tuition and fees, if applicable. The amount of any assessment fee required by the participating school may be paid from the total amount of the scholarship.

(c) Scholarship students shall be counted in the enrollment of their resident school system; provided, however, that this count shall only be for purposes of determining the amount of the scholarship and the scholarship students shall not be included as enrolled for purposes of state or federal accountability requirements, including, but not limited to, the federal Elementary and Secondary Education Act, as amended by the No Child Left Behind Act of 2001 (P.L. 107-110). The funds needed to provide a scholarship shall be subtracted from the allotment payable to the resident school system.

(d) Each local school system shall submit quarterly reports to the department on dates established by the department stating the number

of scholarship students in the resident school system. Following each notification, the department shall transfer from the state allotment to each school system the amount calculated under Code Section 20-2-161 to a separate account for the scholarship program for quarterly disbursement to the parents of scholarship students. When a student enters the program, the department must receive all documentation required for the student's participation, including the participating school's and student's fee schedules at least 30 days before the first quarterly scholarship payment is made for the student. The department may not make any retroactive payments.

(e) Upon proper documentation received by the department, the department shall make quarterly scholarship payments to the parents of scholarship students on dates established by the department during each academic year in which the scholarship is in force. The initial payment shall be made upon evidence of admission to the participating school, and subsequent payments shall be made on evidence of continued enrollment and attendance at the participating school.

(h) If the participating school requires partial payment of tuition prior to the start of the academic year to reserve space for students admitted to the school, that partial payment may be paid by the department prior to the first quarterly payment of the year in which the scholarship is awarded, up to a maximum of \$1,000.00, and deducted from subsequent scholarship payments. If a student decides not to attend the participating school, the partial reservation payment must be returned to the department by such school. Only one reservation payment per student may be made per year. (Code 1981, § 20-2-2116, enacted by Ga. L. 2007, p. 197, § 1/SB 10.)

The department shall develop and utilize a compliance form for completion by participating schools. The department shall be authorized to require any pertinent information as it deems necessary from participating schools for the purpose of implementing the program. Participating schools shall be required to complete such forms and certify their accuracy.

(b) No liability shall arise on the part of the department or the state or of any local board of education based on the award or use of a scholarship awarded pursuant to this article.

(c) The department may bar a school from participation in the program if the department determines that the school has intentionally and substantially misrepresented information or failed to refund to the state any scholarship overpayments in a timely manner. (Code 1981, § 20-2-2117, enacted by Ga. L. 2007, p. 197, § 1/SB 10; Ga. L. 2008, p. 324, § 20/SB 455.)

**20-2-2118. Annual report.**

The Office of Student Achievement, in conjunction with the department, shall provide the General Assembly not later than December 1 of each year with a report regarding the scholarship program for the previous fiscal year. The report shall include, but not be limited to, numbers and demographics of students participating and numbers of participating schools. #### DEFINITIONS

#### 20-3-1. Definitions.

As used in this chapter, the term:

(1) "Board of regents" or "board" means the Board of Regents of the University System of Georgia.

(2) "University system" or "system" means the University System of Georgia.

### OPINIONS OF THE ATTORNEY GENERAL

**Participation by legislative officers in regional education board's functions constitutional.** — Since the functions of the Southern Regional Education Board are now in fact essentially information gathering and advisory, performed with a view toward assisting the several states in their separate educational planning services, participation by legislative officers in those functions does not involve any constitutional violation. 1975 Op. Att'y Gen. No. 75-142.

**buildings without advertising for bids** when no federal funds are involved. 1945-47 Op. Att'y Gen. p. 227.

**If the board advertises for bids, the board should not prevent any contractor from bidding,** although the board may reserve the right to reject bids from persons not qualified to do the work. 1945-47 Op. Att'y Gen. p. 227.

## PART 1

### BOARD OF REGENTS

#### 20-3-20. Creation; change of name of "Trustees of the University of Georgia."

(a) The board of regents is created.

(b) The name of the corporation established prior to January 1, 1932, and existing under the name and style, "Trustees of the University of Georgia," is changed to "Regents of the University System of Georgia." (Ga. L. 1931, p. 7, § 45; Code 1933, § 32-101; Ga. L. 1943, p. 670, §§ 1, 2; Ga. L. 1972, p. 1015, §§ 2201, 2202.)

**Law reviews.** — For note analyzing sovereign immunity in this state and proposing implementation of a waiver

scheme and creation of a court of claims, see 27 Emory L.J. 717 (1978).

### JUDICIAL DECISIONS

**Editor's notes.** — In light of the similarity of the statutory provisions, decisions under former Code 1910, § 1364, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Waiver of immunity.** — Although the Regents of the University System of Georgia is a corporate body, established by former Code 1933, § 32-101, neither that act nor any following it have granted the corporation any power to sue or be sued. Regents of the University System of Georgia are therefore immune from suit under former Code 1933, § 32-101.1 because the powers and duties of the corporation have not been raised to constitutional status. *McCafferty v. Medical College*, 249 Ga. 62, 287 S.E.2d 171 (1982).

Power of the board of regents of the university system to sue and be sued waives Eleventh Amendment immunity in both state and federal courts. *McCroan v. Bailey*, 543 F. Supp. 1201 (S.D. Ga. 1982).

**Immunity of regents from suit.** — Although the regents is a corporate body, established by O.C.G.A. § 20-3-20, neither the statute nor any other provision following the statute have granted the corporation any power to sue or be sued. The board of regents is therefore immune from suit under O.C.G.A. § 20-3-36, since there is no constitutional provision to the contrary. *McCafferty v. Medical College*, 249 Ga. 62, 287 S.E.2d 171 (1982).

**Regents of the University System of Georgia is a distinct corporate entity**, though controlled by a board of regents. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934); *American Sur. Co. v. Griffin Banking Co.*, 50 Ga. App. 460, 178 S.E. 481 (1935).

**Regents and board of regents are not two separate entities.** There is but one entity in which are vested the government, control, and management of the University System of Georgia. *Azizi v. Board of Regents*, 132 Ga. App. 384, 208

S.E.2d 153 (1974), cert. dismissed, 233 Ga. 487, 212 S.E.2d 627 (1975).

**University corporation is not the state, or a state agency**, but is a creature of the state, and a debt of the creature does not stand upon a level with the creator and never can rise thereto, and the "regents of the University System of Georgia" is a corporation; thus, the state may be likened to a stockholder of which the regents are the directors. *American Sur. Co. v. Griffin Banking Co.*, 50 Ga. App. 460, 178 S.E. 481 (1935).

**Regents of University System of Georgia is not mere private corporation**, but instrument of state for performing one of the functions of the government of the State of Georgia, to wit: that of the education of the state's people. *State v. Davison*, 198 Ga. 27, 31 S.E.2d 225 (1944).

**Regents of the University System of Georgia is a governmental agency** of the state in charge of property of which the title is in the state. *Azizi v. Board of Regents*, 132 Ga. App. 384, 208 S.E.2d 153 (1974), cert. dismissed, 233 Ga. 487, 212 S.E.2d 627 (1975).

**Property granted by state for learning vested in trustees.** — All money or property granted by the state or by individuals for the advancement of learning is vested in the trustees. *Trustees of Univ. of Ga. v. Denmark*, 141 Ga. 390, 81 S.E. 238 (1914), overruled on other grounds, *Hood v. First Nat'l Bank*, 219 Ga. 283, 133 S.E.2d 19 (1963) (decided under former Code 1910, § 1364).

**Trustees exercise none of the functions of civil officers.** *Trustees of Univ. of Ga. v. Denmark*, 141 Ga. 390, 81 S.E. 238 (1914), overruled on other grounds, *Hood v. First Nat'l Bank*, 219 Ga. 283, 133 S.E.2d 19 (1963) (decided under former Code 1910, § 1364).

**All branches of university suable.** — By former section, the state expressly gave the state's consent for the university to be sued, and this includes all the branches of the university. *First Dist.*

Agri. & Mechanical Sch. v. Reynolds, 11 Ga. App. 650, 75 S.E. 1060 (1912) (decided under former Code 1910, § 1364).

OPINIONS OF THE ATTORNEY GENERAL

**University boards and directors abolished and corporation established in their place.** — It was not the intent of this article to repeal any of the laws creating the institutions comprising the University of Georgia or its branches; the effect of this article was merely to abolish the boards of trustees or directors of these institutions and establish in their place the Regents of the University Sys-

tem of Georgia. 1970 Op. Att’y Gen. No. 70-173.

**Employment by board of regents constitutes employment by state department or agency.** — Employment by the board of regents in a position in the University System of Georgia is employment by or the rendition of services for a state department or agency. 1981 Op. Att’y Gen. No. 81-13.

OPINIONS OF THE ATTORNEY GENERAL

**Appointee may act as attorney or hold political party office.** — No impediment to membership on the board of regents exists by reason of an appointee acting as a county attorney, city attorney, or private attorney, or holding office in a political party. 1974 Op. Att’y Gen. No. 74-20.

**sonal liability insurance as part of the compensation** the board pays to the board's officers and employees. 1973 Op. Att'y Gen. No. 73-167.

**20-3-29. Separate appropriation for expense.**

The expense of the board of regents, other than that of the institutions under its control, shall be met out of a separate appropriation enacted for its maintenance and support. (Ga. L. 1931, p. 7, § 77; Code 1933, § 32-133.)

**OPINIONS OF THE ATTORNEY GENERAL**

**Board cannot donate supplies or services to credit union when expenses borne by General Assembly.** — Board of regents may not donate to a privately organized credit union any office

space, supplies, or telephone services when the expenses for these are borne by appropriations of the General Assembly. 1967 Op. Att'y Gen. No. 67-418.

**20-3-30. Procedural rules and regulations; terms of officers; powers and duties of former boards transferred.**

The board of regents may establish such rules and regulations for its own direction as it may deem proper; may fix the term of office of its chairman, its vice-chairman, and its secretary; and is vested with all of the powers, privileges, and rights vested in former boards of trustees of the University of Georgia and all former boards of trustees or directors of its branches. It is charged with all of the duties, obligations, and responsibilities incumbent upon or pertaining to the former boards. (Ga. L. 1931, p. 7, §§ 55, 65, 70; Code 1933, §§ 32-112, 32-127, 32-128.)

**JUDICIAL DECISIONS**

**Valid employment contract enforceable against state.** — Valid and authorized contract of employment between the state department having charge of the university system and a person for the position of instructor of one of the university's branches is enforceable against the state and should be performed by the state according to the contract's

terms and provisions. *Regents of Univ. Sys. v. Blanton*, 49 Ga. App. 602, 176 S.E. 673 (1934).

**OPINIONS OF THE ATTORNEY GENERAL**

**Board vested with title to trusts of former trustees.** — Board of regents is vested with title to, and is thereby trustee of, any trust of which the Trustees of the University of Georgia were trustees. 1971 Op. Att'y Gen. No. 71-146.

**Officials acting in good faith not liable to student expelled for breaking reasonable rules.** — As long as the

officials of the colleges and universities of the State of Georgia act in good faith while discharging their duties and responsibilities in enforcing the reasonable rules and regulations set down by the colleges and universities, the officials are not liable to any student expelled for breaking such rules and regulations. 1960-61 Op. **20-3-31. General powers.**

The board of regents shall have power:

- (1) To make such reasonable rules and regulations as are necessary for the performance of its duties;
- (2) To elect or appoint professors, educators, stewards, or any other officers necessary for all of the schools in the university system, as may be authorized by the General Assembly; to discontinue or remove

them as the good of the system or any of its schools or institutions or stations may require; and to fix their compensations;

(3) To establish all such schools of learning or art as may be useful to the state and to organize them in the way most likely to attain the ends desired; and

(4) To exercise any power usually granted to such corporation, necessary to its usefulness, which is not in conflict with the Constitution and laws of this state. (Ga. L. 1931, p. 7, § 61; Code 1933, § 32-121.)

### JUDICIAL DECISIONS

**Paragraph (4) of this section is not indefinite, uncertain, or unconstitutional.** *Villyard v. Regents of Univ. Sys.*, 204 Ga. 517, 50 S.E.2d 313 (1948) (see O.C.G.A. § 20-3-31).

**Obligation incurred by board is not state debt and is not affected by constitutional limitations** upon state indebtedness. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**"Such corporation" refers to like corporations.** — Considering the history of this legislation, the phrase "such corporation" was not intended to designate the particular corporation, but should be understood as referring to like corporations; that is, the board of regents is to exercise any power usually granted corporations of like character. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Regents may exercise usual powers of "such corporations".** — Limited only by their proper discretion and by the Constitution and law of this state, the Regents of the University System of Georgia may exercise any power usually granted to such corporations. *Villyard v. Regents of Univ. Sys.*, 204 Ga. 517, 50 S.E.2d 313 (1948).

**Regents are untrammelled in their duties and powers except by restraints of law** which are directly expressed or necessarily implied. *Villyard v. Regents of Univ. Sys.*, 204 Ga. 517, 50 S.E.2d 313 (1948).

While the University Board of Regents' Policy manual directed the member institutions to forward recommendations for new administrators and chaired professors to the board for approval, there was nothing in the manual that prevented the board from waiving this provision or from delegating the board's hiring authority to its member institutions. *Board of Regents of the Univ. Sys. v. Doe*, 278 Ga. App. 878, 630 S.E.2d 85 (2006).

**Regents have duty of deciding what is necessary for the usefulness of the various institutions** and a court of equity will not interfere with the regents' judgment unless it appears to be arbitrary and amounts to an abuse of discretion. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Regents may enter into contract necessary for school institutions' usefulness.** — Although the state is the equitable and beneficial owner of all property now vested in the regents, who are the holders only of legal title, it does not follow that the regents may not enter into any contract which in the regents' reasonable discretion is necessary for the usefulness of school institutions, or may not incur liabilities in the regents' own name for that purpose. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Regents authorized to buy land, construct buildings, and charge fees.** — Board of regents has authority to buy

land for college purposes, to construct dormitories, gymnasia, and other necessary buildings, and to charge reasonable fees for the buildings' use. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Regents may lease gymnasia to corporate athletic associations** connected, respectively, with the institutions at which the buildings are located. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Regents may charge reasonable student fees.** — There is no law, either constitutional or statutory, which prevents the board of regents from charging reasonable matriculation, laboratory, hospital, and athletic fees against students. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Board of regents is vested with sufficient authority to issue bonds and to obtain loans.** *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**No abuse of discretion appears in a proposal to require students to occupy new buildings** in preference to existing buildings in order that fees charged for the buildings' use may create an income to retire bonds issued for the

purpose of raising funds with which to construct the buildings. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Valid employment contract enforceable against state.** — Valid and authorized contract of employment between the state department having charge of the university system and a person for the position of instructor of one of the university's branches is enforceable against the state and should be performed by the state according to the contract's terms and provisions. *Regents of Univ. Sys. v. Blanton*, 49 Ga. App. 602, 176 S.E. 673 (1934).

**Regents not enjoined from operating laundry service for those connected with school.** — Petition seeking to enjoin the regents from operating a laundry and dry-cleaning service at reduced prices in an educational institution for the benefit of students and persons connected with the school failed to set forth a cause of action. *Villyard v. Regents of Univ. Sys.*, 204 Ga. 517, 50 S.E.2d 313 (1948).

## OPINIONS OF THE ATTORNEY GENERAL

### **Authorized regulations resulting from proper action have force of law.**

— When regulations pursuant to this section are the result of proper action and are based on a specific grant of authority, the regulations have the force and effect of state law. 1972 Op. Att'y Gen. No. 72-36 (see O.C.G.A. § 20-3-31).

**Purchase of motor vehicle legal when used only for transporting students.** — Purchase of a motor vehicle for the University of Georgia is legal if the vehicle is not to be used for the transportation of officers, officials, or employees of the state but only for transporting students carrying on lawful activities of the university. 1962 Op. Att'y Gen. p. 442.

Purchase with state funds of an automobile as an instrument carrier and field collections vehicle and to transport students on field trips in a course in plant

sciences at the University of Georgia is authorized. 1962 Op. Att'y Gen. p. 443.

**Regents may authorize units of university system to enter into tax-sheltered annuity plans for employees.** 1965-66 Op. Att'y Gen. No. 65-69.

**Regents may establish any form of compensation for employees.** — There is no constitutional provision or statute which would preclude the board of regents from establishing a trust fund or any other form of compensation for its own employees for performing educational work beneficial to the state. 1968 Op. Att'y Gen. No. 68-284.

**Establishment of tax deferred plans.** — Board of regents may authorize institutions within the university system to establish tax deferred plans allowed by § 401(k) of the Internal Revenue Code or

may enter into agreements establishing such plans for the benefit of employees at institutions within the university system. 1985 Op. Att'y Gen. No. 85-9.

**Establishment of deferred compensation plans.** — Board of regents may establish deferred compensation plans allowed by § 457 of the Internal Revenue Code. 1985 Op. Att'y Gen. No. 85-20.

**Selling supplies to government installations not objectionable when enterprise university related.** — Units in the University System of Georgia may operate incidental businesses, and this authority extends to such incidental enterprises being patronized by persons other than students and faculty members of the institution; selling supplies to federal and state installations is not objectionable so long as the primary purpose and justification for the enterprise is related to the operation of the university. 1970 Op. Att'y Gen. No. 70-27.

**Board may purchase insurance policy to protect another in exchange for rights under agreement.** — Board of regents may legally purchase a policy of public liability insurance to protect another party when the purchase is the consideration flowing in exchange for rights flowing to regents under an agreement. 1970 Op. Att'y Gen. No. 70-57.

**Board has power to extend health service program to spouses of students and their dependents.** 1972 Op. Att'y Gen. No. 72-120.

**Board may expend "matching funds" to secure federal grants for carrying out research projects which fall within the scope of the board's authorized activities, specifically, economic research to consider means of alleviating the unemployment and other economic problems which may be anticipated as the result of national defense program adjustments and the closure of military bases within the State of Georgia.** 1974 Op. Att'y Gen. No. 74-44.

**Board has concurrent jurisdiction over charges of unlawful employment discrimination.** — Georgia Office of Fair Employment Practices and the board of regents have concurrent jurisdiction over

charges of unlawful employment discrimination in the university system. If either GOFEP or the board of regents renders a final administrative determination, the other agency is barred from reconsidering those issues considered in the earlier administrative proceeding, provided the same parties are involved in both proceedings. 1980 Op. Att'y Gen. No. 80-74.

**Board is subject to coverage of Fair Employment Practices Act, Ga. L. 1978, p. 859, § 25 (see O.C.G.A. § 45-19-20 et seq.).** 1980 Op. Att'y Gen. No. 80-74.

**Component university institutions may market agricultural products produced upon lands and premises utilized by the university.** 1976 Op. Att'y Gen. No. U76-40.

**Regents not empowered to waive sovereign immunity.** — Judiciary of this state would find that the powers delegated to the regents do not include by clear implication the power to waive sovereign immunity by the contractual assumption of tort liability. 1965-66 Op. Att'y Gen. No. 66-261.

**Board of regents may not spend state funds to contract with collection agency which will assume responsibility for the collection of national defense student loans.** 1968 Op. Att'y Gen. No. 68-5.

**Ability of board to issue revenue obligations.** — Legal ability of the board of regents to incur debt by issuing revenue obligations is doubtful. 1988 Op. Att'y Gen. No. 88-21.

**Payment to employees of board for unused annual leave when transferring.** — Employees of the Board of Regents of the University System of Georgia may be paid for their unused annual leave when employees transfer from one member institution to another member institution provided that the policies of the board of regents are amended to authorize such a payment. 1990 Op. Att'y Gen. No. 90-23.

(a) The board of regents is authorized and directed to establish a program whereby citizens of this state who are 62 years of age or older may attend units of the University System of Georgia without payment of fees, except for supplies and laboratory or shop fees, when space is available in a course scheduled for resident credit. Such program shall not include attendance at classes in dental, medical, veterinary, or law schools. Persons who attend units of the University System of Georgia under the program established pursuant to this Code section shall not be counted as students by the board of regents for budgetary purposes. The board of regents shall adopt and promulgate rules and regulations, not inconsistent with this Code section, to carry out the provisions of this Code section.

(b) The program for senior citizens provided for by subsection (a) of this Code section shall be a continuation, without interruption, of the program for elderly citizens heretofore established by the board of regents pursuant to the requirements of Article VIII, Section IV, Paragraph II of the Constitution of the State of Georgia of 1976. Such heretofore established program is ratified, confirmed, and continued without the necessity of the reestablishment of such program by the board of regents. (Code 1981, § 20-3-31.1, enacted by Ga. L. 1983, p. 496, § 1.)

(b) Whenever any such modifications, changes, consolidations, or suspensions are put into effect, the board is authorized to readjust

It shall be lawful for the board of regents to invest any trust funds held by the board in real estate or in any improvements or buildings which the board in its discretion may see fit to make or erect thereon; provided, however, that no money belonging to any trust fund shall be used for such purpose or purposes if such use or uses would be contrary to the specific provisions of the instrument setting up the trust; and provided, further, all investments made of trust funds under this Code section shall in the judgment of the board be revenue producing investments wherever the trust funds so invested are of a trust which requires investment to produce revenue. ### 20-3-36. Applicability of sovereign immunity doctrine.

## JUDICIAL DECISIONS

**Editor's notes.** — In light of the similarity of the statutory provisions, decisions under former Ga. L. 1935, p. 7, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Section conflicts with Constitution, which does not prevent suit by or against board of regents.** — Since it is clear that the power to sue and be sued existed in the board of regents at the time of the adoption of the 1943 constitutional amendment and the 1945 Constitution and was reenacted as part of the 1976 Constitution, an Act attempting to provide sovereign immunity for the board of regents is in direct conflict with the constitution. As to the board of regents, O.C.G.A. § 20-3-36 is an attempt to diminish the powers and duties of the board of regents contrary to the constitution, and in no way prevents the board of regents from suing to protect the board's other powers and duties or from being sued. *McCafferty v. Medical College*, 249 Ga. 62, 287 S.E.2d 171 (1982).

**Regents immune from suit.** — Although the Regents of the University System of Georgia is a corporate body, estab-

lished by O.C.G.A. § 20-3-20, neither that section nor any other provision following the statute have granted the corporation any power to sue or be sued. The regents are therefore immune from suit under O.C.G.A. § 20-3-36, since the powers and duties of the corporation do not have the constitutional status of the board of regents' powers and duties. *McCafferty v. Medical College*, 249 Ga. 62, 287 S.E.2d 171 (1982).

**Suit against regents is suit against the state and cannot be maintained without the state's consent.** *Ramsey v. Hamilton*, 181 Ga. 365, 182 S.E. 392 (1935) (decided under former Ga. L. 1935, p. 7).

**Board's immunity under the doctrine of sovereign immunity was not waived,** when an endorsement eliminating the self-insurance character of the board's insurance plan was not void for any failure to comply with the provisions of the Insurance Code, which does not apply to the board. *Board of Regents v. Tyson*, 261 Ga. 368, 404 S.E.2d 557 (1991).

Board's immunity under the doctrine of sovereign immunity was not waived, when hospital records, including a "consent to care" form, upon which a patient's

action was based, did not constitute a written contract. *Board of Regents v. Tyson*, 261 Ga. 368, 404 S.E.2d 557 (1991).

**Board's sovereign immunity was waived.** — Trial court properly granted summary judgment to an applicant for university employment as to the issue of finding a valid and written contract, thus finding that the state's sovereign immunity was waived; however, summary judgment was reversed as jury issues remained as to: (1) whether the university board of regents breached the contract; (2) whether university officials violated an implied duty to use their best efforts to secure the board's approval of the applicant's appointment, whether the officials acted in bad faith when the applicants withdrew the appointment, and whether the officials were solely responsible for the

failure of the board to vote on the appointment; and (3) whether the applicant's alleged misconduct rendered the continued pursuit of the appointment impossible or impracticable, and whether the applicant ratified the withdrawal of the appointment. *Board of Regents of the Univ. Sys. v. Doe*, 278 Ga. App. 878, 630 S.E.2d 85 (2006).

## OPINIONS OF THE ATTORNEY GENERAL

**Employment by board of regents constitutes employment by state department or agency.** — Employment by the board of regents in a position in the

Rushing*, 1 Ga. App. 468, 57 S.E. 1083 (1907) (decided under former Code 1910, § 1397).

**Trustees of the State Normal School have authority to ordain and establish rules and by-laws** for the regulation

of the school and the training and governing of the students as in their opinion may be proper to secure the success of the school. *Davison-Nicholson Co. v. Pound*, 147 Ga. 447, 94 S.E. 560 (1917) (decided under former Code 1910, § 1397).

### JUDICIAL DECISIONS

**Editor's notes.** — In light of the similarity of the statutory provisions, decisions under former Code 1910, § 1398(2), which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Regents of the University System of Georgia is a distinct corporate entity**, though controlled by a board of regents. *State v. Regents of Univ. Sys.*, 179 Ga. 210, 175 S.E. 567 (1934).

**Power to make rules for State Normal School has not been abrogated or changed** by any subsequent act of the legislature. *Davison-Nicholson Co. v. Pound*, 147 Ga. 447, 94 S.E. 560 (1917) (decided under former Code 1910, § 1398(2)).

**If good faith discretion, no liability to one with whom students forbidden to deal.** — Wide discretion is necessarily vested in the governing board to determine the conditions on which persons may deal with the institution or student body, and if this discretion is exercised in good faith, there will, in general, according to respectable authority, be no liability to one with whom the students have been forbidden to deal. *Davison-Nicholson Co. v. OPINIONS OF THE ATTORNEY GENERAL

**University boards and directors abolished and regents established in their place.** — It was not the intent of the General Assembly to repeal any of the laws creating the institutions comprising the University of Georgia or its branches; the effect of this statute was merely to abolish the boards of trustees or directors of these institutions and establish in the board's place the Regents of the University System of Georgia. 1970 Op. Att'y Gen. No. 70-173.

**Former Code 1933, § 32-911, strictly construed, applied only to county boards of education** and should not be extended by construction or implication so as to repeal or amend the constitutional and statutory provisions applicable to the powers of the Board of Regents of the University System of Georgia to make rules and regulations with respect to en-

trance requirements for any of the university's institutions, including admission requirements concerning physical examinations, vaccination against smallpox, and immunization against tetanus and poliomyelitis. 1960-61 Op. Att'y Gen. p. 571 (rendered under former Code 1933, § 32-911, prior to revision by Ga. L. 1981, p. 756, § 1).

**Board of regents may promulgate such rules regulating students' off-campus housing as are reasonably necessary** to the government, control, and management of the institution and its purpose of providing an education to the students; if the board finds it necessary that students living in off-campus facilities remain in such facilities for a specific period of time, it would be in order to promulgate a rule to that effect. 1967 Op. Att'y Gen. No. 67-59.

OPINIONS OF THE ATTORNEY GENERAL

**Regents not empowered to waive sovereign immunity.** — Judiciary of this state would find that the powers delegated to the regents do not include by

### 20-3-53. Authority to allocate appropriations among institutions.

All appropriations for the use of any or all institutions in the university system shall be paid to the board of regents in a lump sum, with the power and authority in said board to allocate or distribute them among the institutions under its control in such a way and manner and in such amount or amounts as will further an efficient and economical administration of the system. **Purchase of motor vehicle legal when used only for transporting students.** — Purchase of a motor vehicle for the University of Georgia is legal when the vehicle is not to be used for the transportation of officers, officials, or employees of the state but only for transporting stu-

The Office of the State Treasurer is directed, out of any unexpended appropriation to the University of Georgia and any of its branches, to pay to the board of regents, at periods and times provided by law, such sums as may be requisitioned by the board and as may be approved by the Governor, upon warrants of the Governor, to and for the use of the University of Georgia or any of its branches or any or each of them, respectively. All money or sums of money payable under this Code section to the board shall be paid to an official elected or appointed by the board, which official shall, on or before entering upon the discharge of his duties, give good and solvent bond with a surety company qualified to do business in this state as surety for the faithful performance of his duties and faithful accounting for all moneys coming into his hands as such official, which bond shall be payable to the Governor and his successor in office. ### 20-3-57. Property of institutions vested in regents separately.

In addition to the foregoing powers, each such governing body shall have the right and authority to issue bonds in accordance with the Constitution and laws of this state for any of the aforesaid purposes; provided, only, that prior to exercising such right or authority, any such board of education or governing body shall have agreed by contract to convey any such property so acquired or to contribute such funds, and the board of regents, acting as aforesaid, shall have agreed to accept any such property or contribution and to acquire, construct, and equip such buildings and facilities and to operate and maintain them as a unit of the university system rather than as a part of the public school system of this state. (Ga. L. 1919, p. 288, § 107; Code 1933, § 32-933; Ga. L. 1963, p. 617, § 1.)

### JUDICIAL DECISIONS

(a) All properties owned or held by the board of regents pursuant to this chapter which have been declared to be the public property of the state may be sold, leased, or otherwise disposed of by the board subject to the approval of the Governor, whenever the board may deem such sale, lease, or other disposition in the best interests of the system, if the board shall first determine that such property can no longer be advantageously used in the system; provided, however, that where any

such property has been granted or conveyed to the system or the board or any institution embraced within the system, or the trustees thereof, for specified uses, such property shall only be sold, leased, conveyed, or otherwise disposed of for similar uses or purposes, which shall be in conformity with any use or trust declared in any such grant or conveyance.

(b) Nothing in this Code section shall prevent the board of regents from leasing laboratory and research facilities owned by the board of regents to private businesses, companies, and corporations for the purpose of small business and economic development during times when the laboratory and research facilities are not in use.

(c)(1) As used in this subsection, the term “work of art” means any work of visual art. The term “work of art” does not include environmental landscaping placed about a state building.

(2) Notwithstanding any other provision of law, including this Code section and Article 4 of Chapter 5 of Title 50, and upon finding that such action is in the best interests of the system and that a work of art owned or held by the board of regents can no longer be advantageously used in the system, the board of regents may:

(A) Sell such work of art to the highest responsible bidder for cash;

(B) Sell or transfer such work of art to any department, board, commission, or other agency of the State of Georgia;

(C) Sell such work of art, or transfer such work of art in exchange for substantial benefits, to any private nonprofit agency; or

### JUDICIAL DECISIONS

**Action of delegated authority in making contract deemed action of state.** — When the legislature has delegated the legislature's authority to make a contract to certain officers, or a public board or department of the state government, the action of such a delegated authority in the matter of making a contract is the action of the state. *State v. Davison*, 198 Ga. 27, 31 S.E.2d 225 (1944).

**Regents authorized to lease unusable property to fraternity.** — Regents had authority to enter into a contract to lease property which the university system could no longer advantageously use to a university fraternity for \$1.00 per year so long as there is no abuse of discretion. *State v. Davison*, 198 Ga. 27, 31 S.E.2d 225 (1944).

### OPINIONS OF THE ATTORNEY GENERAL

**Statutes consistent with budgetary provisions.** — Ga. L. 1935, p. 168, §§ 1 through 3, which authorize the regents to sell excess property and to retain the proceeds, have been ruled to be consistent with the Budget Act, Ga. L. 1962, p. 17, § 1 et seq. 1977 Op. Att'y Gen. No. 77-77.

**Board may sell property at less than appraised value.** — If the board of regents determines that property may no longer be used advantageously in the university system, the board may, with the approval of the Governor, sell the property to the highest bidder even though the highest bid is less than the appraised value of the property, provided the board deems the sale to be in the best interests of the university system. 1965-66 Op. ## 20-3-66. Determination of in-state resident status of students for tuition or fees.

(a) As used in this Code section, the term:

(1) “Dependent student” means an individual under the age of 24 who receives financial support from a parent or United States court appointed legal guardian.

(2) “Emancipated” means a minor who, under certain circumstances, may be treated by the law as an adult. A student reaching the age of 18 shall not qualify for consideration of reclassification by virtue of having become emancipated unless he or she can demonstrate financial independence and domicile independent of his or her parents.

(3) “Independent student” means an individual who is not claimed as a dependent on the federal or state income tax returns of a parent or United States court appointed legal guardian and whose parent or guardian has ceased to provide support and right to that individual’s care, custody, and earnings.

(b)(1) An independent student who has established and maintained a domicile in the State of Georgia for a period of at least 12 consecutive months immediately preceding the first day of classes for the term shall be classified as in-state for tuition purposes. No student shall gain or acquire in-state classification while attending any postsecondary educational institution in this state without clear evidence of having established domicile in Georgia for purposes other than attending a postsecondary educational institution in this state.

(2) If an independent student classified as in-state for tuition purposes relocates out of state temporarily but returns to the State of Georgia within 12 months of the relocation, such student shall be entitled to retain his or her in-state tuition classification.

(c)(1) A dependent student shall be classified as in-state for tuition purposes if such dependent student’s parent has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term and:

(A) The student has graduated from a Georgia high school; or

(B) The parent claimed the student as a dependent on the parent's most recent federal or state income tax return.

(2) A dependent student shall be classified as in-state for tuition purposes if such student's United States court appointed legal guardian has established and maintained domicile in the State of Georgia for at least 12 consecutive months immediately preceding the first day of classes for the term, provided that such appointment was not made to avoid payment of out-of-state tuition, and such guardian can provide clear evidence of having established and maintained domicile in the State of Georgia for a period of at least 12 consecutive months immediately preceding the first day of classes for the term.

(3) If the parent or United States court appointed legal guardian of a dependent student currently classified as in-state for tuition purposes establishes domicile outside of the State of Georgia after having established and maintained domicile in the State of Georgia, such student may retain his or her in-state tuition classification so long as such student remains continuously enrolled in a public postsecondary educational institution in this state, regardless of the domicile of such student's parent or United States court appointed legal guardian.

(d) Noncitizen students shall not be classified as in-state for tuition purposes unless the student is legally in this state and there is evidence to warrant consideration of in-state classification as determined by the board of regents. Lawful permanent residents, refugees, asylees, or other eligible noncitizens as defined by federal Title IV regulations may be extended the same consideration as citizens of the United States in determining whether they qualify for in-state classification. International students who reside in the United States under nonimmigrant status conditioned at least in part upon intent not to abandon a foreign domicile shall not be eligible for in-state classification. Nothing in Code Section 20-3-66 and in Code Section 39-1-1 lowering the age of legal majority shall be construed to limit the power of the board of regents to adopt and enforce rules and regulations for the government, control, and management of the university system nor shall such Code sections be construed so as to limit the authority of any institution in the system to adopt and to enforce rules or regulations governing housing, conduct, discipline, and other related activities of the student body. ## OPINIONS OF THE ATTORNEY GENERAL

**Board determines police agency which investigates crimes.** — Determination as to the police agency which is to investigate the commission of crimes on campus is a matter of administrative discretion given to the board of regents. 1970 Op. Att'y Gen. No. 70-69.

**Campus security personnel considered law enforcement officers.** — Campus security personnel, being charged with enforcing the laws of this state to the extent the laws are violated on university property, should certainly be considered law enforcement officers, and the board of regents, as the agency responsible for the security personnel, is pro tanto a law enforcement agency. 1973 Op. Att'y Gen. No. 73-23.

**Training and drug testing requirements.** — Campus police and other security personnel of university system institutions vested with the power to make arrests under O.C.G.A. § 20-3-72 are subject to the mandatory training requirements of the Georgia Peace Officer Standards and Training Act, O.C.G.A. § 35-8-1 et seq., and are consequently covered by the random drug testing provisions of O.C.G.A. § 45-20-90 et seq. 1990 Op. Att'y Gen. No. 90-11.

**Enforcement of municipal ordinances.** — University system law enforcement officers may enforce municipal ordinances of all kinds within 500 yards of board of regents' property and may prosecute those cases in any court of this state; however, such officers are not entitled to the statutory witness stipend provided under O.C.G.A. § 24-10-27(a). 1993 Op. Att'y Gen. No. 93-20.

**Municipality's consent not required for extending jurisdiction over nearby property.** — This section does not require municipality consent for the extension of university system police jurisdiction to cover offenses committed upon public or private property within 500 yards of university system property. 1974 Op. Att'y Gen. No. 74-65 (see O.C.G.A. § 20-3-72).

**There is no legal prohibition against campus police aiding other police jurisdictions upon request;** if such assistance is given, the campus police would be acting as agents of the jurisdiction requesting the assistance and the other jurisdiction would be responsible for their actions. 1967 Op. Att'y Gen. No. 67-327.

**Flashing or revolving blue lights can be operated** on motor vehicles belonging to campus police and security departments of the University System of Georgia; however, these vehicles must belong to the board of regents. 1973 Op. Att'y Gen. No. 73-23.

**Campus police and security personnel are authorized to intervene** in demonstrations conducted on campuses when the activities of the demonstrators constitute offenses against the criminal laws. 1970 Op. Att'y Gen. No. 70-69.

**Individuals who have arrest powers may conduct searches.** — Individuals who have arrest powers on premises under jurisdiction of the board may conduct searches pursuant to Ga. L. 1966, p. 567, § 1 et seq. 1969 Op. Att'y Gen. No. 69-172.

**Police officer may search person of arrestee and area within person's im-**

**mediate control.** — In conducting a search without a warrant pursuant to a lawful arrest, the campus police officer may search the person of, and area within the immediate control of, any person over whom the officer has the authority to effect a lawful arrest. 1970 Op. Att'y Gen. No. 70-69.

**Unauthorized dormitory searches.** — College may not rely absolutely on a contractual provision in a dormitory contract to conduct a search of a student's dormitory room in the absence of a valid warrant or consent. 1994 Op. Att'y Gen. No. 94-13.

It is the expressed wish of the General Assembly that when the agricultural program and budget are agreed upon, the budget should then not be changed at the unit level without the approval of the director. It is further the wish of the General Assembly that waste, overlapping, and duplicated efforts in the activities of all units having agricultural programs in the system be avoided wherever possible.

### JUDICIAL DECISIONS

**Financial records of University of Georgia Athletic Association are public records.** — Because the president of the University of Georgia is charged with controlling the intercollegiate sports program at the university and because the maintenance of documents relating to the assets, liabilities, income, and expenses of the intercollegiate sports program is an integral part thereof, regardless of whether the documents are prepared by employees of a private athletic association

or by the president as treasurer of that association, it is clear that they are documents, papers, and records prepared and maintained in the course of the operation of a public office, and are therefore “public records” under the Open Records Act, O.C.G.A. § 50-18-70 et seq. *Macon Tel. **20-3-82. Georgia Eminent Scholars Endowment Trust Fund.**

(a) There is created the Georgia Eminent Scholars Endowment Trust Fund. The board of regents shall serve as trustees of such fund. The fund shall be a budget unit for the purpose of appropriations of state funds as provided for in Part 1 of Article 4 of Chapter 12 of Title 45.

(b) The fund created by this Code section is established for the purpose of providing challenge grants to raise funds to be used by units of the University System of Georgia and foundations established to further the work of such units in endowing chairs to attract eminent scholars to join the faculties of units of the University System of Georgia.

(c) The General Assembly is authorized to appropriate state funds, by line item appropriation, to the trust fund established by this Code section. The board of regents is authorized to allocate any funds appropriated or available to the University System of Georgia to the trust fund created by this Code section. Any moneys so appropriated or allocated are deemed to be contractually obligated for the purposes specified in this Code section and any funds remaining in the trust fund at the end of any fiscal year shall not lapse.

(d) The trustees of the Georgia Eminent Scholars Endowment Trust Fund are authorized to make challenge grants to foundations established to further the work of the units of the University System of Georgia. The trustees of the Georgia Eminent Scholars Endowment Trust Fund shall adopt rules, regulations, and standards relative to the award of challenge grants under this Code section. Such rules, regulations, and standards shall include formulas for the awarding of such grants, provided that such formulas shall require foundations to contribute as much as possible but not less than 50 percent and not more than 75 percent of the total amount deemed necessary by the trustees to endow a chair. Such formulas may be revised at any time by the board of trustees so as to maximize the benefits which may result from endowing one or more chairs in any fiscal year and depending on the total funds available to the Georgia Eminent Scholars Endowment Trust Fund. No funds shall be granted to a foundation under this Code section except upon the express written condition that such funds and

the earnings thereon be used by the foundation for the purpose of endowing a chair at a unit of the University System of Georgia. Such chairs shall be created by the board of regents after considering the existing programs of the system, the necessity for such a chair, and any duplication which the creation of the chair might cause. The amount of funds granted to a foundation under this Code section and the funds raised by the foundation shall be invested and maintained by the foundation and, together with the income therefrom, shall be used as provided in this Code section.

(e) Persons selected to hold such chairs shall be selected under such procedure as may be established by the president of the unit of the University System of Georgia at which the chair is established. (Code 1981, § 20-3-82, enacted by Ga. L. 1985, p. 1654, § 1.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1985, “board of regents” was substituted for “Board of

Regents of the University System of Georgia” in subsections (a) and (c).

### OPINIONS OF THE ATTORNEY GENERAL

**“New” funds required for challenge grants.** — A University System institution is required to raise additional (i.e. “new”) funds in order to obtain a challenge grant under the Georgia Eminent Scholars Endowment Trust Fund. The board of

regents, as “trustee” of the Georgia Eminent Endowment Trust Fund, may make matching grants to either University System institutions or to their affiliated private foundations. 1991 Op. Att’y Gen. No. 91-20.

### 20-3-83. Deductions for contributions or dues to interdisciplinary charitable associations.

(a) Subject to the provisions of this Code section, any institution of the university system is authorized to deduct from the salaries or wages of its employees amounts designated by the employee as contributions or dues to any interdisciplinary charitable association qualified as an organization exempt under Section 501(c)(3) of the United States Internal Revenue Code of 1986 whose regular membership consists exclusively of university, college, and technical institute faculty members if such association has as its objectives to facilitate cooperation among teacher and research scholars for the promotion of the interest of higher education and research and to increase the standards, ideals, and welfare of the academic profession in higher education.

(b) No deduction shall be made under this Code section without the written consent of the employee.

(c) An institution making deductions under this Code section shall be reimbursed by any participating charitable association for the institution’s direct cost of making deductions and remitting the proceeds; and any charitable association desiring to participate in a deduction pro-

gram shall as a condition of participation agree to make such reimbursement.

(d) Deductions under this Code section shall be a privilege for the convenience of employees and no right of action shall accrue to the employee or to any charitable association for errors, omissions, or decisions of any agent of the university system regarding deductions under this Code section.

(e) The board of regents may regulate the conduct of deductions under this Code section in any manner deemed by the board to be necessary or appropriate. (Code 1981, § 20-3-83, enacted by Ga. L. 1988, p. 1068, § 1.)

**20-3-84. Center for Trade and Technology Transfer; board of directors; appointment of members; qualifications; officers; duties; reporting; affiliation.**

**Editor's notes.** — This Code section 1999, p. 1219, § 1; Ga. L. 2000, p. 136, was based on Code 1981, § 20-3-84, enacted by Ga. L. 1996, p. 1196, § 1; Ga. L. § 20; Ga. L. 2004, p. 690, § 12.

**20-3-85. Study examining postsecondary text availability in alternative formats.**

The board of regents shall direct a study of the practical problems involved in obtaining and producing textbooks and other instructional materials in alternative formats for students with disabilities. In cooperation with the Technical College System of Georgia, students with disabilities, organizations and advocates for persons with disabilities, publishers, federal and state agencies concerned with opportunities for persons with disabilities, colleges and universities that are not under the direction of the board, university and college presses, counterparts in other states, and other interested persons, the board shall work toward the establishment of a system or clearing-house for sharing postsecondary texts in alternative formats while protecting the intellectual property rights of publishers. The board shall report annually to the Governor and the General Assembly regarding progress toward this goal. (Code 1981, § 20-3-85, enacted by Ga. L. 2002, p. 1041, § 2; Ga. L. 2008, p. 335, § 2/SB 435.)

**Editor's notes.** — Ga. L. 2002, p. 1041, § 1, not codified by the General Assembly, provides that: "colleges and universities in this state have made diligent efforts to accommodate the needs of students with disabilities requiring alternative formats for textbooks and other printed instructional materials used in postsecondary courses of study, but that colleges and universities are confronted with many

practical problems in obtaining or producing these texts in alternative formats. Practical problems in obtaining these texts in alternative formats include the wide variety of texts used in postsecondary courses of study, a lack of bargaining power with publishers of postsecondary textbooks in comparison with publishers of textbooks for elementary and secondary education, and hesitation among postsecondary institutions to share alternative formats because of concern about copyright law. Practical problems in producing

such materials in alternative formats include the labor intensive and technical nature of the work, the frequent need for expertise in the subject matter of the texts, and the expense and time required for production. The General Assembly further finds that students with disabilities, colleges, universities, and publishers would benefit from cooperative development of a system for sharing those texts produced in alternative formats while adequately protecting the intellectual property rights of publishers."

**20-3-93. Circumstances requiring withdrawal of student organization recognition.**

Notwithstanding any law to the contrary, any student organization functioning in conjunction with, incidental to, or at any university system institution, which through its officers, agents, or responsible members knowingly permits or authorizes the sale, distribution, serving, possession, consumption, or use of marijuana, a controlled substance, or dangerous drug at any affair, function, or activity of that student organization, social or otherwise, when such sale, distribution, serving, possession, consumption, or use is not in compliance with the laws of this state shall have its recognition as a student organization withdrawn, shall be expelled from campus for a minimum of a calendar year from the year of determination of guilt, and shall be prohibited from the use of all property and facilities of the university system institution with which it is affiliated or at which it operates, with any and all leasing, possession, or use agreements respecting the student organization's use of institutional property to be terminated by operation of law for any such knowing, permission, or authorization of the unlawful actions defined in this Code section, subject to the administrative review and hearing procedures set forth in this Code section. (a) As used in this article, the term:

(1) "Authority" means the Georgia Education Authority (University), which was formerly known as the University System Building Authority. Such change in name of the authority shall in no way affect the identity of the authority or the rights, powers, privileges, or liabilities of the authority or any person under this article.

(2) "Bonds" or "revenue bonds" means any bonds issued by the authority under this article, including refunding bonds.

(3) "Cost of the project" means the cost of construction; the cost of all lands, properties, rights, easements, and franchises acquired; the cost of all machinery and equipment; financing charges; interest prior to and during construction and for one year after completion of construction; cost of engineering; architectural and legal expenses; cost of plans and specifications and other expenses necessary or incident to determining the feasibility or practicability of the project; administrative expense; and such other expenses as may be necessary or incident to the financing authorized in this article; the construction of any project, the placing of it in operation, and the condemnation of property necessary for such construction and operation. (4) "Project" means one or a combination of two or more of the following or any equipment therefor: housing accommodations; buildings and facilities intended for use as classrooms; laboratories; libraries; dormitories; and instructional, administrative, and recreational facilities for students, faculty, officers, and employees of any institution or unit under the control of the board of regents; and all structures, electric, gas, steam, and water utilities, and facilities of every kind and character deemed by the authority necessary or convenient for the efficient operation of any unit which is a part of the university system.

may be issued for the cost of such project, projects, or combination of projects. (Ga. L. 1949, p. 1009, § 3; Ga. L. 1964, p. 104, § 1; Ga. L. 1967, p. 869, § 3; Ga. L. 1991, p. 1577, § 1.)

**20-3-159. Use of bond proceeds; additional bonds.**

The proceeds of revenue bonds issued under this article shall be used solely for the payment of the cost of the project or combined project and shall be disbursed upon requisition or order of the chairman of the authority under such restrictions, if any, as the resolution authorizing the issuance of the bonds or the trust indenture mentioned in Code Section 20-3-164 may provide. If the proceeds of such bonds, by error of calculation or otherwise, shall be less than the cost of the project or combined project, unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, additional bonds may in like manner be issued to cover the amount of such deficit. Unless otherwise provided in the resolution authorizing the issuance of the bonds or in the trust indenture, such additional bonds shall be deemed to be of the same issue and shall be entitled to payment from the same fund, without preference or priority, as the bonds first issued for the same purpose. If the proceeds of the bonds of any issue shall exceed the amount required for the purpose for which such bonds are issued, the surplus shall be paid into the fund provided in Code Section 20-3-166 for the payment of principal and interest of such bonds. (Ga. L. 1949, p. 1009, § 10.)

**20-3-161. Replacement of mutilated, destroyed, or lost bonds.**

The authority may also provide for the replacement of any bond which shall become mutilated or be destroyed or lost. (Ga. L. 1949, p. 1009, § 12.)

**20-3-162. Compliance with article sufficient for issuance of bonds; single issue for one or more projects; adoption of bond resolution.**

Revenue bonds may be issued without any other proceedings or the happening or any other conditions or things than those proceedings, conditions, and things which are specified or required by this article. In the discretion of the authority, revenue bonds of a single issue may be issued for the purpose of paying the cost of any one or more, including a combination of, projects at any one institution or any number of institutions. Any resolution providing for the issuance of revenue bonds under this article shall become effective immediately upon its passage and need not be published or posted. Any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of its members. (Ga. L. 1949, p. 1009, § 13.)

**20-3-163. Credit of state not pledged.**

Revenue bonds issued under this article shall not be deemed to constitute a debt of the state or a pledge of the faith and credit of the state, but such bonds shall be payable solely from the fund provided for in Code Section 20-3-166; and the issuance of such revenue bonds shall not directly, indirectly, or contingently obligate the state to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment; and all such bonds shall contain recitals on their face covering substantially the foregoing provisions of this Code section; provided, however, such funds as may be received from state appropriations or from any other source are declared to be available and may be used by the board of regents for the performance of any lease contract entered into by the board. **20-3-164. Trust indentures to secure bonds; contents of indentures or bond resolutions; expenses of carrying out indentures.**

In the discretion of the authority, any issue of revenue bonds may be secured by a trust indenture by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside of the state. Such trust indenture may pledge or assign rents, revenues, and earnings to be received by the authority. Either the resolution providing for the issuance of revenue bonds or such trust indenture may contain such

provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the acquisition of property; the construction of the project; the maintenance, operation, repair, and insurance of the project; and the custody, safeguarding, and application of all moneys; may also provide that any project shall be constructed and paid for under the supervision and approval of consulting engineers or architects employed or designated by the authority and satisfactory to the original purchasers of the bonds issued therefor; may also require that the security given by contractors and by any depositary of the proceeds of the bonds or revenues or other moneys be satisfactory to such purchasers; and may also contain provisions concerning the conditions, if any, upon which additional revenue bonds may be issued. It shall be lawful for any bank or trust company incorporated under the laws of this state to act as such depositary and to furnish such indemnifying bonds or pledge such securities as may be required by the authority. Such indenture may set forth the rights and remedies of the bondholders and of the trustee and may restrict the individual right of action of bondholders as is customary in trust indentures securing bonds and debentures of corporations. In addition to the foregoing, such trust indenture may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out such trust indenture may be treated as a part of the cost of maintenance, operation, and repair of the project affected by such indenture. (Ga. L. 1949, p. 1009, § 15.)

(Ga. L. 1949, p. 1009, § 16.)

#### **20-3-166. Sinking fund.**

The revenues, rents, and earnings derived from any particular project or combined project or any and all funds from any source received by the board of regents and pledged and allocated by it to the

authority as security for the performance of any lease or leases or any and all revenues, rents, and earnings received by the authority, regardless of whether or not such rents, earnings, and revenues were produced by a particular project for which bonds have been issued, unless otherwise pledged and allocated, may be pledged and allocated by the authority to the payment of the principal and interest on revenue bonds of the authority as the resolution authorizing the issuance of the bonds or the trust instrument may provide; and such funds so pledged from whatever source received, which pledge may include funds received from one or more or all sources, shall be set aside at regular intervals as may be provided in the resolution or trust indenture into a sinking fund which shall be pledged to and charged with the payment of:

- (3) The necessary charges of paying agents for paying principal and interest; and
- (4) Any premium upon bonds retired by call or purchase as provided in Code Section 20-3-154.

The use and disposition of such sinking funds shall be subject to such regulations as may be provided in the resolution authorizing the issuance of the revenue bonds or in the trust indenture, but, except as may otherwise be provided in such resolution or trust indenture, such sinking fund shall be a fund for the benefit of all revenue bonds without distinction or priority of one over another. Subject to the provisions of the resolution authorizing the issuance of the bonds or in the trust indenture, surplus moneys in the sinking fund may be applied to the purchase or redemption of bonds; and any such bonds so purchased or redeemed shall forthwith be canceled and shall not again be issued. Such bonds may also be issued to pay off, refund, or refinance any outstanding bonds or other obligations of any nature owed by the authority, whether or not such revenue bonds or other obligations shall then be subject to redemption, and the authority may provide for such arrangements as it may determine for the payment and security of the revenue bonds being issued or for the payment and security of the revenue bonds or other obligations to be paid off, refunded, or refinanced. (c) All revenue bonds issued by the authority shall be subject to validation in accordance with Article 3 of Chapter 82 of Title 36, the "Revenue Bond Law" of the State of Georgia. All proceedings to validate revenue bonds of the authority shall be held in the Superior Court of Fulton County and judgments of validation obtained in the manner set forth in such chapter shall be forever conclusive upon the validity of such bonds and the security for such bonds as therein provided. The petition and complaint for validation shall also make party defendant to such action any participating institution for higher education which has contracted with the authority in connection with the issuance of the bonds or regarding the manner in which such bonds are to be secured; and such participating institution for higher education shall be required to show cause, if any exists, why such security and the terms and conditions thereof should not be inquired into by the court, the validity of the terms thereof determined, and the security adjudicated as a binding obligation of the participating institution for higher education for the payment of any such bonds of the authority. The bonds when validated and the judgment of validation shall be final and conclusive with respect to such bonds against the authority issuing the same, any parties to the validation proceedings, or any persons who might properly have become parties to said proceedings. The certificate of validation, however, may be signed with the facsimile or manually executed official signature of the clerk or deputy clerk of the Superior Court of Fulton County.

(d) The authority may sell its revenue bonds in such manner and for such price, at public or private sale, as it may determine to be for the best interest of the authority. Prior to the preparation of definitive bonds, the authority may, under like restrictions, issue interim certificates or receipts or temporary bonds for definitive bonds upon issuance of the latter. The authority may also provide for the replacement of any bonds which shall become mutilated or be destroyed or lost.

(e) The bonds shall be signed by the chairman of the authority, and the corporate seal of the authority shall be thereunto impressed, imprinted, or otherwise reproduced and attested by the signature of the secretary of the authority. The coupons shall be signed in such manner as may be directed by the authority. The signatures of the officers of the authority and the seal of the authority upon any bond, note, or other debt security issued by the authority may be by facsimile if the instrument is authenticated or countersigned by a trustee other than

the authority itself or an officer or employee of the authority. All bonds or notes issued under authority of this article bearing signatures or facsimiles of the signatures of officers of the authority in office on the date of the signing thereof shall be valid and binding, notwithstanding that before the delivery thereof and payment therefor such officers whose signatures appear thereon shall have ceased to be officers of the authority.

(f) Interest shall cease to accrue on any bond on the date that such bond becomes due for payment if such payment is made or duly provided for, but liability for such bond and the accrued interest thereon shall continue until such bond is 20 years overdue for payment. At that time, unless demand for payment has been made, such obligation shall be extinguished and shall be deemed no longer outstanding. (Ga. L. 1978, p. 1765, § 5; Ga. L. 1983, p. 1820, § 5; Ga. ### GEORGIA STUDENT FINANCE COMMISSION

**Administrative rules and regulations.** — School eligibility standards for participation in the assured access lending program, Official Compilation of the

Rules and Regulations of the State of Georgia, Georgia Student Finance Commission, Chapter 268-11-2 et seq.

## 20-3-230. Short title.

This part shall be known and may be cited as the “Georgia Student Finance Commission Act.” (Code 1933, § 32-3101, enacted by Ga. L. 1980, p. 835, § 1.)

**Editor’s notes.** — The Georgia Student Finance Commission is the successor to the Georgia State Scholarship Commission (see former Code Section 20-2-233(b)), the creation of which was authorized by constitutional amendment ratified in 1964 and contained in Ga. Const. 1976, Art. X, Sec. II, Para. V (see now Ga. Const. 1983, Art. XI, Sec. I, Para. D). The first Georgia State Scholarship Commission was created by Ga. L. 1964, p. 699, and abolished by Ga. L. 1965, p. 210, § 11. A new Georgia State Scholarship Commission was created by Ga. L.

1965, p. 210, which was subsequently amended by Ga. L. 1966, p. 465; Ga. L. 1967, p. 640; Ga. L. 1968, p. 385; Ga. L. 1969, p. 246; Ga. L. 1969, p. 826; Ga. L. 1971, p. 520; and Ga. L. 1974, p. 461. In 1972, the Executive Reorganization Act provided that the State Scholarship Commission and its functions were continued. See Ga. L. 1972, p. 1015, § 1901. In 1980, Ga. L. 1965, p. 210, as amended, creating the Georgia State Scholarship Commission, was repealed by Ga. L. 1980, p. 835, which also enacted this part and Parts 2 and 3 of this article.

## 20-3-231. Legislative findings; purpose of commission.

(a) **Legislative findings.** The General Assembly has determined that it is a valid public purpose to promote the educational level of achievement of citizens and persons in this state by creating the Georgia Higher Education Assistance Corporation, a public authority, as provided for in Part 2 of this article, for the purpose of establishing and administering an educational loan program in this state in such a manner as not to pledge the faith and credit of the state to the payment of such educational loans as may be guaranteed by the corporation. The General Assembly has determined that it is a valid public purpose to promote further the educational level of achievement of citizens and persons in this state by creating the Georgia Student Finance Authority, a public authority, as provided for in Part 3 of this article, for the purpose of providing educational scholarship, grant, and loan assistance to citizens and persons in this state, in large part by educational

loans to be funded through the issuance of revenue bonds and other obligations by the authority in such a manner as not to pledge the faith and credit of the state to the payment of such bonds and obligations and to use further such bond funds to provide a form of secondary market for lenders in further support of the educational loan program of the state. The General Assembly finds that it is desirable and cost efficient and will permit greater coordination of state student aid programs; maximum utilization of available student aid funds; simplification of procedures for students, parents, and educational institutions; and possible prevention of frauds and abuses, and thereby better serve the public interests of the state if a maximum degree of centralization in the management and administration of the functions of the corporation and the authority is provided for; and, further, that although public moneys may within the provisions of the Constitution of Georgia be appropriated for use by the corporation and by the authority for prescribed student aid purposes, such moneys may not be lawfully appropriated directly to the corporation nor the authority but must, in lieu thereof, be appropriated to an agency within the executive branch of state government for use by the corporation or the authority for such prescribed purposes. The General Assembly resolves, therefore, that in order to accomplish the foregoing essential and valid public purposes of the corporation as set forth in Part 2 of this article and of the authority as set forth in Part 3 of this article that it is necessary, essential, a valid public purpose, and within the meaning of the Constitution of Georgia to create the Georgia Student Finance Commission as an agency within the executive branch of state government for the purposes prescribed in this part.

(b) **Purpose of commission.** The purpose of the commission shall be to help improve the higher educational opportunities of citizens and persons in this state by serving as an agency and budget unit within the executive branch of state government for the purpose of carrying out and effectuating the powers, duties, and functions set forth in this part. (Code 1933, § 32-3102, enacted by Ga. L. 1980, p. 835, § 1; Ga. L. 1995, p. 961, § 1.)

**20-3-234. Functions and composition of board of commissioners; appointment, qualifications, and terms of commissioners; board officers; meetings; committees; compensation; advisory councils.**

**(a) Functions and composition of board of commissioners.**

(1) The commission shall be governed and all of its powers, duties, and functions shall be exercised by a board of commissioners. The board of commissioners shall be composed of the following public commissioners, to be appointed by the Governor, subject to confirmation by the Senate: one public commissioner from each congressional district of the state who is and who remains during the term of his or her appointment a resident of the district being represented. The executive director of the commission, or president, if designated by such title by the board of commissioners, shall be an ex officio member of the board of commissioners. Neither the Governor nor any state official not designated in this paragraph shall be appointed as a commissioner. All public commissioner appointments made by the Governor when the Senate is not in session shall be effective ad interim.

(2) The board of commissioners provided for by paragraph (1) of this subsection shall be the successor to and a continuation of, without interruption, the board of commissioners of the previously existing Georgia State Scholarship Commission. The board of commissioners of the previously existing Georgia State Scholarship Commission, excepting the chairperson of the board of regents, who shall not be a member of the board of commissioners, shall be the board of commissioners created by subsection (a) of Code Section 20-3-233; and each public commissioner shall continue to serve for the term of office to which he or she was appointed. Upon expiration of his or her respective term or in the event of a vacancy, his or her successor shall be appointed, or appointments to fill vacancies occurring shall be made, by executive order of the Governor as provided for in this Code section.

**(b) Qualifications and terms of public commissioners.** Public commissioners shall be appointed by executive order of the Governor to

serve for a term of six years and until their successors are appointed and qualified and shall be eligible for reappointment to successive terms. Appointments made after the expiration of a term or to fill a vacancy occurring on the commission shall be made by the Governor in the same manner but only for the duration of the unexpired term. Public commissioners shall be at least 21 years of age, citizens of the United States, and residents of Georgia for at least two years at the time of their appointment. No public commissioner shall be currently employed or contracted by a public or private postsecondary institution in the State of Georgia. Public commissioners shall be subject to the code of ethics covering members of commissions, boards, directors, and authorities as set forth in Code Sections 45-10-3 and 45-10-4 and shall be subject to removal for violation thereof as provided for in such Code sections. No commissioner shall be eligible to become an officer or employee of the commission for a period of one year after expiration of the commissioner's period of service as a commissioner.

(c) **Officers of board of commissioners.** The officers of the board of commissioners shall consist of a chairperson and a vice chairperson, who shall serve as chairperson in the absence or incapacity of the chairperson, each of whom shall be elected from the public commissioners of the board to serve for a term of not more than two years and who shall be eligible for reelection to successive terms unless otherwise provided in the bylaws of the commission, and a secretary of the board of commissioners, who may be a commissioner or an employee of the commission.

(d) **Meetings of board of commissioners.** The board of commissioners shall provide for the holding of regular and special meetings. The board of commissioners shall hold at least one regular meeting during each fiscal year but may hold as many regular meetings during any fiscal year as may be deemed necessary. The chairperson is authorized to call at any time a special meeting of the board of commissioners, provided at least five days' advance notice is provided to each commissioner. A majority of the commissioners then in office shall constitute a quorum for the transaction of any business and for the exercise of any power, duty, or function of the board of commissioners; and no vacancy on the board of commissioners shall impair the right of a quorum of the commissioners then in office to transact any business or to exercise any power, duty, or function of the board of commissioners. The concurrence of a majority of commissioners present at any meeting of the board of commissioners at which a quorum is present shall be sufficient to constitute official action of the board of commissioners. All meetings of the board of commissioners shall be open to the public except as otherwise provided by state law. Meetings of the board of commissioners shall generally be held at the principal office or place of business of the commission but may be held elsewhere within the state when authorized by the board of commissioners.

(e) **Executive committee.** The board of commissioners is authorized to establish, elect, and provide for the organization and duties of an executive committee of the board of commissioners, to consist of not less than five commissioners, which may, in intervals between regular meetings of the board of commissioners, meet and transact any business and exercise any power, duty, or function of the board of commissioners unless otherwise restricted by the board of commissioners. The presence at a meeting of the executive committee of a majority of the members of such committee shall constitute a quorum. The concurrence of members of the executive committee equal to a majority of the membership of the executive committee shall be required to constitute official action of the executive committee. Any authorized official action taken by the executive committee shall be binding upon the board of commissioners and the commission until the next regular meeting of the board of commissioners. Meetings of the executive committee shall be open to the public except as otherwise provided by state law. Meetings of the executive committee shall generally be held at the principal office or place of business of the commission but may be held elsewhere within the state when authorized by the board of commissioners. Whenever the board of commissioners, at any regularly scheduled meeting of the board of commissioners, shall fail to have a quorum present, but a quorum of the executive committee of the board of commissioners is present, such meeting shall continue as an official meeting of the executive committee under this subsection for the purpose of taking any official action which the executive committee is otherwise authorized to take.

(f) **Other committees.** The board of commissioners is authorized to establish and provide for the organization and duties of such other interim or standing committees of the board of commissioners as it may deem necessary in the performance of its powers, duties, and functions. Such other committees may only be authorized to investigate or to consider, and to report their findings or recommendations to the board of commissioners, upon such matter or matters as the board of commissioners shall prescribe and may not be authorized to take any binding action for or on behalf of the board of commissioners.

(g) **Compensation of commissioners.** Public commissioners shall receive the sum provided by Code Section 45-7-21 for each day of actual attendance at meetings of the commission or for each day of travel, within or outside the state, as a member of the commission, which travel has been authorized by the chairperson or by action of the commission, plus reimbursement for actual transportation costs while traveling by public carrier or the legal mileage rate for the use of a personal automobile to and from the place of meeting. No member of the commission shall be authorized to receive the sums, expenses, and costs provided by this subsection for more than 18 days per year.

(h) **Advisory councils.** The board of commissioners is authorized to provide for the creation of one or more advisory councils pursuant to Code Section 50-4-4 as the board of commissioners may determine to be needful or helpful to the commission in the performance of its powers, duties, and functions under this part and to prescribe all matters relative thereto, including, without limitation, their membership, organization, duties, meetings, authorized travel, and the payment of per diem to and actual expenses incurred by advisory councilmembers while in the performance of duties prescribed by the board of commissioners. **20-3-250.6. Minimum standards for educational institutions.**

(a) In establishing the criteria required by paragraph (2) of subsection (b) of Code Section 20-3-250.5, the commission shall observe and shall require compliance with the following minimum standards:

(1) A nonpublic postsecondary educational institution must be maintained and operated, or, in the case of a new institution, it must demonstrate that it can be maintained and operated in compliance with the following minimum standards:

(A) That the quality and content of each course or program of instruction, training, or study are such as may reasonably and adequately achieve the stated objective for which the course or program is offered;

(B) That the institution has adequate space, equipment, library and physical facilities, instructional materials, and personnel to provide education of good quality;

(C) That the education and experience qualifications of directors, administrators, supervisors, and instructors are such as may reasonably ensure that the students will receive education consistent with the objectives of the course or program of study and that each director and instructor shall satisfactorily meet educational qualifications and other requirements established by the commission;

(D) That the institution provides students and other interested persons with a catalog or other written description containing information describing the programs offered; program objectives; length of program; schedule of tuition, fees, and all other charges and expenses necessary for completion of the course of study;

cancellation and refund policies consistent with standards adopted by the commission; prior year's enrollment, graduation, and job placement rates; and such other material facts concerning the institution and the program or course of instruction as are reasonably likely to affect the decision of the student to enroll therein, together with any other disclosures specified by the executive director or defined in the rules and regulations of the commission; and that such information is provided to prospective students prior to enrollment;

(E) That upon satisfactory completion of training, the student is given appropriate educational credentials by such institution indicating that such course or courses of instruction or study have been satisfactorily completed by said student;

(F) That adequate records are maintained by the institution to show attendance, progress, or grades and that satisfactory standards are enforced relating to attendance, progress, and performance;

(G) That the institution is maintained and operated in compliance with all pertinent ordinances and laws, including rules and regulations, relative to the safety and health of all persons upon the premises;

(H) That the institution is financially sound and capable of fulfilling its commitments to students;

(I) That neither the institution nor its agents engage in advertising, sales, collection, credit, or other practices of any type which are false, deceptive, misleading, or unfair;

(J) That the chief executive officer, trustees, directors, owners, administrators, supervisors, staff, and instructors are of good reputation and character and that each institution has an education director who meets the requirements established by the commission for such position which requirements shall be substantially related to the predominant course offerings at that institution;

(K) That the student housing owned, maintained, or approved by the institution, if any, is appropriate, safe, and adequate and meets all local fire, safety, and health codes;

(L) That the institution has and maintains a reasonable and proper policy, consistent with standards adopted by the commission, for the refund of the unused portion of tuition, fees, housing or dormitory fees, and any other charges in the event a student enrolled by the institution fails to begin a course or withdraws or is discontinued therefrom prior to completion, which policy shall take

into account those costs to the institution that are not diminished by the failure of the student to enter or complete the course of instruction;

(M) That the institution maintains a policy of allowing any student a minimum of 72 hours from the date of the contract or agreement to cancel any contract or rescind any agreement to become a student at the institution and that in the event of any such cancellation or rescission, the student shall receive a refund of the total tuition and fees, if any, paid to the institution at the time of or in connection with the execution of the contract or agreement and that such policy shall be a clearly stated part of any written contract or agreement required of students attending the institution; and

(N) That the institution posts continuously in a conspicuous place a notice, in such form as required by the commission, which sets forth the procedures for filing a complaint with the commission for any alleged violation of this part.

(2) An applicant for an agent's permit shall be an individual of good reputation and character and shall represent only a nonpublic postsecondary educational institution or institutions which meet the minimum standards established in this Code section and the criteria established under paragraph (2) of subsection (b) of Code Section 20-3-250.5.

(b) In lieu of the criteria set forth in subsection (a) of this Code section, or in addition thereto, the executive director, for good cause shown and with the advice of the commission, may amend, modify, substitute, or alter the terms of such criteria as necessary and advisable because of the specialized nature and objective of the operation of the postsecondary educational institution.

(c) Institutions otherwise exempt from certain provisions of this part under paragraphs (7), (10), (11), (12), and (14) of subsection (a) of Code Section 20-3-250.3 shall be required to meet the standards of financial soundness and being capable of fulfilling commitments to students as provided in subparagraph (a)(1)(H) of this Code section, and, because of such requirement, each such institution shall provide the commission with audited financial statements as performed by an independent certified public accountant and at such times as the commission shall require. The commission may impose a fee to be paid by such institutions to offset the cost of receiving and reviewing such audited financial statements. Institutions otherwise exempt from certain provisions of this part under subsection (c) of Code Section 20-3-250.3 shall be required to submit annual financial reports to the commission when applying for annual renewal of exemption or authorization using the

reporting format provided by the commission. In addition thereto, institutions otherwise exempt from certain provisions of this part under paragraph (10) of subsection (a) of Code Section 20-3-250.3 shall be subject to the requirements of Code Sections 20-3-250.8, 20-3-250.10, and 20-3-250.27. The reports to the Governor and to the General Assembly required by subsection (h) of Code Section 20-3-250.27 shall include a summary of the commission's findings from its review of audited financial statements required by this subsection.

(d) The commission shall be authorized to adopt rules pertaining to the content and format of financial reports to be submitted by postsecondary educational institutions applying for authorization to operate in this state. (Code 1981, § 20-3-250.6, enacted by Ga. L. 1990, p. 1166, § 3; Ga. L. 1991, p. 687, § 2; Ga. L. 1992, p. 1657, § 3; Ga. L. 1992, p. 2615, § 3; Ga. L. 1993, p. 91, § 20; Ga. L. 1994, p. 1282, § 4.)

### **20-3-250.8. Application to operate or conduct postsecondary activities.**

(a) Each nonpublic postsecondary educational institution desiring to operate or conduct postsecondary activities in this state shall make application to the commission, upon forms to be provided by the commission. Such application shall be accompanied by a catalog or other written description published, or proposed to be published, by the institution, containing the information specified in subparagraph (a)(1)(D) of Code Section 20-3-250.6, including information required by rules and regulations of the commission. Such application shall also be accompanied by evidence of a surety bond if required by Code Section 20-3-250.10 and subsection (c) of Code Section 20-3-250.27 and shall be accompanied by payment of the fees specified in Code Section 20-3-250.11; provided, however, that when making application to the commission for authorization to operate, those institutions exempt from certain provisions of this part pursuant to the provisions of paragraph (10) of subsection (a) of Code Section 20-3-250.3 or subsection (c) of Code Section 20-3-250.3 shall be required to submit only those documents pertaining to provisions of this part from which such institutions are not exempt.

(b) A nonpublic postsecondary educational institution shall not operate or conduct postsecondary activities in any building in which that institution did not previously operate or conduct postsecondary activities unless the institution obtains authorization to operate or conduct those activities in that building as a branch facility. An application for authorization to operate any branch facility shall be accompanied by catalogs, other written documents, evidence of bond, and payment of fees as required for an initial application pursuant to subsection (a) of this Code section.

(c) Following review of such application and any further information submitted by the applicant or required by the executive director, an on-site inspection of the physical facility at which the institution will be operating, if located in this state, and such investigation of the applicant as the executive director may deem necessary or appropriate, the executive director shall either grant or deny authorization to operate to the applicant. A grant of authorization to operate may be on such terms and conditions as the executive director may specify.

(d) The authorization to operate shall be in a form recommended and approved by the commission and shall state in a clear and conspicuous manner at least the following information:

- (1) The date of issuance, effective date, and term of authorization;
- (2) The correct name and address of the institution so authorized;
- (3) The authority for authorization and conditions thereof;

(4) Any limitation of the authorization, as deemed necessary by the executive director;

(5) The signature of the executive director or such person as may have been designated by the executive director; and

(6) Any other fair and reasonable representations consistent with this part and deemed necessary by the executive director.

(e) The term for which authorization is given shall not extend for more than one year and may be issued for a lesser period of time.

(f) The authorization to operate shall be issued to the owner or governing body of the applicant institution and shall be nontransferable. In the event of a change in ownership of the institution, a new owner or governing body must, within ten days after the change in ownership, apply for a new authorization to operate; and in the event of failure to do so, the institution's authorization to operate shall terminate. Application for a new authorization to operate by reason of change in ownership of the institution shall, for purposes of subsection (b) of Code Section 20-3-250.12, be deemed an application for renewal of the institution's authorization to operate.

(g) At least 60 days prior to the expiration of an authorization to operate, the institution shall complete and file with the executive director an application form for renewal of its authorization to operate. Such renewal application shall be reviewed and acted upon as provided in subsections (c) through (f) of this Code section.

(h) An institution not yet in operation when its application for authorization to operate is filed may not begin operation or conduct any postsecondary activities until receipt of authorization.

(i) Each nonpublic postsecondary educational institution which has been granted an authorization to operate or conduct postsecondary activities in this state shall obtain authorization from the executive director before it offers any course not offered by the institution at the time its most recent authorization was granted. The commission by regulation shall establish procedures and standards for authorization of such additional course offerings. (Code 1981, § 20-3-250.8, enacted by Ga. L. 1990, p. 1166, § 3; Ga. L. 1992, p. 1657, § 5; Ga. L. 1994, p. 1282, § 6.)

**20-3-250.9. Application by persons to solicit or perform services of agent.**

(a) Each person desiring to solicit or perform the services of an agent in this state shall make application to the executive director upon forms to be provided by the commission. Such application shall be accompanied by evidence of the good reputation and character of the applicant in a form to be prescribed by the commission and shall state the institution or institutions which the applicant intends to represent. An agent representing more than one institution must obtain a separate agent's permit for each institution represented, but when an agent represents institutions having a common ownership, only one agent's permit shall be required with respect to such institutions. No postsecondary educational institution shall employ or otherwise retain the services of an agent who has not been issued an agent's permit by the commission. In the event any institution which the applicant intends to represent does not have authorization to operate in this state, such application shall be accompanied by the information required of institutions making application for such authorization. Such application for an agent's permit shall also be accompanied by payment of the agent's permit fee specified by Code Section 20-3-250.11.

(b) Following review of such application and any further information submitted by the applicant or required by the executive director and such investigation of the applicant as the executive director may deem necessary or appropriate, the executive director shall either grant or deny an agent's permit to the applicant.

(e) At least 60 days prior to the expiration of an agent's permit, the agent shall complete and file with the executive director an application

form for renewal of the permit. Such renewal application shall be reviewed and acted upon as provided in subsections (b) through (d) of this Code section. (Code 1981, § 20-3-250.9, enacted by Ga. L. 1990, p. 1166, § 3; Ga. L. 1991, p. 687, § 3; Ga. L. 1992, p. 1657, § 6.)

**20-3-250.10. Surety bonds; filing; amount; release of surety; suspension upon release of surety; property bonds.**

(a) At the time an initial application or application for a branch facility is made for authorization to operate, the executive director shall require the nonpublic postsecondary educational institution making such application to file with the executive director a good and sufficient surety bond in such sum as determined by subsection (b) of this Code section. Such bond shall be executed by the applicant as principal and by a surety company qualified and authorized to do business in this state. The bond shall be conditioned to provide indemnification to the Tuition Guaranty Trust Fund established in Code Section 20-3-250.27 and to any student or enrollee or that person’s parent or guardian or class thereof determined to have suffered loss or damage as a result of any act or practice which is a violation of this part or of rules and regulations promulgated pursuant thereto by such nonpublic postsecondary educational institution and that the bonding company shall pay any final, nonappealable judgment rendered by the commission or any court of this state having jurisdiction, upon receipt of written notification thereof. Regardless of the number of years that such bond is in force, the aggregate liability of the surety thereon shall in no event exceed the penal sum of the bond. The bond may be continuous.

(b)(1) Except as otherwise provided in paragraph (2) of this subsection, the minimum amount of the bond required by subsection (a) of this Code section shall be based on the gross tuition of the nonpublic postsecondary educational institution during the previous year or on the estimated gross tuition for the current year, whichever is larger, and shall be as follows:

| <u>Gross Tuition</u>          |  | <u>Minimum Bond</u> |
|-------------------------------|--|---------------------|
| \$ 0.00 — \$ 50,000.00 .....  |  | \$ 20,000.00        |
| 50,001.00 — 100,000.00 .....  |  | 30,000.00           |
| 100,001.00 — 200,000.00 ..... |  | 50,000.00           |

|                               |            |
|-------------------------------|------------|
| 200,001.00 — 300,000.00 ..... | 75,000.00  |
| 300,001.00 — 400,000.00 ..... | 100,000.00 |
| 400,001.00 — 500,000.00 ..... | 150,000.00 |
| 500,001.00 and over .....     | 200,000.00 |

(2) As an alternative to the amount of the bond determined under paragraph (1) of this subsection, the nonpublic postsecondary educational institution shall have the option of filing a bond in an amount equal to the total income collected by the institution during the previous fiscal year or the estimated total income for the current year, whichever is larger; provided, however, the amount so determined shall be rounded off to the next highest \$1,000.00.

(c) If the bond filed with the initial application to operate remains in effect, it shall be sufficient when an application is made for the renewal of authorization to operate, unless the amount of the bond must be increased because of increased gross tuition to comply with requirements of subsection (b) of this Code section.

(d) The surety bond to be filed under this Code section shall cover the period of the authorization to operate except when a surety shall be released as provided in this Code section. A surety on any bond filed under this Code section may be released therefrom after such surety shall serve written notice thereof on the executive director at least 90 days prior to such release; but such release shall not discharge or otherwise affect any claim theretofore or thereafter filed by a student or enrollee or that person's parent or guardian or class thereof for loss or damage resulting from any act or practice which is a violation of this part or of rules and regulations promulgated pursuant thereto alleged to have occurred while such bond was in effect or from an institution's ceasing operations during the term for which tuition has been paid while such bond was in force.

(e) Authorization for an institution to operate shall be suspended by operation of law when such institution is no longer covered by a surety bond as required by this Code section, but the executive director shall cause such institution to receive at least 30 days' written notice prior to the release of the surety to the effect that such authorization or permit shall be suspended by operation of law until another surety bond shall be filed in the same manner and like amount as the bond being terminated.

(f) In lieu of the surety bond provided for in subsections (a) and (b) of this Code section, the commission by rule or regulation may authorize the executive director to accept a property bond when a principal of the nonpublic postsecondary educational institution owns property within the State of Georgia with sufficient equity therein to satisfy the

requirements of subsection (b) of this Code section. (Code 1981, § 20-3-250.10, enacted by Ga. L. 1990, p. 1166, § 3; Ga. L. 1991, p. 687, § 4; Ga. L. 1992, p. 1657, § 7; Ga. L. 1994, p. 1282, § 7; Ga. L. 1995, p. 728, § 4; Ga. L. 2002, p. 1414, § 4.)

Additionally, if the executive director shall find that the complainant or class of complainants has suffered loss or damage as a result of such act or practice, the executive director may, at his discretion, award the complainant or class of complainants full or partial restitution for such damage or loss and may impose the penalties provided for in Code Section 20-3-250.21. (a) Any person aggrieved or adversely affected by any final action of the commission may obtain judicial review of such action as provided in this Code section.

(b) An action for judicial review may be commenced in any court of competent jurisdiction within 30 days after the commission's action becomes effective.

Such records shall include, at a minimum, such information as is customarily required by colleges or other postsecondary educational institutions when considering students for transfer or advanced study and, as a separate document, the academic record of each former student. In the event it appears to the executive director that any such records of an institution discontinuing its operations are in danger of being destroyed, secreted, mislaid, or otherwise made unavailable to the executive director, the executive director may, with court order, seize and take possession of such records, subject to the confidentiality accorded normal school records. The executive director shall maintain or cause to be maintained a permanent file of such records coming into his or her possession. (Code 1981, § 20-3-250.17, enacted by Ga. ### **20-3-250.27. Tuition Guaranty Trust Fund.**

(a) It is the purpose of this Code section to create a trust fund from participation fees from postsecondary educational institutions to enable such institutions, collectively, to protect students against financial loss when a postsecondary educational institution closes without reimbursing its students and without completing its educational obligations to its students.

(b)(1) Effective on July 1, 1992, the Tuition Guaranty Trust Fund is created. The participation fees received by the commission from postsecondary educational institutions pursuant to the provisions of subsections (c) and (d) of this Code section shall be deposited in a special account designated “Tuition Guaranty Trust Fund” and shall be held in trust by the board of trustees provided for in paragraph (2) of this subsection for the purpose of carrying out the provisions of this Code section. The money in the fund may be invested by said board of trustees in any bonds and other securities of agencies of the government of the United States and bonds and other securities of state and local governments. The earnings from such investments shall be deposited to the credit of the Tuition Guaranty Trust Fund and shall be available for the same purposes as other money deposited in the fund.

(2) The fund shall be administered by the Board of Trustees of the Tuition Guaranty Trust Fund. The board of trustees shall consist of five members of the commission designated by majority vote of the commission, but one of such members shall be a representative of a nonpublic nondegree-granting postsecondary educational institution, and one of such members shall be a representative of a nonpublic degree-granting postsecondary educational institution. The five members of the commission who are so designated shall serve for such terms of office as members of the board as the commission shall establish by rule or regulation. The commission shall appoint one of the members so designated as chairman of the board. The executive director shall also serve as executive director and secretary of the board. Three members of the board must vote in agreement in order for the board to take official action. The commission may by rule or regulation provide for another member of the commission to serve in the place of a member of the board who is absent from a meeting of the board.

(c)(1) All postsecondary educational institutions operating in this state, except those which are exempt from the provisions of this Code section pursuant to Code Section 20-3-250.3, shall participate in the tuition guaranty fund. Those postsecondary educational institutions specified in paragraphs (10) and (15) of subsection (a) of Code Section 20-3-250.3 and in subsection (c) of Code Section 20-3-250.3 shall participate in the tuition guaranty fund.

(2) Postsecondary educational institutions which were authorized to operate in this state prior to July 1, 1990, and which have maintained continuous authorization in this state since July 1, 1990, and institutions which have been continuously licensed since July 1, 1990, pursuant to the provisions of Title 43 and were authorized by the commission prior to July 1, 1992, shall participate in the fund and shall not be required to provide surety bonds as provided in Code Section 20-3-250.10; provided, however, that any surety bond provided by an institution before July 1, 1992, shall remain in effect for one full year after the effective date of such surety bond.

(3) Postsecondary educational institutions which are currently authorized to operate in this state and which were first authorized to operate in this state on or after July 1, 1990, shall participate in the fund for five years of continuous authorized operation and shall provide the surety bonds required in Code Section 20-3-250.10; provided, however, that such surety bonds shall no longer be required of any such institutions which have maintained five full years of continuous authorized operation to the present. Any institution which fails to maintain continuous authorization in this state, and which subsequently applies for reinstatement of its certificate of

authorization, must provide a surety bond for five full years following reinstatement of authorization.

(d)(1) In addition to any other fees required by this part, the commission shall by regulation establish fees to be paid annually by postsecondary educational institutions for participation in the tuition guaranty fund. The fees shall be based on gross tuition collected during a year by each postsecondary educational institution. If an institution has not operated for a full year, its participation fee shall be based initially on its projected gross tuition for the first full year of operation. At the conclusion of the first year, the fee for that year shall be adjusted to reflect actual gross tuition. The annual fee established by the commission shall be sufficient, when added to the earnings of the fund, to create a balance in the fund of at least \$500,000.00 by July 1, 1997. The board of trustees shall notify the commission when the fund balance exceeds \$500,000.00, and, except as otherwise provided in paragraph (2) of this subsection, upon receiving such notification, the commission shall cease collection of participation fees from postsecondary educational institutions which have contributed to the fund for at least five years. The commission, upon notification from the board of trustees, shall reestablish collection of participation fees from such participating postsecondary educational institutions at any time the fund balance is less than \$475,000.00. At such time, fees shall be collected from such participating institutions according to a schedule adopted by the commission based on gross tuition in amounts sufficient to raise the fund balance to \$500,000.00.

(2) Each postsecondary educational institution which is first authorized to operate in this state after July 1, 1992, and is required to participate in the fund for five years of continuous authorized operation under the provisions of paragraph (3) of subsection (c) of this Code section shall be required to pay participation fees for such period of time notwithstanding the amount in the tuition guaranty fund. If the balance in the fund exceeds \$500,000.00, participation fees shall be collected from each such institution according to the fee schedule adopted by the commission pursuant to paragraph (1) of this subsection.

(3) If earnings from investments, participation fees required under paragraph (2) of this subsection, and claims experience ever cause the balance in the fund to exceed \$5,025,000.00, the commission, upon being notified by the board of trustees, shall make refunds to postsecondary educational institutions which have participated in the fund for at least five years, so that the fund balance is reduced to \$5 million. Any such refund shall be determined by the commission in proportion to the total participation fees paid by a postsecondary educational institution until the time of the refund; provided, how-

ever, no reimbursement shall be made to any postsecondary educational institution whose students have been reimbursed from the fund or from bond forfeiture as provided in subsection (g) of this Code section. The commission shall establish by regulation the time and other procedures and requirements for making any such refund, but refunds shall be issued no more than once during a fiscal year.

(e) The annual cost incurred by the commission and by the board of trustees in administering the Tuition Guaranty Trust Fund, including expenses incurred in collecting from defaulting postsecondary educational institutions the amounts paid from the fund to or on behalf of students pursuant to the provisions of subsection (g) of this Code section, shall be paid from the fund; provided, however, such annual administrative costs shall not exceed 2.5 percent of the participation fees collected from postsecondary educational institutions during the fiscal year. The commission shall issue a report annually to each postsecondary educational institution participating in the fund. The report shall provide an evaluation of the financial condition of the fund and a summary of claims paid or other expenditures from the fund during the immediately preceding fiscal year.

(f) The commission shall establish by regulation a late payment fee for the failure of a postsecondary educational institution to pay its participation fee at the time established by regulation of the commission for the payment of such fees. An application for authorization to operate or for the renewal thereof may be denied under Code Section 20-3-250.12 for failure to pay participation fees. Late payment fees shall be paid into the fund. Any authorization to operate may be revoked, suspended, or made conditional under Code Section 20-3-250.13 for failure to pay participation fees.

(g)(1) Except as otherwise provided in paragraph (2) of this subsection, in the event a postsecondary educational institution participating in the fund goes into bankruptcy or ceases operations without fulfilling its educational obligations to its students or without reimbursing its students, the board of trustees may reimburse from the fund valid claims of students for tuition paid to that institution in accordance with guidelines and procedures adopted by regulations of the board. If a student who attended the defaulting postsecondary educational institution received financial aid under either a state or federal student loan program, the board shall direct payment to the financial institution or other entity who made the loan to the student, rather than directly to the student. If the fund reimburses a student or a financial institution or other entity which made a loan to a student, the fund, to the extent of the amount reimbursed and without the necessity of any further act by any party, shall have an independent claim for recovery against the defaulting postsecondary

educational institution and any surety issuing a bond pursuant to Code Section 20-3-250.10; provided, however, that if the reimbursement from the fund is insufficient fully to cover the amount due the student or the entity making the loan to the student, then such student or entity shall retain the right of recovery against the defaulting institution and the surety for the unreimbursed amount. Payments from the fund shall be made by warrant of the state treasurer on the order of the board of trustees.

(2) Until surety bonds are no longer required of a participating postsecondary educational institution under the provisions of paragraph (3) of subsection (c) of this Code section, the reimbursement of tuition to students or to financial institutions or other entities on behalf of students, in the event of the default of the postsecondary educational institution, shall be accomplished by bond forfeiture proceedings and not from the tuition guaranty fund unless the full amount of the bond is paid in reimbursements and such amount is insufficient to cover all reimbursements; provided, however, that if a student, financial institution, or other lending entity is entitled to reimbursement of tuition paid for a term which concluded before the expiration of the surety bond, the Tuition Guaranty Trust Fund may make reimbursements to the students or to the financial institutions or other entities on behalf of the students prior to initiating bond forfeiture proceedings.

(3) If the board of trustees pays a claim to or on behalf of a student of a defaulting postsecondary educational institution or if such a claim is paid as a result of a bond forfeiture, the authorization to operate of the defaulting postsecondary educational institution shall be automatically revoked as of the date of such payment, if the authorization to operate has not been previously revoked by the commission pursuant to other provisions of this part. If a defaulting postsecondary educational institution reimburses the fund for any claims paid on behalf of its students, the commission shall be authorized to issue a new authorization to operate to such postsecondary educational institution if the commission finds that the institution is then qualified to operate as a postsecondary educational institution. Such an institution shall provide the surety bond required in Code Section 20-3-250.10 for two years and shall pay participation fees to the tuition guaranty fund for five years as provided in paragraph (2) of subsection (d) of this Code section.

(4) If at any time the money available in the tuition guaranty fund is insufficient to satisfy tuition reimbursement claims then pending against the fund, the board of trustees may require each participating postsecondary educational institution to pay a special assessment to the fund. The special assessment shall be in addition to the partici-

pation fee provided for in paragraph (1) of subsection (d) of this Code section but the total amount which may be collected in such special assessments in any one fiscal year shall not exceed either the total amount paid during the immediately preceding fiscal year in participation fees or \$100,000.00, whichever is greater. The maximum amount that may be paid from the fund in claims on behalf of the students of any single defaulting postsecondary educational institution is \$250,000.00, regardless of the fact that total claims may exceed that amount.

(5) As an alternative to paying claims to or on behalf of students of a defaulting postsecondary educational institution, the board of trustees may arrange for another postsecondary educational institution to complete the educational obligations to the students of the defaulting postsecondary educational institution, provided that the program offered by the other institution is substantially equivalent to the program for which the students had paid tuition and provided, further, that attendance at the other institution does not cause unreasonable hardship or inconvenience to the students. The commission shall have the authority to adopt rules or regulations which shall govern the board of trustees in the administration of the provisions of this paragraph. As a part of any such program, the board of trustees may reimburse the other postsecondary educational institution from the fund for expenses incurred by the institution in providing educational services for the students of the defaulting postsecondary educational institution. The Tuition Guaranty Trust Fund shall have an independent claim for recovery against the defaulting postsecondary educational institution and any surety issuing a bond pursuant to Code Section 20-3-250.10 to the extent that the fund has reimbursed a postsecondary educational institution from the fund for expenses pursuant to this paragraph and without the necessity of any further act by any party.

(6) It shall not be necessary to claim a loss or damage pursuant to the provisions of Code Section 20-3-250.14 in order for the board of trustees to pay claims to or on behalf of students pursuant to the provisions of this Code section. Procedures and requirements for filing claims under this Code section shall be as provided by rules or regulations adopted for that purpose by the commission.

(7) Any person aggrieved by a decision of the board of trustees to pay or deny a claim pursuant to the provisions of this Code section may appeal to the commission. A decision of the board of trustees shall be in writing and shall be sent by certified mail or statutory overnight delivery to the claimant and to the owner of the defaulting postsecondary educational institution. If the whereabouts of the owner of the defaulting postsecondary educational institution is not

known and cannot reasonably be ascertained by the board of trustees, a notice of the decision shall be published in the legal organ of the county where the student claimant attended the defaulting postsecondary educational institution or a facility of such institution. The appeal to the commission shall be commenced by filing a written notice of such appeal to the commission within 30 days after receiving the written decision of the board of trustees. Within 30 days after receiving a notice of appeal, the commission shall affirm the decision of the board of trustees, modify and affirm the decision of the board of trustees, or overrule the decision of the board of trustees. Any person aggrieved by the action of the commission shall have the right to judicial review pursuant to the provisions of Code Section 20-3-250.16. The commission shall adopt rules or regulations providing procedures for the conduct of appeals from the board of trustees, but such rules or regulations shall be consistent with the provisions of this paragraph.

(h) The board of trustees shall issue a biennial report to the Governor and members of the General Assembly providing a summary of the financial condition of the fund and claims experience during the preceding biennium. Such reports shall be issued during the regular session of the General Assembly held during each even-numbered year beginning in 1994.

(i) The tuition guaranty fund shall be exempt from all license fees or income, franchise, privilege, occupation, or other taxes levied or assessed by the state or by any county, municipality, or other political subdivision of the state. Any payment of claims or refund of participation fees from the tuition guaranty fund shall not be exempt from taxation unless such payment or refund is exempt from taxation pursuant to the provisions of law independent of the provisions of this part. **Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1993, “of subsection (a)” was inserted in the second sentence of paragraph (c)(1).

provided” was substituted for “reimbursements. Provided” in paragraph (g)(2) and “Tuition Guaranty Trust Fund” was substituted for “Tuition Guaranty Trust fund” in the last sentence of paragraph (g)(5).

## PART 2

## GEORGIA HIGHER EDUCATION ASSISTANCE CORPORATION

**Cross references.** — Investment by and interest by Georgia Higher Education insurers in loans guaranteed as to principal Assistance Corporation, § 33-11-19.

**20-3-260. Short title; name of program.**

This part shall be known and may be cited as the “Georgia Higher Education Assistance Corporation Act.” The educational loan program provided for in this part may be referred to and cited as the “Georgia Higher Education Loan Program.” (Code 1933, § 32-3301, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 1.)

## JUDICIAL DECISIONS

**Language of promissory note controls conflicting oral representations by lender.** — Defaulting borrower’s assertion that the borrower was relieved of the borrower’s obligation to repay a loan by virtue of certain oral representations made by an agent of a lender was in direct conflict with the language of the note itself, which clearly and unconditionally required the indebtedness to be repaid in cash in monthly installments. *Georgia Higher Educ. Assistance Corp. v. Geldon*, 187 Ga. App. 798, 371 S.E.2d 449 (1988).

## OPINIONS OF THE ATTORNEY GENERAL

**Georgia Higher Education Assistance Corporation may invest default reserve funds** with federal savings and loan associations and with state-chartered building and loan associations which are insured by the Federal Savings and Loan Insurance Corporation. 1969 Op. Att’y Gen. No. 69-215.

**20-3-261. Legislative findings; purpose of corporation.****(a) Legislative findings.**

(1) The General Assembly finds that the growth and development of this state and nation have been and will undoubtedly remain strongly related to the degree to which educational opportunities are provided to all of their citizens; recognizes that costs associated with postsecondary educational opportunities are substantial when considered in relation to the average earnings and wealth of most families and that such costs are in many cases prohibitive; and acknowledges that a need exists for a means whereby students and parents of students can obtain low-interest loans in a manner that will enable them to spread and thereby ease the immediate costs of such higher education and that an adequate guaranty, among other things, of such loans is essential to assure the accessibility of private loan funds to many students and parents of students. Accordingly, the General Assembly determined, as early as 1964, that such a means

for the generation of private loan funds to citizens for postsecondary educational purposes could exist through the exercise of the powers, duties, and functions vested by the General Assembly in the Georgia Higher Education Assistance Corporation. The General Assembly now reaffirms that earlier determination.

(2) The General Assembly further finds that substantial investments of public and private moneys have been made and will undoubtedly continue to be made in the construction, development, and operation of public and private postsecondary educational institutions; that such postsecondary educational institutions are of immense value to the state and nation in that they promote the general welfare and the economic and cultural development and prosperity of the state and nation and all their citizens; that it is in the public interest to sustain such institutions; and, therefore, that the provision of educational loan assistance to persons, and for and on behalf of persons, who desire to attend such educational institutions will be of substantial financial benefit to those institutions and will better ensure their continued economic viability and value to the state and nation.

(3) The General Assembly further finds that since 1965 the United States has made similar findings and determinations; that through the enactment of various federal acts, the United States secretary of education is authorized and directed to administer various programs providing for loans and grants to students and parents and to enter into agreements in support of local guaranty agencies, such as the corporation, that are administering at the local level an educational loan program and to provide partial federal financial support to such agencies and programs; and, further, that pursuant to such federal acts and such agreements, the secretary will reinsure certain educational loans that are guaranteed by the corporation; and that the secretary will pay certain federal interest subsidies and special allowances to the holders of such loans for and on behalf of the borrowers and certain other payments to the corporation in respect of such loan.

(4) The General Assembly therefore determines that it is a valid public purpose to promote the educational level of achievement and the welfare and general prosperity of the state and nation, and the continued economic viability and value of postsecondary educational institutions by providing a means for the extension of educational loan credit to students and parents of students, for the servicing of such loans, and for the guaranty of such credit, among other things, and therefore finds and declares that continuation of the corporation and the carrying out of its corporate powers, duties, and functions as provided for in this part is in all respects a necessary and valid public purpose within the meaning of the Constitution of Georgia.

(b) **Purpose of corporation.** The purpose of the corporation shall be to improve the higher educational opportunities of eligible students, so as to assure availability of the benefits of the federal acts and this part to eligible students and parents, schools, and lenders. (Code 1933, § 32-3302, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, §§ 2, 3; Ga. L. 1982, p. 3, § 20; Ga. L. 1995, p. 961, § 2.)

#### OPINIONS OF THE ATTORNEY GENERAL

**Program of guaranteed educational loans authorized.** — Georgia Higher Education Assistance Corporation is authorized to establish and administer a program of guaranteed educational loans to eligible parents; but the guarantee of and payment of interest on loans to parents who are not Georgia citizens must be by private, not state appropriated funds. 1980 Op. Att’y Gen. No. 80-153.

**Georgia Higher Education Assistance Corporation may invest default reserve funds** with federal savings and loan associations and with state-chartered building and loan associations which are insured by the Federal Savings and Loan Insurance Corporation. 1969 Op. Att’y Gen. No. 69-215.

(M) To require, in its discretion, that schools located in this state or, with approval of the corporation, a combination thereof jointly shall provide fidelity bond coverage of school employees who have access to checks or funds that may be routed through the school under this part to students enrolled therein in such sums and conditioned in such respects as to the insured as may be reasonably necessary to protect the interests of the corporation and the lenders and to provide for matters relative thereto;

(N) To limit the applicability of designated rules and regulations to schools located within this state, or within this state and states bordering on this state, in that the majority of students for whom loans are guaranteed under this part are attending schools located within such states;

(O) To provide for the application of school refunds to educational loan indebtedness incurred under this part, consistent with the requirements of any other federal or state law, rule, or regulation which provides financial aid to students and for the application of school refunds relative to those programs;

(P) To approve, disapprove, limit, suspend, or terminate the participation of a school or a lender in the program administered by the corporation, consistent with this part, the federal act, and agreements entered into between the corporation and the secretary, and to provide for such formal and informal procedures in regard thereto as may be appropriate;

(Q) To collect from borrowers, comakers, cosigners, or endorsers all amounts owed in respect of educational loans on which the corporation has been required to meet its loan guaranty obligation following the inability of the holders of such loans to collect such amounts and to provide for all matters relative thereto;

(R) To provide for the classification of loans purchased from lenders in accordance with the status of borrowers and the current apparent collectability status of such loans from borrowers; and, consistent with the federal act and with the approval of the secretary whenever such approval is required, to consent to the modification of the terms of a note; and to compromise, satisfy, and settle loan amounts due, as to which federal reinsurance payment has been received by the corporation, for less than the amount due thereon; and to waive or release any right, title, claim, equity, lien,

or demand relative to a borrower or to any asset, however acquired, whenever deemed to be necessary or best protective of the financial interests of the corporation and the United States; provided, however, that no claim or right of the corporation to payment of any amount due which is the result of an expenditure made by the corporation from funds appropriated by the General Assembly for use by the corporation may be compromised, satisfied, settled, waived, or released for less than the principal amount due without the approval of the Attorney General;

(S) To require that reports, in such form and containing such information as the corporation may prescribe, be furnished to the corporation by schools and lenders as it may deem necessary for the effective performance of its powers, duties, and functions under this part and the federal act;

(T) To prescribe minimum information that must be included in any oral or printed information, announcement, communication, or material that is:

(U) To require that such administrative and fiscal procedures be used by the corporation, lenders, and schools as may be necessary to protect the corporation and the United States from the risk of unreasonable loss and to ensure proper and effective administration of the program;

(i) The power to retain accounting and other financial services;

(ii) The power to purchase all kinds of insurance, including, without limitation, insurance against tort liability and against risks of damage to property;

(iii) The power to indemnify and hold harmless any parties contracting with the corporation or its agents from damage to persons or property; and

(iv) The power to act as a self-insurer with respect to any loss or liability and to create insurance reserves;

(2) The corporation shall have the power to service or contract for the servicing of educational loans, including the servicing of such loans by the corporation on behalf of others, to contract in advance for

the servicing of educational loans, and to contract for the performance by the corporation of any portion of the program;

(3) All provisions of this part to the contrary notwithstanding, the corporation is authorized to guarantee service cancelable loans made to students by the authority pursuant to paragraph (1) of subsection (b) of Code Section 20-3-374 even if such loans do not meet all requirements of the federal act. In this event, conditions prescribed by the corporation for the guarantee of such loans shall, to the maximum extent deemed practicable, be the same as otherwise prescribed in this part relative to loans guaranteed by the corporation pursuant to the federal act;

(4) Each applicant who, as of the date of application for financial assistance under this part, is required but has not registered with the Selective Service System of the United States pursuant to 50 U.S.C. Section 453, as amended, shall be ineligible to receive financial assistance under this part. Each applicant shall, under penalty of perjury, certify compliance or noncompliance with the registration requirements of the Military Selective Service Act of the United States and provide such other information as the corporation may reasonably require;

(5) If any conflict exists between this part and the federal act or any rules or regulations promulgated under the federal act, which conflict will result in a loss by the corporation of any federal funds or other funds that would otherwise be available to it for carrying out its purposes under this part, including, but not by way of limitation, federal and other funds available to the corporation under the federal act as administrative cost allowances; as retainage of a portion of moneys collected from borrowers, comakers, cosigners, endorsers, or others on guaranteed loans purchased from lenders or holders by the corporation; and as reimbursement for amounts paid by the corporation in the discharge of its guaranty obligations, the corporation is authorized, empowered, and directed to adopt appropriate rules, regulations, and policies, consistent with the federal act, to remove such conflict and thereby to provide for the receipt or retainage of such funds; provided, however, that such rules, regulations, or policies are not in derogation of the Constitution or laws of the state, other than this part, or any contract to which the corporation is a party and are wholly in conformity with the purposes of the corporation as set forth in this part; and

(6) To the extent that this part is inconsistent with any other general or special law of the state or with any rule or regulation, this part shall be controlling. ### 20-3-267. Accounting system; use of funds; payments to commission.

The corporation shall maintain a system of accounts in accordance with generally accepted accounting procedures and standard accounting procedures and systems established by the state, where applicable, which shall, among other things, properly identify and account for all funds received by the corporation, the source of such funds, and all expenditures of the corporation. Agency, federal, and other funds of the corporation, determined to be available for such purposes, may be used to discharge any guaranty obligation of the corporation, to pay any state interest subsidy and lender discount payment obligations of the corporation, and to pay expenses and operating costs incurred by the corporation, including payments to the commission to defray expenses and operating costs of the corporation paid or to be paid by the commission for or on behalf of the corporation. No funds of the corporation shall lapse to the state as of the close of any fiscal year. (Code 1933, § 32-3308, enacted by Ga. L. 1980, p. 835, § 2.)

**20-3-268. Annual audits of corporation; distribution of audit reports.**

The state auditor shall make an annual financial audit of the books, accounts, and records of the corporation. The state auditor shall maintain a copy of the audit report on file in his or her office, make copies of the report available for inspection by the general public, and furnish a copy of the report to the corporation, to members of the board of directors of the corporation, and to the Governor and shall notify the members of the General Assembly of the availability of the report in the manner which he or she deems to be most effective and efficient. (Ga. L. 1964, p. 735, § 12; Ga. L. 1965, p. 217, § 13; Code 1933, § 32-3341, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 2005, p. 1036, § 16/SB 49.)

**20-3-269. Loan guaranties not state debt; directors and officers not personally liable for issuance of guaranties.**

Loan guaranties issued under this part shall not be deemed to constitute a debt, liability, or obligation of, or a pledge of the faith and credit of, the state but shall be payable solely from revenues or assets of the corporation provided for such payment pursuant to paragraph (1) of Code Section 20-3-275. No director or officer of the corporation shall be subject to any personal liability or accountability by reason of the issuance of loan guaranties by the corporation. (Code 1933, § 32-3309, enacted by Ga. L. 1980, p. 835, § 2.)

**OPINIONS OF THE ATTORNEY GENERAL**

**Editor's notes.** — In light of the similarity of the statutory provisions, opinions under former Ga. L. 1965, p. 217, which was subsequently repealed but was succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Notes guaranteed by corporation and United States government** are "obligations". 1971 Op. Att'y Gen. No. 71-69 (decided under former Ga. L. 1965, p. 217).

**State depositories may pledge or assign guaranteed notes.** — State depositories may pledge or assign to the State Treasurer (now director of the Office of Treasury and Fiscal Services), in lieu of surety bonds, notes fully guaranteed by the corporation to the extent that the notes are reinsured by the United States government in accordance with former Code 1933, § 100-108. 1971 Op. Att'y Gen. No. 71-69 (decided under former Ga. L. 1965, p. 217).

**20-3-270. Loan guaranties conditioned on lenders' and holders' due diligence.**

The guaranty of the corporation on an educational loan made under this part is conditioned upon exercise of due diligence by the lender and by any subsequent holder of the loan, as may be applicable, in the making of the loan, in the servicing of the loan account, and in the

collection of the loan in accordance with the federal act and this part. (Code 1933, § 32-3310, enacted by Ga. L. 1980, p. 835, § 2.)

**20-3-271. Insurance premiums or guaranty fees.**

The corporation is authorized to charge and collect insurance premiums on loans in accordance with the federal act and to provide for all matters relative thereto. In the administration of the program, the insurance premium charged may be identified and referred to as a "guaranty fee." Guaranty fees collected by the corporation shall be credited to the corporation's loan guaranty fund. (Code 1933, § 32-3311, enacted by Ga. L. 1980, p. 835, § 2.)

**20-3-272. Submission of lenders' billings and reports to secretary by corporation; use of state funds to accelerate federal payments.**

(a) **Corporation billing and report services.** Pursuant to the federal act, each lender must submit to the secretary such reports as he may require and must prepare and submit billings for the payment of federal interest subsidies and special allowances due the lender on loans held by the lender when the federal act provides for their payment by the United States on behalf of borrowers during the in-school, grace, and deferment periods of time. The corporation is not required but is authorized, pursuant to its regulations and the terms of an agreement between it and a lender but subject to any limitations imposed by the federal act, to prepare, without charge to the lender, the lender's periodic billings for federal interest subsidies and special allowances due on loans held by the lender and to submit them on behalf of the lender to the secretary for payment by the United States directly to the lender or to the corporation for and on behalf of the lender; and it is further authorized, but not required, to prepare and submit on behalf of lenders any statistical type of report required of lenders by the secretary. Interest billings and reports prepared and submitted on behalf of a lender pursuant to this Code section shall be prepared on the basis of individual borrower account records of the lender, as reflected on the records of the corporation as a result of loan transaction data reported to the corporation by the lender, but without warranty by or liability therefor of the corporation. A copy of each interest billing submitted to the secretary on behalf of a lender, including a copy of the corporation's computation of interest and allowances due the lender and the lender's loan transaction and account data on which the computation is made, shall be furnished to the lender upon payment thereof; and the lender shall be responsible therefor. It shall be the duty of each such lender to audit the copies for completeness and accuracy, post payments received to its records, and to report any correction of

loan transaction data to the corporation so that the corporation's records can be corrected and so that any interest adjustment that needs to be made can be made on the next subsequent interest billing prepared for the lender. Any overpayment of federal interest subsidies or special allowances to a lender on behalf of a borrower by the United States or of state interest subsidies or loan discount payments by the state, and repayment thereof, shall be the responsibility of the borrower or the lender. Services provided for a lender by the corporation under this Code section are declared to be purely clerical and ministerial only and provided to the lender without charge as a convenience to the lender.

(b) **Use of state funds to accelerate federal payments.** In the event the United States makes the federal payments referred to in subsection (a) of this Code section to lenders through the corporation, the corporation is authorized, in order to accelerate and pay them to lenders as early as possible after the end of each calendar quarter, to use temporarily for this purpose any available state funds that have been appropriated for use by the corporation during the current fiscal year and state funds that have been appropriated for use by the authority during the current fiscal year which the authority may temporarily transfer to the corporation for use by the corporation for this purpose, pending receipt by the corporation of the payment from the United States and the transfer of such authority funds back to the authority by the corporation. (Code 1933, § 32-3313, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 21.)

### **20-3-273. State interest subsidy payments for student borrowers.**

The corporation is authorized to pay to the lender, on behalf of a student borrower and out of the corporation's state interest subsidy and loan discount fund, interest accruing on a loan guaranteed by the corporation which is not eligible for payment of the federal interest subsidy provided for in the federal act; provided, however, that no loan shall be guaranteed and no such interest shall be paid by the corporation, unless the loan is eligible for federal reinsurance and federal special allowance payments pursuant to the federal act and unless the state has appropriated funds for use by the corporation for the purposes of this Code section, and that such appropriated funds plus funds then in and projected to become available to the corporation's state interest subsidy and loan discount fund are deemed to be sufficient to enable the corporation to meet its state interest subsidy and loan discount payment obligations to become due and payable during the period of any fiscal year for which the General Assembly has already enacted an appropriations Act. Interest accruing and payable on a nonfederally

subsidized loan guaranteed pursuant to this Code section shall thereafter be payable by the corporation at the same times, in the same manner, and during the same periods of time as the federal interest subsidy is otherwise payable on federally subsidized loans pursuant to the federal act. Interest paid on behalf of a student borrower under this Code section is declared to be a loan to the student by the state under this part and guaranteed by the corporation as to repayment by the student in the same manner as if such nonfederally subsidized interest had been deferred and capitalized by the lender holding the underlying loan. The loan of interest made on behalf of a student borrower under this Code section must be repaid by the student borrower by virtue of this Code section and pursuant to provisions set forth in the promissory note executed by the student evidencing the underlying loan. Such interest loan may be repaid by the student, without interest accruing thereon, at any time before maturity of the underlying loan, but shall in any event be repayable in full, without interest thereon, upon maturity of the underlying loan or thereafter, without interest thereon, in monthly installments agreed to by the corporation. Interest loans repaid to the corporation pursuant to this Code section and the underlying promissory note shall be credited to the corporation's state interest subsidy and loan discount fund for further use by the state for purposes of that fund as provided for in subsequent appropriations Acts of the General Assembly. Failure by a student to repay an interest loan owed to the state under this Code section when due shall constitute a default thereon, subject to any forbearance granted to the student by the corporation on behalf of the state, and may thereafter be paid as a default at any time by the corporation; but any default by a student in the payment of an interest loan shall not constitute a default by the student to the lender on the underlying loan. The right of the corporation to collect an interest loan due and owing by a student to the state under this Code section is not subrogated to the right of the lender to collect the underlying loan nor to the right of the corporation to collect any amount becoming due to the corporation on the underlying loan. (Code 1933, § 32-3314, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 22.)

**20-3-274. Loan discount payments to lenders.**

In order to provide an additional incentive to lenders to broaden their participation in the program and better to assure lenders of receiving a competitive yield on educational loans made under this part, the corporation is authorized to pay to lenders, other than lenders who are schools, a loan discount fee to offset partially initial costs incurred by lenders in interviewing borrowers and in processing borrower applications for loan guaranty. The loan discount payment authorized by this Code section shall be equal to a percentage of the amount of guaranteed loan principal disbursed to a borrower, to be determined and fixed by the corporation; provided, however, that the amount of the loan discount payment shall not exceed 2 percent of the amount of guaranteed loan principal disbursed to the borrower; and provided, further, that the corporation shall not make a commitment to lenders to make loan discount payments under this Code section unless the state has appropriated funds for use by the corporation for the purposes of this Code section and that such appropriated funds plus funds then in and projected to become available to the corporation's state interest subsidy and loan discount fund are deemed to be sufficient to enable the corporation to meet its state interest subsidy and loan discount payment obligations to become due and payable during the period of any fiscal year for which the General Assembly has already enacted an appropriations Act. (Code 1933, § 32-3315, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 23.)

**20-3-275. Funds maintained by corporation.**

There are created, but not by way of limitation, the following special funds for the purposes prescribed:

(1) **Loan guaranty fund.** A loan guaranty fund shall be maintained for the security of holders of loans guaranteed by the corporation. The corporation is authorized to guarantee loans pursuant to this part without limitation; provided, however, that the amount of outstanding principal of loans guaranteed plus the principal amount of loans guaranteed but not yet disbursed nor canceled shall not at any time exceed 15 times the loan guaranty fund balance. In determining the amount of loan principal that may be guaranteed at any time by the corporation, however, there shall be excluded from the computation of the required loan guaranty fund balance 80 percent of the amount of outstanding principal of loans guaranteed and 80 percent of the principal amount of loans guaranteed but not yet disbursed nor canceled which are reinsured by the United States pursuant to the federal act. There shall be credited to the loan guaranty fund all moneys required by law to be credited to the fund

and other moneys available for and determined by the corporation to be credited to the fund for the purpose of providing security to the holders of loans guaranteed by the corporation and other purposes authorized in accordance with this part and the federal act. The fund shall be prudently invested by the corporation to the maximum extent possible, subject to requirements of the federal act; and all income derived from investment of the fund shall be credited to the fund. Other income, property, and property rights acquired by the corporation as a result of administration of the fund shall be credited to and become assets of the fund. There shall be paid out of the loan guaranty fund all amounts expended by the corporation in discharge of its guaranty obligations and such other amounts determined by the corporation to be properly payable from the fund. Guaranty fees collected and credited to the fund and income derived from investment of the fund, except as limited by the federal act, may be transferred to the administration fund.

(2) **Administration fund.** An administration fund shall be maintained for administration purposes of the corporation, to which shall be credited state moneys, federal moneys, moneys transferred from the loan guaranty fund or the state interest subsidy and loan discount fund, and other moneys available for and determined by the corporation to be applied for the purpose of paying administration costs of the corporation. The corporation is authorized to pay from the fund to the commission such amounts as may be necessary to cover administration costs of the corporation paid or to be paid by the commission for or on behalf of the corporation. Moneys in the administration fund may be transferred to the loan guaranty fund or to the state interest subsidy and loan discount fund if not prohibited by the federal act.

(3) **State interest subsidy and loan discount fund.** A state interest subsidy and loan discount fund shall be maintained by the corporation for the purpose of making state interest subsidy and loan discount payments to lenders pursuant to Code Sections 20-3-273 and 20-3-274. State funds appropriated for use by the corporation in making such payments to lenders, collections of state interest subsidy loans previously made from the fund on behalf of student borrowers pursuant to Code Section 20-3-274, moneys transferred to the fund from the administration fund or the loan guaranty fund not in conflict with the federal act, and other moneys available for and determined by the corporation to be applied for the purpose of making such state interest subsidy and loan discount payments to lenders shall be credited to and become a part of the fund. In the event that state interest subsidy and loan discount payments to lenders, as provided for in this part, shall be terminated, any remaining fund balance, after payment of outstanding obligations of the fund, shall

be transferred to the administration fund. (Code 1933, § 32-3317, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 24.)

**20-3-276. School rights subject to rules and regulations.**

No school and no class, type, or group of “eligible institutions,” as such term is defined in the federal act, shall have a vested right to be approved by the corporation as a “school” for purposes of the program, except in accordance with rules and regulations prescribed by the corporation. (Code 1933, § 32-3318, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 25.)

**20-3-277. Lender rights subject to rules and regulations.**

No lender and no class, type, or group of “eligible lenders,” as such term is defined in the federal act, shall have a vested right to be approved by the corporation as a “lender” for purposes of the program, except in accordance with rules and regulations prescribed by the corporation. (Code 1933, § 32-3319, enacted by Ga. L. 1980, p. 835, § 2; Ga. L. 1981, p. 735, § 26.)

**20-3-278. Reports as to loan commitment agreements; statements to borrowers; administration fees; reports of agreement terminations.**

Repealed by Ga. L. 1987, p. 378, § 2, effective April 2, 1987.

**Editor’s notes.** — This Code section enacted by Ga. L. 1980, p. 835, § 2; and was based on Code 1933, § 32-3320, as Ga. L. 1982, p. 3, § 20.

**20-3-279. Persons forbidden to engage in business of furnishing educational loan information or assistance.**

It shall not be permissible for any stockholder, director, officer, employee, agent, commissioned salesman, consultant, or other person in the employment of, or who for a valuable consideration serves the interests of, a lender or a school in this state or the corporation, the commission, or the authority to be engaged in this state in the business of providing, or to have any financial interest in any corporation, association, partnership, or other organization that is engaged in this state in the business of providing, in consideration of the receipt of a fee, commission, charge, or other valuable consideration from any source, contingent or otherwise, to students or parents of students information about or assistance in applying for or obtaining educational loan assistance under this part. (Code 1933, § 32-3321, enacted by Ga. L. 1980, p. 835, § 2.)

**20-3-280. Lender and school audits; program reviews; corrective actions.**

The corporation is authorized:

- (1) To examine and audit accounts and records of lenders and schools relative to educational loans guaranteed by the corporation;

(a) As used in this Code section, the term:

(2) “Applicant” means any person applying for issuance or renewal of a license.

(3) “Borrower” means an individual who borrowed a guaranteed educational loan under the Georgia Higher Education Loan Program.

(4) “Certified list” means a list provided by the agency of the names of borrowers who default on guaranteed educational loans made under the Georgia Higher Education Loan Program and are not in a satisfactory repayment status; provided, however, the term default shall not include any obligation which is restructured or which is discharged under hardship provisions under the federal Bankruptcy Code.

(5) “Default” means default as defined by federal law under the Higher Education Act of 1965.

(6) “License” means a certificate, permit, registration, or any other authorization issued by any licensing entity that allows a person to engage in a profession, business, or occupation.

(7) “Licensee” means any person holding a license.

(8) “Licensing entity” means any state agency, department, or board of this state which issues or renews any license, certificate, permit, or registration to authorize a person to engage in a profession, business, or occupation, including those under Article 3 of Chapter 7 of Title 2, the “Georgia Pesticide Use and Application Act of 1976”; Article 13 of Chapter 1 of Title 7, relating to mortgage lenders and mortgage brokers; Chapter 5 of Title 10, the “Georgia Uniform Securities Act of 2008,” relating to securities salespersons and investment adviser representatives; Part 2 of Article 1 of Chapter 6 of Title 12, relating to foresters; Chapter 4 of Title 26, relating to pharmacists; Chapter 23 of Title 33, relating to insurance agents, counselors, and other personnel; Chapter 1 of Title 43, relating to professions and businesses; Chapter 39A of Title 43, relating to real estate appraisers; or Chapter 40 of Title 43, relating to real estate brokers and salespersons.

(9) “Satisfactory repayment status” means the borrower has agreed to repay the defaulted loan to the agency and has made a payment in the most recent prior 60 days.

(b) The agency shall maintain a state-wide certified list of borrowers in default who have not made satisfactory arrangements to ensure voluntary repayment. The certified list must be updated on a monthly basis. The agency shall submit to each licensing entity a certified list with the name, social security number, if known, date of birth, and last known address of each person on the list.

(c) On or before January 1, 1999, all licensing entities shall implement procedures to accept and process the list provided by the agency in accordance with this Code section. Such procedures should be

substantially similar if not identical to those implemented to comply with Code Section 19-11-9.3.

(d) Promptly after receiving the certified list from the agency, all licensing entities shall determine whether an applicant or licensee is on the most recent certified list. If an applicant or licensee is on the certified list, the licensing entity shall immediately notify the agency. That notification shall include the applicant's or licensee's last known mailing address on file with the licensing entity.

(e) After receiving notice from the licensing entity of applicants or licensees who are on the certified list, the agency shall immediately notify those individuals as specified in subsection (f) of this Code section of the agency's intent to request that all pertinent licensing entities suspend all licenses or withhold issuance or renewal of any license.

(f) Notice for purposes of this Code section shall be initiated by the agency. Notice to the borrower in default shall include the address and telephone number of the agency and shall inform the borrower in default of the agency's intent to submit the borrower's name to the relevant licensing entities and to request that the relevant licensing entities withhold issuance or renewal of the license or suspend the license. The notice must also inform the borrower in default of the following:

(1) The borrower in default has 20 days from the date of mailing to enter into a satisfactory repayment status. If the borrower in default fails to enter into a satisfactory repayment status or does not respond within that time, the agency will send notice to the appropriate licensing entities and request that the licenses be suspended or the licensure applications be denied;

(2) The borrower in default may request an administrative hearing and judicial review of that hearing under subsection (g) of this Code section. A request for a hearing must be made in writing and must be received by the agency within 20 days of service of notice; and

(3) If the borrower in default requests a hearing within 20 days of service, the agency shall stay all action pending the hearing and any appeals.

(g) All borrowers in default subject to the sanctions imposed in this Code section shall have the right to a hearing before an administrative law judge of the Office of State Administrative Hearings pursuant to Article 2 of Chapter 13 of Title 50. A borrower in default who requests a hearing within the time prescribed in subsection (f) of this Code section shall have the right to a hearing. The hearing shall be conducted as provided in Article 2 of Chapter 13 of Title 50 within 45 days after

such demand is received. The only issues at the hearing will be whether:

- (1) There is an outstanding guaranteed educational loan;
- (2) The licensee or applicant is the borrower named in the loan;
- (3) The borrower is or is not in default;
- (4) The borrower has entered into a satisfactory repayment status;
- (5) The loan obligation is not enforceable; and
- (6) The loan has been restructured or the loan has been discharged under hardship provisions under the federal Bankruptcy Code.

With respect to the issues listed in this subsection, evidence relating to the ability and willingness of a borrower to repay the loan shall be considered in making the decision either to suspend a license or deny the issuance or renewal of a license under this Code section. The administrative law judge shall be authorized to enter into an agreement or enter an order requiring periodic payments, and, in each event, the administrative law judge shall be authorized to issue a release for the borrower to obtain each license or licenses.

(h) The decision at the hearing shall be subject to appeal and judicial review pursuant to Article 2 of Chapter 13 of Title 50 but only as to those issues referred to in subsection (g) of this Code section. Notwithstanding any hearing requirements for suspension and denials within each licensing entity, the hearing and appeal procedures outlined in this Code section shall be the only hearing required to suspend a license or deny the issuance or renewal of a license under this Code section.

(i) The agency shall prescribe release forms for its use. When the borrower is determined to be in satisfactory repayment status or is determined to be not in satisfactory repayment status but has been determined in a hearing pursuant to subsection (g) of this Code section to be unable to comply with the terms of the loan agreement or to be not willfully out of compliance with such loan agreement, the agency shall mail to the borrower in default and the appropriate licensing entity a notice of release stating such determination. The receipt of a notice of release shall serve to notify the borrower in default and the licensing entity that, for the purpose of this Code section, he or she is in satisfactory repayment status, and the licensing entity shall promptly thereafter issue or reinstate the license, unless the agency, pursuant to subsection (b) of this Code section, certifies subsequent to the issuance of a notice of release that the borrower in default is once again not in satisfactory repayment status.

(j) The agency may enter into interagency agreements with state agencies that have responsibility for the administration of licensing

entities as necessary to implement this Code section. Those agreements shall provide for the receipt by other state agencies and boards of federal funds to cover that portion of costs allowable under federal law and regulation and incurred by state agencies and boards in implementing this Code section.

(k) Any licensing entity receiving an inquiry as to the license status of an applicant who has had an application for issuance or renewal of a license denied under this Code section shall respond only that the license was suspended or the licensure application was denied pursuant to this Code section.

(l) The agency shall, and the licensing entities as appropriate may, adopt regulations necessary to implement this Code section. (Code 1981, § 20-3-295, enacted by Ga. L. 1998, p. 1094, § 6; Ga. L. 1999, p. 81, § 20; Ga. L. 1999, p. 329, § 6; Ga. L. 2008, p. 381, § 10/SB 358; Ga. L. 2009, p. 8, § 20/SB 46.)

## Subpart 1

### General Provisions

#### 20-3-310. Short title.

This part shall be known and may be cited as the "Georgia Student Finance Authority Act." (Code 1933, § 32-3701, enacted by Ga. L. 1980, p. 835, § 3.)

**20-3-311. Legislative findings; purposes of authority.**

(a) **Legislative findings.** The General Assembly finds that the growth and development of this state and nation have been and will undoubtedly remain strongly related to the degree to which educational opportunities are provided to all of their citizens; recognizes that costs associated with postsecondary educational opportunities are substantial when considered in relation to the average earnings and wealth of most families and that such costs are in many cases prohibitive; and determines that it is a valid public purpose to promote the educational level of achievement and the welfare and general prosperity of the state and nation as a whole by creating the Georgia Student Finance Authority, a public authority, for the purpose of providing educational scholarship, grant, and loan assistance to students and their parents. The General Assembly further finds that substantial investments of public and private moneys have been made and will undoubtedly continue to be made in the construction, development, and operation of public and private postsecondary educational institutions; that such postsecondary educational institutions are of immense value to the state and nation in that they promote the general welfare and the economic and cultural development and prosperity of the state and nation and all their citizens; that it is in the public interest to sustain such institutions; and, therefore, that the provision of educational scholarship, grant, and loan assistance to persons who desire to attend such educational institutions will be of substantial financial benefit to those institutions and will better ensure their continued economic viability and value to the state and nation. The General Assembly therefore determines that public moneys may within the provisions of the Constitution of Georgia be appropriated for use by the authority for the student aid purposes prescribed in this part and that the carrying out by the authority of its corporate powers, duties, and functions as provided for in this part is in all respects a necessary and valid public purpose within the Constitution of Georgia.

(b) The purposes of the authority shall be to improve higher educational opportunities by providing educational scholarship, grant, and loan assistance and to further other public purposes by loan forgiveness programs in specified circumstances, all as prescribed and as provided for in this part. (Code 1933, § 32-3702, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1995, p. 961, § 6; Ga. L. 2002, p. 1115, § 2.)

## JUDICIAL DECISIONS

**Loan default resulting from collegiate discontinuation no defense.** — It is not a valid defense to an action to recover on teacher scholarship loan notes

that the defendant recipient’s default in the terms of the loan agreement, by discontinuing a course or program of study for which the student was receiving scholarship aid, resulted from the student’s involuntary discontinuation by the authorities of the college at which the student was enrolled. *Swindell v. Georgia State Dep’t of Educ.*, 138 Ga. App. 57, 225 S.E.2d 503 (1976) (decided under former Code 1933, § 32-3706).

#### **Subpart 3**

#### **Educational Loans Financed by State Funds**

### **20-3-370. Legislative findings; purpose of subpart.**

The General Assembly finds that students and parents are not always able to obtain educational loan assistance from a commercial lender under the Georgia Higher Education Loan Program provided for in Part 2 of this article; that a need exists to make additional educational loan funds available to students and parents; and that shortages exist within the state in the supply of trained personnel in certain paramedical and other professional and educational fields and other areas, which might possibly be alleviated by providing educational loan assistance to students in those fields and areas together with an option whereby such students can repay such educational loans through services rendered in lieu of cash repayment. The purpose of the General Assembly, as provided for in this subpart, is to enable the authority to make additional educational loans to students and parents and to make service cancelable loans to students in certain fields of study and other areas as provided in this subpart. (Code 1933, § 32-3746, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 38.)

### **20-3-371. Definitions.**

As used in this subpart, the term:

(1) "School" means "school" as such term is defined in paragraph (18) of Code Section 20-3-262 and in regulations of the authority.

(2) "Student" or "eligible student" means a "student" or "eligible student" as such term is defined in paragraph (21) of Code Section

20-3-262 and in regulations of the authority. (Code 1933, § 32-3747, enacted by Ga. L. 1980, p. 835, § 3.)

**20-3-372. State funded educational loan program authorized; powers of authority.**

The authority is authorized to be a lender in the Georgia Higher Education Loan Program, as provided for in Part 2 of this article, and to establish and administer a state direct educational loan program pursuant to this subpart. The authority is authorized to prescribe all rules, regulations, policies, and procedures necessary or convenient for the administration of the program and all terms and conditions applicable to loans made under this subpart; provided, however, that they shall conform with this subpart and with Part 2 of this article in order that such loans shall be guaranteed by the corporation. (Ga. L. 1969, p. 683, § 6; Ga. L. 1971, p. 518, § 2; Code 1933, § 32-3748, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 39.)

**20-3-373. General loan fund.**

(a) The authority shall maintain a general loan fund to which shall be credited:

(1) State funds appropriated for use by the authority for educational loan purposes as specified in this subpart other than service cancelable loans;

(2) Unrestricted moneys received by gift or otherwise and other moneys available for and determined by the authority to be used for the purposes of this Code section;

(3) Outstanding educational loans held by the authority under this subpart as to which the borrower does not have a right to repay and cancel the loan through services rendered;

(4) Principal collected on all educational loans held by the authority under this subpart, including the principal portion of payments received from the corporation in discharge of its guaranty liability on such loans; and

(5) Such amounts as may be transferred to the fund from the service cancelable loan fund or the administration fund of the authority.

The authority is authorized to use moneys available in the fund to make guaranteed educational loans to eligible students and parents in accordance with its rules and regulations and Part 2 of this article. The authority is further authorized, under such limited circumstances as it may prescribe, to use moneys available in the fund to purchase

guaranteed educational loans made by other lenders under Part 2 of this article and to sell guaranteed educational loans made or owned by the authority to eligible lenders.

(b) The authority may, in its discretion, to the extent that it may specify in a resolution or trust indenture and in accordance with all other resolutions, indentures, and contracts entered into or executed by the authority in accordance with law and pursuant to Subpart 2 of this part, include in any pledge of revenues or assets made under Subpart 2 of this part educational loans, or revenues derived therefrom, which are a part of the general loan fund. (Code 1933, § 32-3749, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 40; Ga. L. 2008, p. 626, § 1/SB 169.)

**20-3-374. Service cancelable loan fund; authorized types of service cancelable educational loans.**

(a) The authority shall maintain a service cancelable loan fund to which shall be credited:

(1) State funds appropriated for use by the authority for service cancelable loan purposes;

(2) Unrestricted moneys received by gift or otherwise and other moneys available for and determined by the authority to be available for the purposes of the fund; and

(3) Outstanding educational loans held by the authority under this subpart as to which the borrower has a right to repay in cash or cancel the obligation for cash repayment through service in designated fields.

(b) State funds appropriated for service cancelable loans shall be used by the authority to the greatest extent possible for the purposes designated in this subpart in accordance with the following:

**(1) Paramedical and other medical related professional and educational fields of study.**

(A) The authority is authorized to make service cancelable educational loans to residents of Georgia enrolled in paramedical and other medical related professional and educational fields of study, including selected degree programs in gerontology and geriatrics. A student enrolled in a program leading to the degree of doctor of medicine shall not qualify for a loan under this paragraph. The authority shall, from time to time, by regulation designate the subfields of study that qualify for service cancelable loans under this paragraph. In determining the qualified subfields, the authority shall give preference to those subfields in which the State of

Georgia is experiencing a shortage of trained personnel. Loans made under this paragraph need not be limited to students attending a school located within the state. However, any and all loans made under this paragraph shall be conditioned upon the student agreeing that the loan shall be repaid by the student either:

(i) Practicing in the designated qualified field in a geographical area in the State of Georgia approved by the authority. For service repayment, the loan shall be repaid at a rate of one year of service for each academic year of study or its equivalent for which a loan is made to the student under this paragraph; or

(ii) In cash repayment with assessed interest thereon in accordance with the terms and conditions of a promissory note that shall be executed by the student.

(B) The authority is authorized to make service cancelable loans to residents of this state enrolled in a course of study leading to a degree in an educational field that will permit the student to be employed as either a licensed practical nurse or a registered nurse. Service cancelable loans can also be made available under this paragraph for students seeking an advanced degree in the field of nursing. The maximum loan amount that a full-time student may borrow under this paragraph shall not exceed \$10,000.00 per academic year. Any and all loans made under this paragraph shall be conditional upon the student agreeing that the loan shall be repaid by the student either:

(i) Practicing as a licensed practical or registered nurse in a geographical area in the State of Georgia that has been approved by the authority. For service repayment, the loan shall be repaid at a rate of one year of service for each academic year of study or its equivalent for which a loan is made to the student under this paragraph; or

(ii) In cash repayment with assessed interest thereon in accordance with the terms and conditions of a promissory note that shall be executed by the student;

(2) **Georgia National Guard members.** The authority is authorized to make service cancelable educational loans to residents of Georgia who are eligible members of the Georgia National Guard and who are enrolled at the undergraduate level in a private or public college or public postsecondary technical or vocational school located in the state. Members of the Georgia National Guard who are in good standing according to applicable regulations of the National Guard shall be eligible to apply for a loan. Such loans shall be on the terms and conditions set by the authority in consultation with the Depart-

ment of Defense, provided that any such loan shall not exceed an amount equal to the actual tuition charged to the recipient for the period of enrollment in an educational institution or the tuition charged by the University of Georgia for the period of enrollment at the university, whichever is less. Students eligible for the HOPE scholarship or HOPE grant at an eligible public or private postsecondary institution are not eligible to receive this loan during a school term in which they are receiving HOPE scholarship or HOPE grant funds. A loan recipient shall not be eligible to receive loan assistance provided for in this paragraph for more than five academic years of study. Educational loans may be made to full-time and half-time students. Upon the recipient's attainment of a baccalaureate degree from an institution or cessation of status as an active member, whichever occurs first, the loan provided by this paragraph shall be discontinued. The loan provided by this paragraph may be suspended at the discretion of the authority for a recipient's failure to maintain good military standing as an active member or failure to maintain sufficient academic standing and good academic progress and program pursuit. Loans made under this paragraph shall be repayable in cash, with interest thereon, or, upon satisfactory completion of a quarter, semester, year, or other period of study as determined by the authority; graduation; termination of enrollment in school; or termination of this assistance with approval of the authority, shall be canceled in consideration of the student's retaining membership in the Georgia National Guard during the period in which the loan is applicable. The adjutant general of Georgia shall certify eligibility and termination of eligibility of students for educational loans and eligibility for cancellation of educational loans by members of the Georgia National Guard in accordance with regulations of the authority;

(3) Reserved; and

(4) **Critical shortage fields.** The authority is authorized to make service cancelable educational loans to residents of the State of Georgia enrolled in any field of study that the authority, from time to time, designates by regulation as a field in which a critical shortage of trained personnel exists in the State of Georgia. Loans made under this paragraph need not be limited to students attending schools located within the State of Georgia. However, any and all loans made under this paragraph shall be conditional upon the student agreeing that the loan shall be repaid by the student either:

(A) Practicing in the designated field in a geographical area in the State of Georgia approved by the authority. For service repayment, the loan shall be repaid at a rate of one year of service for each academic year of study or its equivalent for which a loan is made to the student under this paragraph; or

(B) In cash repayment with assessed interest thereon in accordance with the terms and conditions of a promissory note that shall be executed by the student.

The authority is authorized to place other conditions and limitations on loans made under this paragraph as it may deem necessary to fill the void that has created the critical shortage in the field.

(c) All students receiving loans under this Code section shall execute, prior to the disbursement of any loan proceeds to or for the benefit of that student, a promissory note containing the terms and conditions of the service repayment and cash repayments. Except as prohibited by federal or other state laws, individuals that fail to fulfill the terms and conditions of cash repayment may, without judicial action, be subject to garnishment of their pay, loss of a professional license, offset of lottery winnings, and offset of a state tax refund in accordance with rules and regulations promulgated by the authority not inconsistent with the provisions of this part.

(d) The total sum of service cancelable loans made by the authority in any fiscal year from state appropriations shall not exceed the amount of funds for such loan purposes specified in annual appropriations Acts. Funds in the service cancelable loan fund account that are not expended by the authority for service cancelable loans during any fiscal year shall become a part of the general loan fund account.

(e) If the corporation, pursuant to Code Section 20-3-273, pays or has paid interest to the authority on a service cancelable loan made under this Code section, and if the borrower repays all or a portion of the loan through services rendered as provided for in this Code section, then the authority shall, in accordance with its regulations and in consideration of the services rendered by the borrower, repay to the corporation on behalf of the borrower all or a portion of the interest paid to the authority by the corporation under Code Section 20-3-273. To the extent that this subsection does not apply to all service cancelable loans made to a borrower pursuant to this Code section, the authority is authorized, for purposes of this subsection, to consider the loans made that are the subject of this subsection as being the earlier loans made to the borrower. (Ga. L. 1964, p. 699, §§ 1, 2; Ga. L. 1965, p. 210, §§ 1, 2; Ga. L. 1966, p. 465, § 1; Ga. L. 1971, p. 520, § 1; Ga. L. 1974, p. 461, § 1; Ga. **The 2011 amendment**, effective July 1, 2011, in paragraph (b)(3), substituted “Reserved” for “DOCTORS OF VETERINARY MEDICINE. The authority is authorized to make service cancelable educational loans to residents of Georgia who are enrolled in school in the field of doctor of veterinary medicine, including veterinary surgery, obstetrics, dentistry, and all other specialties of veterinary medicine. Loans may be made to students enrolled in a veterinary college or in a veterinary division of a university or college accredited by the American Veterinary Medical Association who are pursuing a program of study leading to the degree of doctor of veterinary medicine or its equivalent. The authority shall from time to time, by regulation, designate specialties within the veterinary science field that qualify for service cancelable loans under this paragraph. In designating the qualified specialties, the authority shall give preference to those specialties in which there are shortages of persons trained in that specialty in the State of Georgia. Loans made under this paragraph need not be limited to students attending a school located in the State of Georgia. However, any and all loans made under this paragraph shall be conditional upon the student agreeing that the loan shall be repaid by the student either:

“(A) Practicing in the approved qualified field in a geographical area in the State of Georgia approved by the authority. For service repayment, the loan shall be repaid at a rate of one year of service for each academic year of study or its equivalent for which a loan is made to the student under this paragraph; or

“(B) In cash repayment with assessed interest thereon in accordance with the

terms and conditions of a promissory note that shall be executed by the student.

“A geographical area for service repayment through services rendered shall not be approved unless the area is a rural or sparsely populated area of the state or in a community of 10,000 population or less according to the United States decennial census of 2000 or any future such census and experiencing a shortage of licensed veterinarians to meet the needs of owners or producers of farm animals used for or in connection with the production of commercial food products. If the loan is not repaid by services rendered, it must be repaid by the student in cash with interest thereon in accordance with the terms of the promissory note executed by the student”.

**Editor’s notes.** — Ga. L. 1998, p. 748, § 1, not codified by the General Assembly, provides: “The General Assembly finds that a fully-staffed, experienced, and well-organized National Guard is vital to the security and safety of the citizens of the nation and the state. A reduction in the manpower of the National Guard could result in the closing of certain military operations in this state causing severe economic hardship to certain counties and municipalities. It is imperative that the state remain competitive with other states and establish a recruitment and retention program to adequately staff the Georgia National Guard. The General Assembly declares that it is the intent of this Act that the Georgia Student Finance Authority exercise its authority to the fullest extent to facilitate the granting, processing, and renewal of service cancelable loans to eligible members of the Georgia National Guard as authorized in this Act.”

### **20-3-375. Income credited to authority administration fund; transfer of surplus to general loan fund.**

All income earned by the authority on funds held under this subpart, including earnings on educational loan trust fund assets unless otherwise provided for in the terms of such trust fund agreements, shall be credited to the authority administration fund for the uses prescribed in Code Section 20-3-318. The board of directors is authorized, in its discretion, to transfer any surplus moneys in the authority administration fund to the general loan fund account for the uses prescribed in

Code Section 20-3-373. (Code 1933, § 32-3753, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 43.)

### Subpart 3A

#### Public Interest Lawyers' Fund

#### **20-3-380. Legislative findings; purpose of subpart.**

The General Assembly finds that many attorneys graduate from law school with substantial education debt; that the debt that saddles law school graduates prohibits many from considering public interest work; that Georgia law firms, on average, pay first year associates more than twice the entry level salary for public interest work; that a need exists for public interest entities to hire competent attorneys; that the public is better served by competent and qualified attorneys working in the area of public interest; and that programs providing for education loan forgiveness to encourage law students and other attorneys to seek employment in the area of public interest would better enable public interest entities to attract and retain experienced and qualified attorneys. (Code 1981, § 20-3-380, enacted by Ga. L. 2002, p. 1115, § 1.)

**Law reviews.** — For note on the 2002 enactment of this Code section, see 19 Ga. St. U. L. Rev. 158 (2002).

If the attorney receives a lesser amount of education loan repayment assistance than the maximum amount authorized, the employment commitment shall be decreased proportionately, as determined by the authority; provided, however, that the authority may release the attorney from such obligation if it is demonstrated to the satisfaction of the authority that such attorney is unable to obtain employment in said specified capacities.

(c) In the event that the attorney breaches the conditions of the contract with the authority, all moneys distributed by the authority under the contract during the 18 months immediately preceding the month in which the breach occurs shall at once become due and payable to the authority in cash with interest at a rate to be set by the authority.

## **Subpart 4**

### **Student Incentive Grants**

### **20-3-390. Legislative findings; purpose of subpart.**

The General Assembly finds that a substantial number of qualified Georgia students are not financially able to meet the costs of obtaining

a postsecondary education due to a lack of family resources; that it would not be sound public policy to expect such students to borrow the total amount of funds needed to meet such costs and to incur thereby such substantial indebtedness; and that the United States provides matching funds to states which provide grant assistance to such students on the basis of financial need. The purpose of the General Assembly, as provided for in this subpart, is to enable the authority to participate in the federal program and to provide grant assistance to students who qualify for such assistance on the basis of individual financial need. (Code 1933, § 32-3754, enacted by Ga. L. 1980, p. 835, § 3.)

**20-3-391. State student incentive grant program authorized; eligible students and schools.**

(a) The authority is authorized to establish and administer a program to provide state student incentive grants to students enrolled at the undergraduate level who demonstrate a substantial degree of need for such financial assistance as provided for in the federal Higher Education Act of 1965 (P.L. 89-329), as amended, relative to state student incentive grant programs, including rules and regulations prescribed by the secretary pursuant thereto. The authority is authorized to use such federal funds as may become available to the authority for this purpose and state funds as may be appropriated for use by the authority for this purpose and to prescribe such rules and regulations as may be necessary for administration of the program pursuant to the federal law.

(b) Residents of this state for a period of at least 12 months immediately preceding their date of registration in a branch of the university system; a private college or university which is an approved school for purposes of Subpart 5 of this part, which provides for grants to citizens of Georgia who are students attending colleges or universities in this state which are not branches of the university system; a college or university receiving funds under Article 4 of this chapter; a state supported vocational-technical school; or an accredited or approved nonprofit hospital school of nursing located in this state shall be eligible to apply for a state student incentive grant. The authority is authorized to extend coverage and the benefits of the program to students attending other nonprofit institutions of higher education located in this state which are approved by the United States for purposes of eligibility under the federal and state student incentive grant programs but only to the extent necessary to receive federal funds available for purposes of the program. Until the amount of funds available to the authority for purposes of this program is sufficient to provide assistance to qualifying students at all undergraduate levels,

such assistance shall be limited to full-time students, the maximum student incentive grant that may be awarded to any student shall be approved by the board of directors, subject to appropriations by the General Assembly, and such grant assistance shall not be provided for study during the summer school term. No student shall be eligible to receive a state student incentive grant for a period of more than five academic years. (Ga. L. 1974, p. 1118, §§ 1, 3; Ga. L. 1977, p. 750, § 1; Code 1933, § 32-3755, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 44; Ga. L. 1982, p. 3, § 20; Ga. L. 1989, p. 879, § 1.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1989, a hyphen was deleted in the phrase “state supported” in the first sentence of subsection (b).

**U.S. Code.** — The federal Higher Education Act of 1965, referred to in subsection (a) of this Code section, is codified at 20 U.S.C. § 1001 et seq.

### **20-3-395.1. Eligibility; interest rate; repayment; maximum amount.**

(b) The interest rate for loans provided in accordance with this subpart shall be 1 percent annually except as provided by Code Section 20-3-395.3 in the case of default.

(c) The repayment period for loans provided in accordance with this subpart shall be ten years; provided, however, that, subject to the provisions of Code Section 20-3-395.3, the commission may provide by regulation for deferral of payments and forbearance of payments similar to deferral and forbearance under federal student loan programs.

Except as otherwise provided in this subsection, each applicant for a loan shall be required to apply for other educational assistance, including scholarships, grants, and state funded or Title IV loans, and to provide

information regarding such other applications and the result of such applications as a condition of applying for a loan under this subpart. Loans under this subpart are designed as funding of the last resort for students who have diligently sought scholarships, grants, and state funded or Title IV loans. Applicants are not required to apply for loans under Subpart 4B or Subpart 4C of this part as a condition of eligibility for loans under this subpart.

(e) Eligibility for a loan under this subpart shall be determined annually. (3) Calculate the total of fees other than interest paid by the student on the loan to date;

(4) Calculate the current balance owed on the loan by subtracting the principal paid by the student on the loan to date from the original amount borrowed;

(5) Add the amount of interest calculated in paragraph (1) of this subsection to the principal paid by the student to date in paragraph (2) of this subsection; this sum shall become the new total principal paid by the student on the loan; and

(6) Subtract the new principal paid calculated in paragraph (5) of this subsection from the original amount borrowed by the student in this loan to produce the new balance owed by the student on the loan. If the new principal paid calculated in paragraph (5) of this subsection equals or exceeds the original amount borrowed by the student in this loan, the new balance is zero. (Code 1981, § 20-3-405.3, enacted by Ga. L. 2008, p. 626, § 4/SB 169; Ga. L. 2009, p. 8, § 20/SB 46.)

#### **20-3-405.4. Conversion to interest free loans.**

When a student meets the requirements for conversion of one or more EPS loans to a 1 percent rate or to an interest-free loan or loans, the student may elect to waive the conversion of the EPS loan or loans for that degree and apply all or part of the student's years of completed public service to one or more EPS loans for a subsequent degree, without regard to whether such EPS loan or loans for a subsequent degree exist at the time of the student's election. In any event, each year of completed public service may be applied only to a single degree and the student is not authorized to change an election after notifying the

authority in writing of his or her election. (Code 1981, § 20-3-405.4, enacted by Ga. L. 2008, p. 626, § 4/SB 169.)

**20-3-405.5. Separate fund for loans; fees.**

(a) The authority shall establish and maintain a separate fund for loans in accordance with this subpart to which shall be credited:

- (1) State funds appropriated for use for EPS Student Loans;
- (2) Moneys received by gift, donation, or otherwise for EPS Student Loans;
- (3) Outstanding EPS Student Loans held by the authority; and
- (4) Principal and interest collected on EPS Student Loans held by the authority.

(b) Beginning with the first fiscal year following the fiscal year in which the fund has a balance of \$500,000.00 or more, for each fiscal year, the authority shall determine the amount of moneys available for loans under this subpart and shall determine which eligible applicants receive loans by a random selection process in which each eligible applicant has an equal chance of being selected for a loan.

(c) The authority shall be entitled to establish a reasonable fee for the processing and collecting of EPS Student Loans. Such fees shall be established by the authority by rule or regulation. (Code 1981, § 20-3-405.5, enacted by Ga. L. 2008, p. 626, § 4/SB 169.)

**20-3-405.6. Repayment schedule; default.**

(a) The authority shall by rule and regulation establish a repayment schedule or schedules for EPS Student Loans. Students shall be required to pay accrued interest annually on the loan or loans while attending a postsecondary institution except in cases of financial hardship. Students shall not be required to begin the repayment of the principal of such loans until the earliest occurrence of one of the following:

- (1) The student completes his or her course of study;
- (2) The student graduates from an eligible postsecondary institution;
- (3) A calendar year has passed since the student borrowed the maximum amount of EPS loans for the degree the student is seeking under subsection (b) of Code Section 20-3-405.2; or
- (4) The student has not been enrolled in an eligible postsecondary institution for two academic quarters or two academic semesters.

(b) If the student defaults on the repayment of one or more EPS loans, the interest rate for such loan or loans shall be converted to the reasonable interest rate as defined in Code Section 20-3-405.1. (Code 1981, § 20-3-405.6, enacted by Ga. L. 2008, p. 626, § 4/SB 169.)

### **20-3-405.7. Ineligibility.**

A student is ineligible for any loan described in this subpart if the student:

(1) Is not a United States citizen or a permanent resident alien who meets the definition of an eligible noncitizen under federal Title IV requirements;

(2) Has not complied with United States Selective Service System requirements for registration, if such requirements are applicable to the student;

(3) Is in default on a federal Title IV educational loan or a State of Georgia educational loan, provided that a student who is otherwise eligible and has fully repaid the defaulted loan will be eligible to obtain a loan under this subpart for future academic terms but not retroactively;

(4) Owes a refund on a federal Title IV student financial aid program or a Georgia student financial aid program, provided that a student who is otherwise eligible and has fully paid the refund owed will be eligible to obtain a loan under this subpart for future academic terms but not retroactively;

(5) Has been convicted of a felony offense involving marijuana, a controlled substance, or a dangerous drug as set out in Code Section 20-1-23 or 20-1-24 of the "Drug-free Postsecondary Education Act of 1990," provided that such ineligibility extends from the date of conviction to the completion of the next academic term;

(6) Is incarcerated; or

(7) Does not meet each qualification listed in this subpart and applicable to the student. (Code 1981, § 20-3-405.7, enacted by Ga. L. 2008, p. 626, § 4/SB 169.)

### **Subpart 4D**

### **Taxpayer Contribution to Student Loan Funds**

### **20-3-409. Taxpayer opportunity to contribute to student loan funds; contribution amounts.**

(a) Each Georgia income tax return form for taxable years beginning on or after January 1, 2008, shall contain appropriate language, to be

determined by the state revenue commissioner, offering the taxpayer the opportunity to contribute to the funds established for student loans by Code Sections 20-3-395.2, 20-3-400.4, and 20-3-405.5 by either donating all or any part of any tax refund due and by authorizing a reduction in the refund check otherwise payable, or by contributing any amount over and above any amount of tax owed by adding that amount to the taxpayer's payment. The instructions accompanying the income tax return shall include a description of the purposes for which these funds were established and the intended use of moneys received from the contributions, and shall explain that any donation will be evenly divided between the three funds. Each taxpayer required to file a state income tax return who desires to contribute to these funds may designate such contribution as provided on the appropriate income tax return form.

(b) The Department of Revenue shall determine annually the total amount so contributed, and shall transmit such amount to the authority for even division among and deposit in the funds established by Code Sections 20-3-395.2, 20-3-400.4, and 20-3-405.5. (Code 1981, § 20-3-409, enacted by Ga. L. 2008, p. 626, § 5/SB 169.)

#### Subpart 5

#### Tuition Equalization Grants at Private Colleges and Universities

#### **20-3-410. Legislative findings; purpose of subpart.**

(a) The General Assembly finds that the facilities of accredited independent colleges and universities located within the state can be used more effectively in the public interest by the grant of financial assistance to citizens who choose to attend such colleges and universities and that the provision of such assistance will reduce the costs to the taxpayers of the state below the cost of providing similar instruction to such citizens within the university system. The purpose of the General Assembly, as provided for in this subpart, is to enable the authority to provide tuition equalization grant assistance to citizens who choose to attend such accredited private colleges and universities located within the state.

(b) The General Assembly further finds that, because of their location within the state, the four-year and graduate level institutions of the University System of Georgia are not equally available to citizens in certain areas of the state. The General Assembly further finds that extension of the program of tuition equalization grants established by this subpart to include certain students attending certain out-of-state institutions will be in the public interest as an effective and efficient means of making four-year and graduate level institutions of higher

education more equally available to all citizens of the state. (Ga. L. 1971, p. 906, § 1; Code 1933, § 32-3758, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1982, p. 1699, §§ 1, 4.)

### 20-3-411. Definitions.

As used in this subpart, the term:

(B)(i) A qualified proprietary institution of higher education located in this state which is a baccalaureate degree-granting institution of higher education; which is accredited by the Southern Association of Colleges and Schools; which is not a Bible school or college (or, at the graduate level, a school or college of theology or divinity); which admits as regular students only persons who have a high school diploma, a general educational development (GED) diploma, or a degree from an accredited postsecondary institution; whose students are eligible to participate in the federal Pell Grant program; which has been reviewed and approved for operation and for receipt of tuition equalization grant funds by the Georgia Nonpublic Postsecondary Education Commission; which is domiciled and incorporated

in the State of Georgia; which has been in existence in the State of Georgia for at least ten years; and which met all of the requirements of this subparagraph by January 1, 2011; provided, however, that the criteria for approval for receipt of tuition equalization grant funds shall include but not be limited to areas of course study, quality of instruction, student placement rate, research and library sources, faculty, support staff, financial resources, physical plant facilities resources, and support and equipment resources.

(ii) Any proprietary institution that is otherwise qualified pursuant to division (i) of this subparagraph on July 1, 1995, shall be deemed to be eligible for receipt of tuition equalization grant funds subject, however, to any subsequent review of such approval pursuant to any proper regulations which may thereafter be adopted in accordance with paragraph (10) of subsection (b) of Code Section 20-3-250.5 applicable to all qualified proprietary institutions.

(iii) Any proprietary institution of higher education that is otherwise qualified pursuant to division (i) of this subparagraph on January 1, 2011, shall continue to be an approved school pursuant to this paragraph as long as it continues to meet the requirements of division (i) of this subparagraph as such existed on March 14, 2011.

(3) “Eligible student” means a person who:

(A) Is enrolled in or accepted for enrollment as a full-time undergraduate level student in an approved school or as a graduate level student if funds are specifically appropriated in appropriations Acts of the General Assembly for payment of grants to graduate level students;

(B) Is or will be a citizen of Georgia for a period of at least 12 months immediately prior to each date of registration in the approved school;

(C) Is not knowingly promoting or engaging in any activity which is determined by the approved school’s governing body to be detrimental to the school; and

Code 1933, § 32-3759, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 45; Ga. L. 1982, p. 1699, §§ 2, 5; Ga. L. 1985, p. 283, § 1; Ga. L. 1994, p. 697, § 1; Ga. L. 1995, p. 265, § 2; Ga. L. 1996, p. 6, § 20; Ga. L. 2001, p. 4, § 20; Ga. L. 2008, p. 112, § 1/SB 480; Ga. L. 2011, p. 1, § 11/HB 326.)

**The 2011 amendment,** effective March 15, 2011, in subparagraph (2)(A), inserted “which is not a four-year or graduate level institution of higher education that is, or is a part of, a college or university system that is owned and operated by a state other than Georgia;” near the beginning, and added “and” at the end; deleted former subparagraph (2)(B), which read: “A nonproprietary institution of higher education located outside the State of Georgia which is a four-year or graduate level institution of higher education that is, or is a part of, a college or university system that is owned and operated by a state other than Georgia; which is accredited by the Southern Association of Colleges and Schools; which is not a graduate level school or college of theology or divinity; and which is located within 50 road miles, by the nearest practical route of travel, of the home residence of one or more eligible students. The term ‘home residence,’ for purposes of this subpart, shall, in the case of a dependent student, mean the principal residence of the parent or legal guardian of a student; and”; redesignated former subparagraph (2)(C) as present division (2)(B)(i); in division (2)(B)(i), substituted “the Southern Association of Colleges and Schools” for “a regional accrediting agency recognized by the United States Department of Education” near the beginning, substituted “which is domiciled and incorporated in the State of Georgia; which has been in existence in the State of Georgia for at least ten years; and which met all of the requirements of this subparagraph by

January 1, 2011;” for “and which has been in existence for at least ten years;” near the middle; and added division (2)(B)(iii); substituted the present provisions of subparagraph (3)(D) for the former provisions, which read: “In the case of an approved school located outside the State of Georgia, is enrolled or accepted for enrollment therein at an academic level beyond the sophomore academic classification and whose home residence is, by the nearest practical route of travel, located within 50 road miles of the approved school and more than 50 road miles from the nearest four-year institution of the University System of Georgia.”; and deleted “, and students who are inmates in an institution administered by the Department of Corrections” following “graduate student” at the end of paragraph (4). See editor’s note for applicability.

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1995, “July 1, 1995” was substituted for “the effective date of this Act” in division (2)(C)(ii) (now division (2)(B)(ii)).

Pursuant to Code Section 28-9-5, in 2011, “as such existed on March 14, 2011” was substituted for “as such existed on the day prior to the effective date of this division” in division (2)(B)(iii).

**Editor’s notes.** — Ga. L. 2011, p. 1, § 17/HB 326, not codified by the General Assembly, provides, in part, that the 2011 amendment shall be applicable to postsecondary students beginning in the fall of 2011.

## OPINIONS OF THE ATTORNEY GENERAL

“Approved school” for purposes of tuition equalization grants must have been in existence in Georgia for ten years prior to being eligible to receive grant funds in addition to satisfying other statutory cri-

teria; eligibility also depends upon a school being a baccalaureate degree granting institution on or after July 1, 1995. 1995 Op. Att’y Gen. No. 95-34.

**20-3-412. Entitlement to grants as specified in the appropriations Acts; restrictions.**

Each eligible student is entitled to a tuition equalization grant each academic year, as specified in appropriations Acts of the General Assembly. No grants shall be made to graduate students unless specifically authorized in appropriations Acts of the General Assembly. It is the intent of the General Assembly and the purpose of this program to provide tuition equalization grants to all Georgia students attending approved schools at all levels and throughout the entire calendar year whenever sufficient funds are available to the state. In no event shall an eligible student receive a tuition equalization grant for more than 127 semester hours or 190 quarter hours of his or her undergraduate program. (Ga. L. 1971, p. 906, § 2; Ga. L. 1974, p. 487, § 1; Ga. L. 1975, p. 1320, § 1; Ga. L. 1976, p. 1717, § 1; Code 1933, § 32-3760, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 46; Ga. L. 1981, p. 1377, § 1; Ga. L. 1985, p. 550, § 1; Ga. L. 2003, p. 904, § 1.)

**20-3-413. Application for and payment of grants; certification of eligibility; refunds if students fail to enroll.**

Each eligible student wishing to receive payment of the grant provided for in this subpart shall submit to the school an application for the grant payment at the time and in accordance with procedures prescribed by the authority. The authority is authorized to define such terms and prescribe such rules, regulations, and procedures as may be reasonable and necessary to carry out the purposes of this subpart. The authority shall not approve payment of any grant until it has received from an appropriate officer of the approved school a certification that the student applying for the grant is an eligible student. Upon timely receipt of such certification, in proper form, the authority is authorized to pay the grant to the approved school on behalf of and to the credit of the student. In the event a student on whose behalf a grant is paid shall not enroll as a full-time student for the school term for which the grant is paid, the school shall make a refund to the authority in accordance with regulations of the authority. (Ga. L. 1971, p. 906, §§ 4, 5; Ga. L. 1975, p. 1161, § 3; Code 1933, § 32-3761, enacted by Ga. L. 1980, p. 835, § 3.)

**20-3-414. Pro rata reduction of grants when funds are insufficient.**

In the event funds available to the authority are not sufficient to enable the authority to pay on behalf of eligible students the full grant prescribed by the General Assembly, grants payable for the remaining school terms shall be reduced by the authority on a pro rata basis. (Ga.

L. 1971, p. 906, § 7; Code 1933, § 32-3762, enacted by Ga. L. 1980, p. 835, § 3; Ga. L. 1981, p. 735, § 47.)

**20-3-415. Audits of schools; refund of grants for ineligible students.**

Every approved school shall be subject to examination by the state auditor for the sole purpose of determining whether such school has properly certified eligibility and enrollment of students and credited grants paid on behalf of such students. However, nothing in this subpart shall be construed to interfere with the authority of such school to determine admissibility of students or to control its own curriculum, philosophy, purpose, or administration. In the event it is determined that a school knowingly or through error certified an ineligible student to be eligible for a grant under this subpart, the amount of the grant paid to the school pursuant to such certification shall be refunded by the school to the authority. (Ga. L. 1971, p. 906, § 6; Code 1933, § 32-3763, enacted by Ga. L. 1980, p. 835, § 3.)

**20-3-416. Penalty for furnishing or accepting false statement as to eligibility.**

Any person who knowingly makes or furnishes any false statement or misrepresentation, or who accepts such statement or misrepresentation knowing it to be false, for the purpose of enabling an ineligible student to obtain wrongfully a grant under this subpart shall be guilty of a misdemeanor. (Ga. L. 1971, p. 906, § 8; Code 1933, § 32-3764, enacted by Ga. L. 1980, p. 835, § 3.)

(b) It shall be the duty of the selection committee to select, from the six nominees from each congressional district submitted to the committee pursuant to Code Section 20-3-422, three persons from each congressional district to receive a scholarship under this subpart. In the event a congressional district does not have three qualified candidates, the committee may select a candidate or candidates at large from

alternate nominees among the original candidates without regard to the congressional district of residence. Upon selecting the recipients of scholarships, the committee shall:

(1) Notify each recipient of the scholarship;

(2) Notify each member of the legislative delegation from each congressional district of the names of the recipients of the scholarships from that congressional district; and

(3) Notify the authority of the names and addresses of the recipients of the scholarships.

(c) The selection committee shall have the following additional duties:

(1) To publish in print or electronically and maintain standards of academic excellence and conduct necessary for continued eligibility for a scholarship under this subpart; and

L. 2001, p. 4, § 20; Ga. L. 2010, p. 838, § 10/SB 388.)

#### **20-3-424. Amount of scholarship awards; duration of awards.**

Scholarship awards made under this subpart shall cover all costs for room, board, matriculation, fees, uniform deposits, and an allowance for books and supplies. Scholarship assistance may be provided to a recipient under this article for a maximum period of 12 academic quarters. (Ga. L. 1980, p. 1292, § 7; Code 1933, § 32-3787, enacted by Ga. L. 1981, p. 735, § 51.)

#### **20-3-425. Failure of scholarship recipient to meet service obligations.**

(a) If the recipient of a scholarship under this subpart fails to honor his obligation to serve in the Army National Guard or the United States Army as provided in paragraph (6) of subsection (b) of Code Section 20-3-421, such recipient shall, at the option of the recipient, either:

(b) Subsection (a) of this Code section shall not apply to any person who, for bona fide reasons of health as jointly verified by the authority and the selection committee, is unable to honor the obligation provided for in paragraph (6) of subsection (b) of Code Section 20-3-421. (Ga. L. 1980, p. 1292, § 8; Code 1933, § 32-3788, enacted by Ga. L. 1981, p. 735, § 51; Ga. L. 1983, p. 778, § 4.)

**20-3-426. Effect of failure to meet standards and requirements for continued eligibility for scholarship; filling of vacancies.**

(a) If at any time a recipient of a scholarship fails to meet the standards and requirements for continued eligibility as provided by the selection committee pursuant to subsection (c) of Code Section 20-3-423, such recipient shall thereby lose eligibility for the scholarship and shall be obligated to repay the same as provided in Code Section 20-3-425. The selection committee shall promptly notify the authority when a recipient loses eligibility.

(b) In the event a scholarship recipient fails to meet the standards for retention or otherwise surrenders the scholarship, the committee may select a candidate to fill the vacancy for the remaining period of the scholarship. The nominees shall be required to meet all criteria established for the four-year scholarship. Such recipients of scholarships shall incur the same obligations as a four-year scholarship recipient; provided, however, that such recipients of scholarships of less than four years shall only be required to serve the number of years in the Georgia Army National Guard or number of years of active duty service in the United States Army or number of years in a combination of service in the active army and the Georgia Army National Guard which corresponds to the period or number of years of such scholarship. **20-3-470. Regents' opportunity assistance program for graduate and professional degree students authorized.**

The authority is authorized to establish and administer a program of scholarships, grants, or cancelable loans to economically disadvantaged students who are residents of Georgia enrolled in a graduate or professional degree program in a branch of the university system. The eligibility of students and the criteria for the award of such financial aid shall be determined by the board of regents. Such assistance may be awarded to the extent that funds are provided therefor in the annual appropriations Act of the General Assembly. In the event such assistance shall be provided in the form of cancelable loans, such loans shall be guaranteed by the corporation. As used in this Code section, the term "resident of Georgia" shall mean any person classified by the board of regents as a resident of Georgia for tuition and matriculation fee purposes. (Ga. L. 1978, p. 1687, § 1; Code 1933, § 32-3781, enacted by Ga. L. 1980, p. 835, § 3.)

**Subpart 9****Loans for Attendance at Colleges of Osteopathic Medicine****20-3-475. Legislative intent.**

The General Assembly finds that at times areas of the state have an inadequate supply of persons who are licensed to practice primary care medicine. It is the purpose of this subpart to increase the number of Georgia resident students who enroll in out-of-state colleges of osteopathic medicine in the hope that a substantial portion of that number will, following graduation, return to Georgia and practice primary care medicine in an approved medically underserved area of the state or approved hospital or facility and thereby provide an increased level of primary medical care available to the people of this state. (Code 1981, § 20-3-475, enacted by Ga. L. 1985, p. 450, § 1.)

**20-3-476. Authorization and administration of loan program for attendance at colleges of osteopathic medicine.**

(a) To the extent provided for by the General Assembly in annual appropriations Acts, the authority is authorized under this subpart to make service cancelable education loans to residents of Georgia who are enrolled or accepted for enrollment in colleges of osteopathic medicine located within the United States, provided the college is accredited or provisionally accredited by the Bureau of Professional Education of the American Osteopathic Association and that graduates from the program of medical education in the college are eligible to apply for licensure by the Georgia Composite Medical Board.

(b) The authority is authorized to enter into agreements with such colleges as may be appropriate to accomplish the purposes of this subpart, including, without limitation, agreements whereby a college will hold open one or more admission places for qualified Georgia residents who may be selected to receive a cancelable loan under this subpart.

(c) The osteopathic medical loan program shall be administered by the authority in accordance with this subpart and reasonable rules, regulations, and procedures established by the authority. Without limiting the generality of the foregoing, the authority is authorized to establish applicant eligibility and priority requirements, require a personal interview with applicants, determine individual loan amounts, and determine the apparent ability, character, and qualifications of applicants and their fitness to become recipients of a loan, including consideration of their home area in Georgia and the likelihood, if determinable, that they will return and practice their profes-

sion in an area or at a site in Georgia that will likely enable them to repay their loans in services. The amount of loan made to an applicant shall not exceed the applicant's need for financial assistance as determined by the authority. The authority is authorized to give preference among qualified applicants to those who appear to be least able to pay costs associated with attendance at college.

(d) The principal amount of loans that may be made to a full-time student pursuant to provisions of this subpart shall not exceed \$10,000.00 per academic year of study. A student may receive loan assistance pursuant to this subpart for not more than four academic years of study. Loan proceeds shall be disbursed at such times and in such manner as prescribed by the authority and may be disbursed, in full or in part, to the college in which the student borrower is enrolled to the credit of and for and on behalf of the student.

(e) Loans made pursuant to this subpart shall be conditioned upon the recipients' agreements in writing to repay the loans in services to the public through the practice of primary care medicine in an area of the state that is approved by the authority for purposes of this subpart as being a medically underserved area or in a hospital or facility operated by or under the jurisdiction of the Department of Community Health or the Department of Corrections. Loans shall bear interest at the rate of 12 percent per annum from each date of disbursement of loan proceeds by the authority. For each year of practice by a loan recipient of primary care medicine in an authority approved area, hospital, or facility, the loan recipient shall be given credit for repayment of loan amounts received by the recipient under this subpart for one academic year of study or its equivalent as a full-time student. To the extent that loans made under this subpart are repaid in approved services rendered, all interest due the authority on such loans shall likewise be canceled. Loans made under this subpart that are not repaid in approved services rendered shall, together with interest thereon, be repaid to the authority in cash at times prescribed by the authority. Each applicant shall, before receiving the proceeds of a loan, enter into a written agreement with the authority, execute a promissory note, or sign such other documents as may be required by the authority, the terms and conditions of which shall be in accordance with and designed to accomplish the purposes of this subpart.

(f) If a loan applicant under this subpart is eligible to receive a guaranteed education loan in accordance with the provisions of Part 2 of this article and the federal act, the authority is authorized in its discretion to lend all or a portion of the loan amount approved for the applicant under this subpart to the applicant as a guaranteed educational loan pursuant to Part 2 of this article and the federal act. In such cases, the provisions of Part 2 of this article and the federal act shall

govern all terms and conditions of the loan; provided, however, that the right of the recipient to repay such loan through services rendered to the state as provided for in this subpart shall not be diminished.

(g) The making of service cancelable loans to osteopathic medical students under this subpart shall not be construed to contravene provisions of paragraph (1) of subsection (b) of Code Section 20-3-374.

(h) Funds made available to the authority for purposes of this subpart but not used for such purposes during any fiscal year and loans previously made by the authority as to which the borrower no longer has a right to repay through services rendered shall become a part of the general loan fund of the authority provided for in Code Section 20-3-373. (Code 1981, § 20-3-475, enacted by Ga. L. 1982, p. 1860, § 1; Ga. L. 1983, p. 3, § 16; Code 1981, § 20-3-476, enacted by Ga. L. 1985, p. 450, § 1; Ga. L. 2008, p. 12, § 2-2/SB 433; Ga. L. 2009, p. 859, § 2/HB 509.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1985, “Department of Corrections” was substituted for “Department of Offender Rehabilitation” in the first sentence of subsection (e).

**Administrative rules and regulations.** — State Medical Education Board of Georgia, Official Compilation of the Rules and Regulations of the State of Georgia, Title 355.

### 20-3-510. “Board” defined.

As used in this part, the term “board” means the Georgia Board for Physician Workforce created by Code Section 49-10-1. (Code 1981, § 20-3-510, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, rewrote this Code section, which related to the appointment and terms of members, meetings, quorum, and compensation and allowance of the State Medical Education Board.

**20-3-511. Transfer of powers, rights, and duties to the Georgia Board for Physician Workforce.**

(a) In addition to those powers, rights, and duties provided by Chapter 10 of Title 49, Chapter 34 of Title 31, and elsewhere by law, the board shall succeed to the powers, rights, and duties of the former State Medical Education Board as provided by this part.

(b) The rights and obligations of parties to contracts, leases, agreements, and other transactions entered into before July 1, 2011, by the former State Medical Education Board shall continue to exist; and none of such rights and obligations shall be impaired or diminished by reason of the transfer of the functions to the board. In all such instances, the board shall be substituted for the former State Medical Education Board, and the board shall succeed to the rights and obligations under such contracts, leases, agreements, and other transactions.

(c) The board shall succeed to all rules, regulations, policies, procedures, and administrative orders of the State Medical Education Board that were in effect on June 30, 2011, or scheduled to go into effect on or after July 1, 2011, and which relate to the functions transferred to the board pursuant to this part. Such rules, regulations, policies, procedures, and administrative orders shall remain in effect unless and until amended, repealed, superseded, or nullified by the board by proper authority or as otherwise provided by law. (Code 1981, § 20-3-511, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 1988, p. 545, § 1; Ga. L. 2000, p. 15, § 1; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, rewrote this Code section, which read: “With the concurrence of the State Medical Education Board, the Department of Community Health shall employ and provide for the compensation of such administrative staff, including but not limited to an executive director, as is necessary to carry out the functions of the State Medical Education Board.”

**20-3-512. Powers as to medical student loans and scholarships.**

(a) It shall be the duty of the board to receive and pass upon, allow or disallow all applications for loans made to or scholarships given students who are bona fide citizens and residents of the State of Georgia and who desire to become doctors of medicine and who are acceptable for enrollment in an accredited four-year medical school in the United States which has received accreditation or provisional accreditation by the Liaison Committee on Medical Education of the American Medical Association or the Bureau of Professional Education of the American Osteopathic Association for a program in medical education designed to

qualify the graduate for licensure by the Georgia Composite Medical Board. The purpose of such loans shall be to enable such applicants to obtain a standard four-year medical education which will qualify them to become licensed to practice medicine in the State of Georgia. It shall be the duty of the board to make a careful and full investigation of the ability, character, and qualifications of each applicant and determine the applicant's fitness to become the recipient of such loan or scholarship, and for that purpose the board may propound such examination to each applicant which it deems proper. The board may also prescribe such rules and regulations as it deems necessary and proper to carry out the purpose and intention of this part. The investigation of the applicant shall include an investigation of the ability of the applicant, and of the parents of such applicant, to pay his or her own tuition at such medical school, and the board in granting such loans and scholarships shall give preference to qualified applicants who, and whose parents, are unable to pay the applicant's tuition at such a medical school.

(b) The board shall have authority to grant to each applicant deemed by the board to be qualified to receive the same a loan or scholarship on a one-year renewable basis for the purpose of acquiring a standard four-year medical education, upon such terms and conditions as in the judgment of the board may be necessary or desirable. The board is authorized to consider, among other criteria, the home area of the student and the likelihood, if determinable, that the student will practice medicine in an area of this state which may entitle the student to repay the loan through services rendered as provided in this part. (Code 1981, § 20-3-512, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 2009, p. 859, § 2/HB 509; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, substituted "board" for "State Medical Education Board" throughout this Code section; and substituted "The board" for "The said State Medical Education Board" in the fourth sentence of subsection (a).

### **20-3-513. Determination of amount by board; terms and conditions; repayment in services.**

Students whose applications are approved shall receive a loan or scholarship in an amount to be determined by the board to defray the tuition and other expenses of the applicant in an accredited four-year medical school in the United States which has received accreditation or provisional accreditation by the Liaison Committee on Medical Education of the American Medical Association or the Bureau of Professional Education of the American Osteopathic Association for a program in medical education designed to qualify the graduate for licensure by the Georgia Composite Medical Board. The loans and scholarships shall be

paid in such manner as the Georgia Board for Physician Workforce shall determine and may be prorated so as to pay to the medical college or school to which any applicant is admitted such funds as are required by that college or school with the balance being paid directly to the applicant; all of which shall be under such terms and conditions as may be provided under rules and regulations of the board. The loans or scholarships to be granted to each applicant shall be based upon the condition that the full amount of the loans or scholarships shall be repaid to the State of Georgia in services to be rendered by the applicant by practicing his or her profession in a board approved rural county in Georgia of 35,000 population or less according to the United States decennial census of 1990 or any future such census or at any hospital or facility operated by or under the jurisdiction of the Department of Community Health, the Department of Behavioral Health and Developmental Disabilities, the Department of Corrections, or the Department of Juvenile Justice. For each year of practicing his or her profession in such board approved location, the applicant shall receive credit for the amount of the scholarship received during any one year in medical school, with the interest due on such amount. (Code 1981, § 20-3-513, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 1985, p. 283, § 1; Ga. L. 1985, p. 1122, § 1; Ga. L. 1996, p. 265, § 1; Ga. L. 1997, p. 1453, § 1; Ga. L. 1999, p. 402, § 2; Ga. L. 2008, p. 12, § 2-3/SB 433; Ga. L. 2009, p. 859, § 2/HB 509; Ga. L. 2010, p. 286, § 17/SB 244; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2010 amendment**, effective July 1, 2010, inserted “or the Department of Behavioral Health and Developmental Disabilities” in the next to the last sentence.

**The 2011 amendment**, effective July 1, 2011, substituted “board” for “State Medical Education Board” throughout this Code section; in the second sentence, substituted “Georgia Board for Physician Workforce” for “State Medical Education Board” near the beginning; and, in the next to last sentence, substituted “Depart-

ment of Community Health, the Department of Behavioral Health and Developmental Disabilities, the Department of Corrections, or the Department of Juvenile Justice” for “Department of Community Health or the Department of Behavioral Health and Developmental Disabilities or at any facility operated by or under the jurisdiction of the Department of Corrections or at any facility operated by or under the jurisdiction of the Department of Juvenile Justice”.

## **20-3-514. Contract provisions for loan or scholarship.**

(a) Each applicant before being granted a loan or scholarship shall enter into a contract with the State of Georgia agreeing to the terms and conditions upon which the loan or scholarship is granted, including such terms and provisions as will carry out the full purpose and intent of this part. The form of such contract shall be prepared and approved by the Attorney General, and each contract shall be signed by the chairperson of the board, countersigned by the executive director of the board, and shall be signed by the applicant. For the purposes of this

part the disabilities of minority of all applicants granted loans or scholarships pursuant to this part are removed, and the said applicants are declared to be of full lawful age for the purpose of entering into the contract provided for in this Code section; and such contract so executed by an applicant is declared to be a valid and binding contract the same as though the said applicant were of the full age of majority. The board is vested with full and complete authority to bring an action in its own name against any applicant for any balance due the board on any such contract.

(b) An applicant who has entered into a loan or scholarship contract with the board and who:

(1) Is dismissed for either academic or disciplinary reasons from the college or school of medicine he or she is attending; or

(2) Voluntarily terminates his or her training and education in that institution for any reason prior to completion of training

shall be immediately liable to the board for all sums advanced with interest at the minimum rate of 12 percent per annum from the date of each payment by the board and compounded annually to the date the scholarship or loan is paid in full. The board is authorized to increase annually said rate of interest due on loans granted to new recipients; provided, however, that the increased rate of interest shall not exceed by more than 2 percent the prime rate published by the Board of Governors of the Federal Reserve System and in effect at the time of the increase.

(c) An applicant who has entered into a loan or scholarship contract with the board and who breaches that contract by either failing to begin or failing to complete his or her service obligation under such loan or scholarship contract shall be immediately liable to the board for three times the total uncredited amount of all such scholarship or loan payments paid to the applicant, such uncredited sums to be prorated on a monthly basis respecting the applicant's actual service and total service obligation. The board may consent or agree to a lesser measure of damages for compelling reasons.

(d) The board shall have the authority to cancel the loan or scholarship contract of any applicant at any time for any cause deemed sufficient by the board, provided that such authority may not be arbitrarily or unreasonably exercised. Upon such cancellation by the board, the total uncredited amount of the scholarship paid to the applicant shall at once become due and payable to the board in cash with interest at the minimum rate of 12 percent per annum from the date of each payment by the board and compounded annually to the date the scholarship or loan is paid in full. The board is authorized to increase annually such rate of interest, subject to the limitations set

forth in subsection (b) of this Code section. (Code 1981, § 20-3-514, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 1985, p. 1122, § 2; Ga. L. 1999, p. 402, § 3; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, substituted “board” for “State Medical Education Board” throughout; in paragraph (b)(2) and in the first sentence of subsection (c), inserted “or her”; in subsection (a), in the first sentence, sub-

stituted “including” for “which contract shall include” in the first sentence, substituted “chairperson” for “chairman” in the second sentence, and added the semicolon in the third sentence; and inserted “or she” in paragraph (b)(1).

### JUDICIAL DECISIONS

**Treble damages mandatory.** — Trial court’s failure to award treble damages, upon finding that a student breached a scholarship contract with the State Medical Education Board by failing to fulfill the service obligation, was reversible error as the court was required under both the terms of the agreement and O.C.G.A. § 20-3-514(c) to award treble damages to the board. *State Med. Educ. Bd. v. Calabro*, 282 Ga. App. 893, 640 S.E.2d 580 (2006).

**Breach of contract.** — Treble damages arising from a student’s breach of a contract contained within a scholarship awarded by the State Medical Education Board were properly awarded as called for under O.C.G.A. § 20-3-514(c) and authorized by the contract; moreover, the fact that the board did not seek damages in a lesser amount for breach of the contract was not an abuse of the board’s discretion. *Calabro v. State Med. Educ. Bd.*, 283 Ga. App. 113, 640 S.E.2d 581 (2006).

### **20-3-515. Power of board as to arranging payment of tuition and fees for students granted loans or scholarships.**

It shall be the duty of the board to make inquiry of such four-year medical schools as it deems proper and make arrangements, within the limitations as to cost as provided for in Code Section 20-3-513, for the payment of tuition or matriculation fees of enrolled students granted loans or scholarships by the board. (Code 1981, § 20-3-515, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, twice substituted “board” for “State Medical Education Board”.

### **20-3-516. Funds for loans or scholarships.**

The funds necessary for the loans or scholarships provided for by this part and to administer the terms of this part shall come from funds made available to the board from appropriations to the Department of Community Health for medical scholarships or other purposes. (Code 1981, § 20-3-516, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 1999, p. 296, § 2; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, in this Code section, substituted “board” for “State Medical Education Board” in the middle of the first sentence and deleted the last sentence, which read: “The State Medical Education Board shall

be assigned to the Department of Community Health for administrative purposes only, except that such department shall prepare and submit the budget for that board in concurrence with that board.”

### 20-3-517. Biennial report of board to General Assembly.

The board shall make a biennial report to the General Assembly of its activities, loans or scholarships granted, names of persons to whom granted and the institutions attended by those receiving the same, the location of the applicants who have received their education and become licensed to practice medicine within this state, and where they are practicing, and shall make a full report of all its expenditures for loans or scholarships and expenses incurred pursuant to this part. (Code 1981, § 20-3-517, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 1984, p. 22, § 20; Ga. L. 2011, p. 459, § 1/HB 509.)

**The 2011 amendment**, effective July 1, 2011, substituted “board” for “State Medical Education Board” near the beginning.

### 20-3-518. Legislative purpose.

It is the purpose and intent of this part to bring about an adequate supply of persons licensed to practice medicine in the more sparsely populated areas of the State of Georgia by increasing the number of medical students from Georgia in the various medical schools and inducing a sufficient number of the graduates from medical schools to return to Georgia and practice their profession, thus affording adequate medical care to the people of Georgia. (Code 1981, § 20-3-518, enacted by Ga. L. 1983, p. 951, § 1; Ga. L. 2011, p. 459, § 1/HB 509.)

**Editor’s notes.** — Ga. L. 2011, p. 459, § 1/HB 509, effective July 1, 2011, reenacted this Code section without change.

(a) The trust, on behalf of itself and the state, may contract with a purchaser for the advance payment of tuition by the purchaser for a qualified beneficiary to attend any of the state institutions of higher education to which the qualified beneficiary is admitted, without further tuition cost to the qualified beneficiary. In addition, an advance tuition payment contract shall set forth all of the following:

(1) The amount of the payment or payments required from the purchaser on behalf of the qualified beneficiary;

(8) The assumption of a contractual obligation by the trust to the qualified beneficiary on its own behalf and on behalf of the state to provide for credit hours of higher education, not to exceed credit hours required for the granting of a baccalaureate degree, at any state institution of higher education to which the qualified beneficiary is admitted. The advance tuition payment contract shall provide for the credit hours of higher education that a qualified beneficiary may receive under the contract if the qualified beneficiary is not entitled to in-state tuition rates;

(9) The period of time from the beginning to the end of which the qualified beneficiary may receive the benefits under the contract;

(10) All other rights and obligations of the purchaser and the trust; and

(11) Other terms, conditions, and provisions as the trust considers in its sole discretion to be necessary or appropriate.

(b) The form of any advance tuition payment contract to be entered into by the trust shall first be approved by the Office of Planning and Budget.

(c) The trust shall make any arrangements that are necessary or appropriate with the board of regents or state institutions of higher education in order to fulfill its obligations under advance tuition payment contracts, which arrangements may include, but need not be limited to, the payment by the trust of the then actual in-state tuition cost on behalf of a qualified beneficiary to the state institution of higher education.

(d) An advance tuition payment contract shall provide that the trust provide for the qualified beneficiary to attend a community or junior college in this state before entering a state institution of higher education if the beneficiary so chooses and that the contract may be terminated pursuant to Code Section 20-3-607 after completing the requirements for a degree at the community or junior college in this state or before entering a state institution of higher education.

(e) An advance tuition payment contract may provide that, if after a number of years specified in the contract the contract has not been terminated or the qualified beneficiary's rights under the contract have not been exercised, the trust shall retain the amounts otherwise payable and the rights of the qualified beneficiary, the purchaser, or the agent of either shall be considered terminated. (Code 1981, § 20-3-605, enacted by Ga. L. 1990, p. 1448, § 1.)

**20-3-606. Types of advance tuition payment contracts; alternative provisions.**

(a) At a minimum, the trust shall offer contracts of the two types set forth in paragraphs (1) and (2) of this subsection, to be known as Plan A and Plan B, respectively.

(1) Under Plan A:

(A) A payment or series of installment payments of not less than \$50.00 per month shall be required from the purchaser on behalf of a qualified beneficiary.

(B) If an advance tuition payment contract is terminated before a qualified beneficiary earns a high school diploma or reaches the age of majority, or pursuant to paragraph (4) of subsection (a) of Code Section 20-3-607, the trust shall refund the face amount of the payment or payments in accordance with the terms of the contract, less any administrative fee specified in the contract, but shall not refund any investment income attributable to the payments.

(C) Except as provided in subparagraph (D) of this paragraph, the trust shall provide for the qualified beneficiary to attend a state institution of higher education at which the qualified beneficiary attends for the number of credit hours required by the institution for the awarding of a baccalaureate degree, without further tuition cost to the qualified beneficiary, except as provided in subsection (a) of Code Section 20-3-605 for a qualified beneficiary who is not entitled to in-state tuition rates.

(D) As an alternative to subparagraph (C) of this paragraph, the trust shall provide for the qualified beneficiary to attend a state institution of higher education at which the qualified beneficiary attends for a fixed number of credit hours, as permitted by the trust, less than the total number of credit hours required by the institution for the awarding of a baccalaureate degree, without further tuition cost to the qualified beneficiary for that fixed number of credit hours, except as provided in subsection (a) of Code Section 20-3-605 for a qualified beneficiary who is not entitled to in-state tuition rates.

(2) Under Plan B:

(A) A payment or series of installment payments of not less than \$50.00 per month shall be required on behalf of a qualified beneficiary.

(B) If an advance tuition payment contract is terminated before a qualified beneficiary earns a high school diploma or reaches the age of majority, or pursuant to paragraph (4) of subsection (a) of

Code Section 20-3-607, the trust shall refund the face amount of the payment or payments in accordance with the terms of the contract, less any administrative fee specified in the contract, together with all or a specified portion of accrued investment income attributable to the payment or payments as may be agreed to in the contract.

(C) Except as provided in subparagraph (D) of this paragraph, the trust shall provide for the qualified beneficiary to attend a state institution of higher education at which the qualified beneficiary attends for the number of credit hours required by the institution for the awarding of a baccalaureate degree, without further tuition cost to the qualified beneficiary, except as provided in subsection (a) of Code Section 20-3-605 for a qualified beneficiary who is not entitled to in-state tuition rates.

(D) As an alternative to subparagraph (C) of this paragraph, the trust shall provide for the qualified beneficiary to attend a state institution of higher education at which the qualified beneficiary attends for a fixed number of credit hours, as permitted by the trust, less than the total number of credit hours required by the institution for the awarding of a baccalaureate degree, without further tuition cost to the qualified beneficiary for that fixed number of credit hours, except as provided in subsection (a) of Code Section 20-3-605 for a qualified beneficiary who is not entitled to in-state tuition rates.

(b) Contracts required to be offered by this Code section may require that payment or payments from a purchaser, on behalf of a qualified beneficiary who may attend a state institution of higher education in less than four years after the date the contract is entered into by the purchaser, be based upon attendance at a certain state institution of higher education or at that state institution of higher education with the highest prevailing tuition cost for the number of credit hours covered by the contract.

(c) Contracts required to be offered by this Code section shall be offered with two alternatives. One alternative shall offer advance tuition payment contracts that provide the credit hours of higher education necessary for the granting of a baccalaureate degree at any of the state institutions of higher education. The second alternative shall provide that the number of credit hours of higher education a qualified beneficiary may receive under the contract will be reduced to a percentage of the credit hours required for the granting of a baccalaureate degree at a state institution of higher education, as specified in the contract, if the qualified beneficiary enrolls in a state institution of higher education imposing at the time the qualified beneficiary enrolls an annual tuition rate that is greater than 105 percent of the weighted average annual tuition rate of all state institutions of higher education.

This subsection shall not preclude a state institution of higher education at which a qualified beneficiary is entitled to receive less than the minimum number of credit hours required for the granting of a baccalaureate degree from providing that qualified beneficiary, without further tuition charges, the additional credit hours necessary to receive a baccalaureate degree.

(d) If a beneficiary of an advance tuition payment contract with either an alternative one or alternative two designation, as described in subsection (c) of this Code section, attends a community or junior college for two years at the in-state tuition rate, that beneficiary then may attend any state institution of higher education at no additional tuition cost and receive the number of credit hours necessary for the awarding of a baccalaureate degree. (Code 1981, § 20-3-606, enacted by Ga. L. 1990, p. 1448, § 1.)

#### **20-3-607. Termination of advance tuition payment contracts; refunds.**

(a) An advance tuition payment contract shall authorize a termination of the contract when any one of the following occurs:

(1) The qualified beneficiary dies;

(2) The qualified beneficiary is not admitted to a state institution of higher education after making proper application;

(3) The qualified beneficiary certifies to the trust that he or she has decided to attend and has been accepted by a Georgia independent, degree-granting institution of postsecondary education recognized by the board of regents or, after he or she has a high school diploma or has reached the age of majority, he or she has decided not to attend a state institution of higher education and requests, in writing, before July 15 of the year in which the qualified beneficiary desires to terminate the contract, that the advance tuition payment contract be terminated; or

(4) Other circumstances, determined by the trust and set forth in the advance tuition payment contract, occur.

(b) Except as provided in subparagraphs (a)(1)(B) and (a)(2)(B) of Code Section 20-3-606, an advance tuition payment contract shall provide for a refund pursuant to this Code section to a person to whom the refund is payable under the contract upon termination of the contract. If the qualified beneficiary has a high school diploma or has reached the age of majority, and attends an institution of higher education, the amount of a refund, except as provided in subsection (d) of this Code section, shall be the lesser of the average tuition cost of all state institutions of higher education on the date of termination of the

contract, or the face amount of the payment or payments and any accrued investment income attributable to the payment or payments, if he or she is covered by alternative one, as described in subsection (c) of Code Section 20-3-606, or the lowest tuition cost of all state institutions of higher education on the date of termination of the contract if he or she is covered by alternative two or does not attend an institution of higher education. The amount of a refund shall be reduced by an appropriate percentage if the purchaser entered into an advance tuition payment contract that provided for a fixed number of credit hours less than the total number of credit hours required by a state institution of higher education for the awarding of a baccalaureate degree, by the amount transferred to a community or junior college on behalf of a qualified beneficiary when the contract is terminated as provided in subsection (d) of Code Section 20-3-605, and by the amount transferred to a state institution of higher education on behalf of a qualified beneficiary. Termination of a contract and the right to receive a refund shall not be authorized under the contract if the qualified beneficiary has completed more than one-half of the credit hours required by the state institution of higher education for the awarding of a baccalaureate degree. However, this provision shall not affect the termination and refund rights of a graduate of a community or junior college. Pursuant to this subsection and except as provided by subsection (c) of this Code section, the trust shall make refund payments in equal installments over four years and not later than August 15 of the year due.

(c) An advance tuition payment contract shall authorize a person, who is entitled under the advance tuition payment contract to terminate the contract, to direct payment of the refund to an independent degree-granting college or university in this state or to a community or junior college located in this state. If directed to make payments pursuant to this subsection, the trust shall transfer to the designated institution an amount equal to the tuition due for the qualified beneficiary, but the trust shall not transfer a cumulative amount greater than the refund to which the person is entitled. If the refund exceeds the total amount of transfers directed to the designated institution, the excess shall be returned to the person to whom the refund is otherwise payable.

(d) Notwithstanding any other provision of this article, the amount of a refund paid upon termination of the advance tuition payment contract by a person who directs the trust pursuant to subsection (c) of this Code section to transfer the refund to an independent degree-granting college or university located in this state shall not be less than the prevailing weighted average tuition cost of state institutions of higher education for the number of credit hours covered by the contract on the date of termination. In calculating the amount of a refund for an advance payment contract containing the restrictions

provided by subsection (c) of Code Section 20-3-606, the prevailing weighted average tuition cost shall be based upon only those state institutions of higher education at which the qualified beneficiary could have received sufficient credit hours for a baccalaureate degree. (Code 1981, § 20-3-607, enacted by Ga. L. 1990, p. 1448, § 1.)

**20-3-608. Advance tuition payment fund; expenditure of trust assets.**

(a) There is created under the jurisdiction and control of the board and within the trust an advance tuition payment fund. Payments received by the trust from purchasers on behalf of qualified beneficiaries or from any other source, public or private, shall be placed in the fund. The fund may be divided into separate accounts.

(b) Assets of the trust, including the fund, shall not be considered state moneys or revenues of the state and shall not be governed by Article III, Section IX or Article VII, Section III of the Constitution.

(c) Unless otherwise provided by resolution of the board, assets of the trust shall be expended in the following order of priority:

(1) To make payments to state institutions of higher education on behalf of qualified beneficiaries;

(2) To make refunds upon termination of an advance tuition payment contract; and

(3) To pay the costs of organization, administration, and operation of the trust and the fund. (Code 1981, § 20-3-608, enacted by Ga. L. 1990, p. 1448, § 1.)

**20-3-609. Public meetings; writings and performance of official duties.**

(a) The business which the board may perform shall be conducted at a public meeting of the board held in compliance with Chapter 14 of Title 50. Public notice of the time, date, and place of the meeting shall be given in the manner required by subsection (e) of Code Section 50-14-1.

(b) A writing prepared, owned, used, in the possession of, or retained by the board in the performance of an official function shall be made available to the public if required by Article 4 of Chapter 18 of Title 50. (Code 1981, § 20-3-609, enacted by Ga. L. 1990, p. 1448, § 1; Ga. L. 2001, p. 873, § 8; Ga. L. 2002, p. 415, § 20.)

**20-3-610. Powers of board.**

In addition to the powers granted by other provisions of this article, the board shall have the powers necessary or convenient to carry out

and effectuate the purposes, objectives, and provisions of this article, the purposes and objectives of the trust, and the powers delegated by other laws or executive orders, including, but not limited to, the power to:

(1) Invest any money of the trust fund only in general obligations of the United States or of subsidiary corporations of the United States government fully guaranteed by such government, or to obligations issued by the Federal Land Bank, Federal Home Loan Bank, Federal Intermediate Credit Bank, Bank for Cooperatives, Federal Farm Credit Banks, or to tax-exempt obligations issued by any state, county, municipal corporation, district, or political subdivision, or civil division or public instrumentality of any such government or unit of such government, or to the units of any unit investment trusts the assets of which are exclusively invested in obligations of the type described above, or to the shares of any mutual fund the investments of which are limited to securities of the type described above and distributions from which are treated for federal income tax purposes in the same manner as the interest on said obligations, provided that at the time of investment such obligations or the obligations held by any such unit investment trust or the obligations held or to be acquired by any such mutual fund are limited to obligations which are rated within one of the top two rating categories of any nationally recognized rating service or any rating service recognized by the commissioner of banking and finance, and no others;

(2) Pay money to state institutions of higher education from the trust;

(3) Impose reasonable residency requirements for qualified beneficiaries;

(4) Impose reasonable limits on the number of participants in the trust;

(5) Segregate contributions and payments to the trust fund into various accounts and funds;

From funds appropriated by the General Assembly for such purpose, there is created a program of grants for the payment of postsecondary tuition, ancillary fees, and living expenses for Georgia foster children and adopted children. Such grants shall be subject to the following terms and conditions:

(1) Tuition, ancillary student fees, and the cost-of-living expenses for any undergraduate program of any Georgia public postsecondary institution, including all four-year and two-year colleges and universities and institutions of the Georgia Community and Technical College System, shall be paid for a Georgia foster or adopted child who is a full-time or part-time student if the student meets all entrance requirements and maintains academic eligibility while enrolled at the postsecondary institution and if:

(2) The student shall:

(A) Obtain the application for the grant through the Division of Family and Children Services; and

(B) Complete the Free Application for Federal Student Aid to determine the level of need and eligibility for state and federal financial aid programs. (B) Provide grant applications to all students leaving foster care; and

(C) Report the number of students participating in the tuition grant program on October 1 of each year to the Office of Planning and Budget and the Office of the Child Advocate;

(5) Cost-of-living expenses and necessary fees shall be determined for this program by the institution in which the student enrolls. Cost-of-living may include but is not limited to room, board, books, fees, supplies, transportation fees, and a basic health care policy endorsed by the institution in which the student is enrolled;

(6) The Education Coordinating Council shall report nonidentifying data on graduation rates of students participating in the tuition grant program by November 30 each year to the Office of Planning and Budget and the Office of the Child Advocate; and

(7) Nothing in this Code section shall be construed to:

(A) Guarantee acceptance of or entrance into any postsecondary institution for a foster or adopted child;

(B) Limit the participation of a foster or adopted student in any other program of financial assistance for postsecondary education;

(C) Require any postsecondary institution to waive costs or fees relating to tuition, fees, room, and board;

(D) Restrict any postsecondary institution or the Division of Family and Children Services from accessing other sources of financial assistance, except loans, that may be available to a foster or adopted student; or

(E) Prevent the student from maintaining the grant if transferring to another public postsecondary institution in this state, provided that the student meets all of the requirements of the transferring and receiving institutions. (Code 1981, § 20-3-660, enacted by Ga. L. 2005, p. 479, § 1/HB 272; Ga. L. 2009, p. 8, § 20/SB 46; Ga. L. 2009, p. 453, § 2-2/HB 228.)

In matching the federal appropriations referred to in Code Section 20-4-1, the State Board of Education is directed to take advantage of whatever appropriations the state makes to schools and the teacher training department of the University of Georgia in order to secure these funds under the regulations provided by the secretary of educa-

tion and also to take advantage, when permitted by the secretary of education, of any appropriations made by any municipality or county to any school of vocational character. To make up any deficiencies that may occur, the state board is authorized to use each year, so far as may be necessary, an amount equal to one-half of the federal appropriation from any funds not otherwise appropriated in the state treasury. So far as possible, the state board shall encourage municipal and county educational boards to meet the conditions and secure advantages of this federal appropriation. (Ga. L. 1917, p. 200, § 8; Ga. ## ARTICLE 2

### TECHNICAL AND ADULT EDUCATION

**Editor's notes.** — Ga. L. 1988, p. 1252, § 2, effective July 1, 1988, repealed the Code sections formerly codified at this article and enacted the current article. The former article, which dealt with state area trade schools, consisted of Code Sections 20-4-20 through 20-4-26 and was based on Ga. L. 1945, p. 229, §§ 1-6; Ga.

L. 1976, p. 506, § 1; Ga. L. 1981, Ex. Sess., p. 8 (Code Enactment Act).

**Administrative rules and regulations.** — Grant programs, Official Compilation of the Rules and Regulations of the State of Georgia, Grants of Georgia Department of Technical and Adult Education, Chapter 668-1.

### OPINIONS OF THE ATTORNEY GENERAL

**Editor's notes.** — In light of the similarities of the statutory provisions, opinions under former Ga. L. 1945, p. 229, §§ 1-6; Ga. L. 1976, p. 506, § 1; and Ga. L. 1981, Ex. Sess., p. 8 (Code Enactment Act), which were subsequently repealed but were succeeded by provisions in this article, are included in the annotations for this article.

**Area vocational schools classified as “schools”.** — While such terms as “school” and “educational institution” are descriptive terms and are not really susceptible of precise definition, the area vocational schools maintained and operated by the State Board of Education would be

classified as “schools” under any definition of the term. 1967 Op. Att’y Gen. No. 67-14 (decided under former Ga. L. 1945, p. 229).

**State trade and technical school not subject to taxation.** — State trade and technical school is legal, providing that such schools are set up for and on behalf of the state and providing for their operation from state appropriations makes such a school an instrumentality of the state, and, as such, the school is not subject to state or federal taxation. 1945-47 Op. Att’y Gen. p. 195 (decided under former Ga. L. 1945, p. 229).

### 20-4-10. State Board of the Technical College System of Georgia established; members; officers.

(a) There is established the State Board of the Technical College System of Georgia, formerly known as the State Board of Technical and Adult Education, consisting of not fewer than one member from each congressional district and nine at-large members who shall be appointed by the Governor and confirmed by the Senate for five-year

terms. Board members in office on June 30, 2000, shall serve out the remainder of their respective terms. Upon expiration of those terms, the Governor shall appoint seven successors to two-year terms, six successors to three-year terms, and six successors to five-year terms. All subsequent appointments shall be for regular five-year terms. Members shall represent business, industry, or economic development. The board shall elect from its members a chairperson, vice chairperson, and such other officers as are considered necessary, each to serve for two-year terms. Officers may be elected to succeed themselves. Members shall serve until their successors are appointed; however, in the event of a vacancy on the board because of death, resignation, or removal for any reason other than expiration of a member’s term, the Governor shall fill such vacancy in the same manner as the original appointment and the person so appointed shall serve for the unexpired term of office.

(b) As used in this article, the term “state board” means the State Board of the Technical College System of Georgia. (Code 1981, § 20-4-10, enacted by Ga. L. 1988, p. 1252, § 2; Ga. L. 1989, p. 1096, § 1; Ga. L. 1990, p. 1903, § 5; Ga. L. 2000, p. 618, § 82; Ga. L. 2011, p. 632, § 1/HB 49.)

**The 2011 amendment**, effective July 1, 2011, in subsection (a), in the first sentence, substituted “established the State Board of the Technical College System of Georgia, formerly known as the” for “established a”, and added a comma following “Adult Education”; and substituted “State Board of the Technical College Sys-

tem of Georgia” for “State Board of Technical and Adult Education” at the end of subsection (b).

**Editor’s notes.** — Ga. L. 2000, p. 618, § 1, not codified by the General Assembly, provides: “This Act shall be known and may be cited as the ‘A Plus Education Reform Act of 2000.’”

### 20-4-11. Powers of board.

The State Board of the Technical College System of Georgia shall be empowered to:

- (1) Provide for a comprehensive program of literacy, career, occupational, and technical education for adults and out-of-school youths. disabilities, organizations and advocates for persons with disabilities, publishers, federal and state agencies concerned with opportunities for persons with disabilities, technical colleges that are unaffiliated with the Technical College System of Georgia, university and college presses, counterparts in other states, and other interested persons, the Technical College System of Georgia shall work toward the establishment of a system or clearing-house for sharing postsecondary texts in alternative formats while protecting the intellectual property rights of publishers. The Technical College System of Georgia shall report annually to the Governor and General Assembly regarding progress toward this goal. (Code 1981, § 20-4-36, enacted by Ga. **Editor’s notes.** — Ga. L. 2002, p. 1041, § 1, not codified by the General Assembly, provides that: “colleges and universities in this state have made diligent efforts to accommodate the needs of students with disabilities requiring alternative formats for textbooks and other printed instructional materials used in postsecondary courses of study, but that colleges and universities are confronted with many practical problems in obtaining or producing these texts in alternative formats. Practical problems in obtaining these texts in alternative formats include the wide variety of texts used in postsecondary courses of study, a lack of bargaining

power with publishers of postsecondary textbooks in comparison with publishers of textbooks for elementary and secondary education, and hesitation among postsecondary institutions to share alternative formats because of concern about copyright law. Practical problems in producing such materials in alternative formats include the labor intensive and technical nature of the work, the frequent need for expertise in the subject matter of the texts, and the expense and time required for production. The General Assembly further finds that students with disabilities, colleges, universities, and publishers would benefit from cooperative development of a system for sharing those texts produced in alternative formats while adequately protecting the intellectual property rights of publishers.”

PART 1  
CITY PUBLIC LIBRARIES

20-5-20. Power of city to tax and appropriate for library purposes; election of trustees to control library funds.

Any city, through its properly constituted municipal authorities, may raise by taxation from year to year and permanently appropriate money for the purpose of establishing, erecting, maintaining, or assisting in maintaining a public library. Any such sum or sums of money so appropriated shall be expended by and under the direction of a board of trustees of such public library elected by the city council of such city. (Ga. L. 1901, p. 52, § 1; Ga. L. 1904, p. 90, § 1; Civil Code 1910, § 1566; Code 1933, § 32-2701.)

JUDICIAL DECISIONS

**City must operate public library in accordance with law.** — While the establishment and operation of a public library by a city is permissive, a city having once established and undertaken the operation of a library must operate the li-

brary in accordance with the requirements of the general law. *Settlemayer v. Hartsfield*, 216 Ga. 246, 115 S.E.2d 520 (1960).

**No custom, acts, or courses of con-**

**duct could nullify the general law** as to operation of a city public library. *Settlemayer v. Hartsfield*, 216 Ga. 246, 115 S.E.2d 520 (1960).

### OPINIONS OF THE ATTORNEY GENERAL

**Employees of Atlanta Public Library not considered "teachers."** — Because of the distinction between city and noncity libraries, the fact that the Atlanta City Charter governs the composition, powers, and duties of the library board and because the teachers retirement provisions specify "regional or county" libraries and do not specifically

include "municipal" libraries, the Atlanta Public Library is a municipal library and, as such, the library's employees are not considered "teachers" as defined in the teachers retirement provisions for purposes of membership in the Teachers Retirement System of Georgia. 1978 Op. Att'y Gen. No. 78-14.

### 20-5-21. Disbursement of library appropriations; annual reports by trustees.

In any city in which an appropriation shall be made under this part, the money so appropriated shall be drawn from the treasury of such city on the warrant of the board of trustees of the public library and shall be paid out from time to time for salaries, purchase of books, and other necessary expenses of the library; and an itemized statement of the amounts so paid out shall be made annually to the mayor of such city and by him submitted to the properly constituted authorities of such city. (Ga. L. 1901, p. 52, § 2; Ga. L. 1904, p. 90, § 2; Civil Code 1910, § 1567; Code 1933, § 32-2702.)

### 20-5-22. Acceptance of donations by trustees.

The board of trustees of the public library of a city is authorized to accept and receive donations, either in money, land, or other property, for the purpose of erecting or assisting in the erection of suitable buildings for the use of such public library, for maintaining it, or for

assisting in maintaining it. (Ga. L. 1901, p. 52, § 3; Ga. L. 1904, p. 90, § 3; Civil Code 1910, § 1568; Code 1933, § 32-2703.)

### JUDICIAL DECISIONS

**Donation becomes public property.** — Donation made to the library trustees of a city and accepted by the trustees becomes the public property of the municipality. *Tedder v. Walker*, 145 Ga. 768, 89 S.E. 840 (1916).

### 20-5-23. Powers of trustees over library; librarian and assistant librarian or officers.

The board of trustees of the public library of a city shall exercise a strict and rigid supervision over such public library; shall pass all necessary rules and regulations for the government and control of it; and shall elect a librarian and, if necessary, an assistant librarian or designate some officer or officers to perform the duties of librarian or assistant librarian and appoint and discharge such officer or officers at pleasure. (Ga. L. 1901, p. 52, § 4; Ga. L. 1904, p. 90, § 4; Civil Code 1910, § 1569; Code 1933, § 32-2704.)

### JUDICIAL DECISIONS

**Trustees authorized to discharge library's director upon 30 days' notice.** — General law of the state applies to the operation of a city public library and the board of trustees is authorized to dis-

charge the director upon giving 30 days' notice as provided in the board's bylaws. *Settelmayr v. Hartsfield*, 216 Ga. 246, 115 S.E.2d 520 (1960).

### 20-5-24. City may bind itself to accept donation and make annual payments for library.

The municipal government of any city in which an appropriation shall be made under this part shall have authority to enter into a legal

and binding agreement to accept and receive any donation offered by any person or persons, and any such agreement shall be legal and binding upon the municipal government and its successors. Any agreements by the municipal government of a city to pay any sum or sums of money annually for the use of the public library shall be legal and binding on the city. Any ordinance or ordinances carrying such agreement into effect shall have the force and effect of law and be binding on the city during the time mentioned in the agreement and the ordinance. (Ga. L. 1901, p. 52, § 5; Ga. L. 1904, p. 90, § 5; Civil Code 1910, § 1570; Code 1933, § 32-2705.)

## PART 2

### COUNTY AND REGIONAL PUBLIC LIBRARIES

**Editor's notes.** — Ga. L. 1984, p. 1005, § 1, effective July 1, 1984, repealed the Code sections formerly codified at this part and enacted the current part. The

former part consisted of Code Sections 20-5-40 through 20-5-43 and was based on Ga. L. 1935, p. 409, §§ 1 to 3; Ga. L. 1937, p. 715, § 1; Ga. L. 1979, p. 637, § 1.

### OPINIONS OF THE ATTORNEY GENERAL

**Muscogee County School Board authorized to operate a public library system** under the Library Standards Act, O.C.G.A. § 20-5-40 et seq.; the school board may thereby: 1) qualify to receive

state and federal funds; 2) guide the action of the county library director; and 3) participate in a regional multi-county library system established pursuant to law. 1987 Op. Att'y Gen. No. U87-30.

### 20-5-40. Power of local governments to establish public libraries; procedures for establishment.

(a) The governing authority of any county or municipality may establish a public library system. Any public library established pursuant to this part shall be a tax-exempt institution.

(b) A public library may be established in the following manner:

(1) By resolution or act, at the discretion of the governing authority, of any county or municipality, or any combination thereof;

(2) By approval of the voters of any county or municipality in a referendum election on the question of the establishment of a public library as provided in this paragraph. Upon a written petition containing 35 percent of the registered and qualified voters of a municipality or county being filed with the appropriate governing authority, the governing authority shall be required to hold and conduct a special referendum election for the purpose of submitting to the qualified voters of the municipality or county the question of whether or not a public library, as provided for in this part, shall be authorized. In the event a majority of the persons voting in the election vote in favor of the public library, then the governing authority of the municipality or county shall establish a public library as provided in this part. Otherwise, the governing authority shall have no authority to do so. Following the expiration of two years after any election is held which results in disapproval of a public library, as provided in this part, another election on this question shall be held if another petition, as provided in this paragraph, is filed with the appropriate governing authority; or

(3) By contractual agreement between the governing authorities of any county or municipality. (Code 1981, § 20-5-40, enacted by Ga. L. 1984, p. 1005, § 1.)

## OPINIONS OF THE ATTORNEY GENERAL

**Editor's notes.** — In light of the similarities of the statutory provisions, opinions under former Ga. L. 1935, p. 409, §§ 1 to 3, as amended, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Use of school funds for construction of library facilities deemed expenditure for educational purposes.** — In view of the inherent nature of library facilities as a learning tool and the pervasive relationship between educational authorities and library systems on both the state and local governmental levels, together with the stated legislative policy that the establishment of a public library service is to be part of the provisions for public education in this state, the use of common school funds for the construction

of public library facilities is an expenditure for educational purposes. 1975 Op. Att'y Gen. No. 75-33 (decided under former Ga. L. 1935, p. 409, §§ 1 to 3).

**Board can expend funds for bookmobile tag and insurance coverage.** — If a county board of education, as a political subdivision of the state, operates a public library, the board could legally expend public school funds for the purchase of a tag for the bookmobile; the same would be true as to the expense of insurance coverage. 1958-59 Op. Att'y Gen. p. 131 (decided under former Ga. L. 1935, p. 409, §§ 1 to 3).

**Counties and municipalities authorized to contract with one another.** — It appears that counties and municipalities have the authority to contract with one another for the purpose of establishing or maintaining public libraries.

1948-49 Op. Att'y Gen. p. 122 (decided under former Ga. L. 1935, p. 409, §§ 1 to 3).

**Employees of Atlanta Public Library not considered "teachers."** — Because of the distinction between city and noncity libraries, the fact that the Atlanta City Charter governs the composition, powers, and duties of the library board and because the teachers retirement provisions specify "regional or

county" libraries and do not specifically include "municipal" libraries, the Atlanta Public Library is a municipal library and, as such, the library's employees are not considered "teachers" as defined in the teachers retirement provisions for purposes of membership in the Teachers Retirement System of Georgia. 1978 Op. ## 20-5-41. Establishment of boards of trustees to govern libraries.

Each library system shall be governed by a board of trustees. Each system shall have a governing board of trustees but may have other affiliated boards of trustees for member libraries. The county board of library trustees shall exercise authority in a county system. The regional board of library trustees shall exercise authority in a multi-county system. (Code 1981, § 20-5-41, enacted by Ga. L. 1984, p. 1005, § 1.)

## OPINIONS OF THE ATTORNEY GENERAL

**Editor's notes.** — In light of the similarities of the statutory provisions, opinions under former Ga. L. 1935, p. 409, §§ 1 to 3, which were subsequently repealed but were succeeded by provisions in this Code section, are included in the annotations for this Code section.

**Authority for board to hold title.** — There is strong implication and indirect authority for the board to hold title to real property, there being no statutes to the contrary. 1963-65 Op. Att'y Gen. p. 137 (decided under former Ga. L. 1935, p. 409, §§ 1 to 3).

**Use of school funds for construction of library facilities deemed expenditure for educational purposes.** — In view of the inherent nature of library facilities as a learning tool and the pervasive relationship between educational authorities and library systems on both the

state and local governmental levels, together with the stated legislative policy that the establishment of a public library service is to be part of the provisions for public education in this state, the use of common school funds for the construction of public library facilities is an expenditure for educational purposes. 1975 Op. Att'y Gen. No. 75-33 (decided under former Ga. L. 1935, p. 409, §§ 1 to 3).

**Conflict of interest.** — Member of a county board of education, which chooses one-third of the membership of a library board, should not also be employed by the library board as the librarian; and a person who currently holds both positions should resign from one of the two positions to avoid a conflict of interest. 1980 Op. Att'y Gen. No. 80-64 (decided under former Ga. L. 1935, p. 409).

**20-5-42. Membership of boards of trustees.**

(a) A county board of trustees shall consist of at least one appointee from each governmental agency financially supporting the library on a regular basis. Appointments shall be made in writing pursuant to the constitution and bylaws of the library system, shall be transmitted to the appointee and to the library, and shall state the length of term and expiration date of the appointment.

(b) A regional board of library trustees shall consist of trustees serving on member county boards who are appointed to the regional board by each county board for a term specified in writing pursuant to the constitution and bylaws of the library system.

(c) Board members shall serve staggered terms for continuity of service.

(d) Board members shall be removed for cause or for failure to attend three consecutive meetings pursuant to the library system's constitution and bylaws or the local constitution and bylaws.

(e) Vacancies shall be filled in the same manner as appointments are made. If a vacancy occurs prior to the expiration of a trustee's term, the new appointee shall complete the unexpired term.

(f) Members of the governing authority of any county, municipality, or governmental agency financially supporting the library shall be eligible for appointment and service as members or as ex officio members of the board of trustees of any library or library system. No such governing authority shall appoint a majority of its members to the board of trustees of any library or library system nor shall a majority of the board of trustees of any library or library system consist of members of the governing authority of any single county, municipality, or governmental agency.

(g) Public library system boards of trustees may provide for ex officio board membership in the system constitution and bylaws. (Code 1981, § 20-5-42, enacted by Ga. L. 1984, p. 1005, § 1; Ga. L. 1991, p. 982, § 1.)

## OPINIONS OF THE ATTORNEY GENERAL

#### **20-5-44. Compensation of trustees.**

Members of the board of trustees shall receive no compensation; provided, however, that such members may be reimbursed for any reasonable and necessary expenses incurred in the performance of library business or if stipulated in terms of any bequest or gift. Dues or fees for membership in local, state, regional, and national library associations may be paid from operating funds in accordance with the constitution and bylaws of the library system. (Code 1981, § 20-5-44, enacted by Ga. L. 1984, p. 1005, § 1.)

#### **20-5-45. Directors of library systems; duties and responsibilities.**

Every public library system shall have a director. Any person appointed as director of a public library system must hold at least a Grade

5(b) Librarian's Professional Graduate Certificate, as defined by the State Board for the Certification of Librarians; provided, however, that any person who was serving as acting director of a public library system as of July 1, 1984, shall be authorized to continue to serve as director. The director of a library system shall have duties and responsibilities which include but are not limited to the following:

(D) All applicable local, state, or federal laws;

(5) To administer the total library program, including all affiliated libraries, in accordance with policies adopted by the system board of trustees; and

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1996, a semicolon was substituted for a colon at the end of subparagraph (4)(D).

**Editor's notes.** — Ga. L. 1996, p. 167, § 1, not codified by the General Assembly, provides: "This Act shall be known and

may be cited as the 'Education Reform Act of 1996.'"

Ga. L. 2000, p. 618, § 1, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'A Plus Education Reform Act of 2000.'"

### OPINIONS OF THE ATTORNEY GENERAL

**Graduation from American Library Association accredited schools.** — It is within a legislative or regulatory body's discretion to conclude that graduation from American Library Association accredited schools is a proper requirement for state certification. 1995 Op. Att'y Gen. No. U95-24.

#### 20-5-46. Reports of the library system.

The library system shall make such reports as deemed necessary by local and state funding agencies. In every case at least an annual report of activities, income, and expenditures shall be filed with each funding agency. (Code 1981, § 20-5-46, enacted by Ga. L. 1984, p. 1005, § 1.)

#### 20-5-47. Written constitution.

(a) The board of trustees of each county and regional library shall have a written constitution and bylaws stating policy which shall be approved by the board. Such constitution and bylaws shall be drafted in accordance with the current edition of the *Handbook on Constitutions, By-laws and Contracts for Georgia Public Libraries*.

(b) Policies stated in the constitution of the county board may not be in conflict with the policies of the constitution of the regional board and state and federal laws and regulations. The constitution of the regional board shall not be in conflict with state and federal laws and regulations.

(c) All current constitutions and bylaws must be on file in the Office of Public Library Services of the Board of Regents of the University System of Georgia, and all amendments must be filed with the office immediately upon adoption. (Code 1981, § 20-5-47, enacted by Ga. L. 1984, p. 1005, § 1; Ga. L. 1996, p. 167, § 10; Ga. L. 2000, p. 618, § 87; Ga. L. 2001, p. 4, § 20.)

#### 20-5-48. Ownership of library property.

(a) A clear title in fee simple to an approved site on which a library facility is to be located shall be held by either the library board of trustees or the county or municipality. Title to property used for library purposes shall be vested in the library board of trustees or in that local agency which makes the major financial contribution toward construction costs. Notwithstanding any provision in this part to the contrary,

any facility, the title to which currently is held by a nonprofit organization and which is now being operated by a public library board of trustees, may continue to be operated by that library board of trustees if the operation of that facility by the board of trustees meets the standards of the Office of Public Library Services of the Board of Regents of the University System of Georgia; and the title to that facility may remain in the hands of that nonprofit organization. When the composition of a library system is changed or when the library system is dissolved and the title is vested in the library board of trustees, the Office of Public Library Services of the Board of Regents of the University System of Georgia shall serve as mediator in determining ownership of property.

(b) Other property including, but not limited to, equipment and materials that were purchased with state, federal, or contract funds coming through the system budget shall be owned by the system board of trustees and shall be placed or transferred where it is most useful. Upon dissolution or significant structural change within the system, such property shall be divided on a pro rata basis according to the proportion of financial costs of property borne by the involved parties. The library system board of trustees shall furnish the financial and statistical information considered by the parties attempting to reach agreement. If the parties are unable to reach a mutually agreeable solution, the final decision of property ownership shall be made by the Office of Public Library Services of the Board of Regents of the University System of Georgia or its designee. (Code 1981, § 20-5-48, enacted by Ga. L. 1984, p. 1005, § 1; Ga. L. 1985, p. 149, § 20; Ga. L. 1986, p. 10, § 20; Ga. L. 1996, p. 167, § 11; Ga. L. 2000, p. 618, § 88.)

Ga. L. 2000, p. 618, § 1, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'A Plus Education Reform Act of 2000.'"

## 20-5-49. Authorization of library systems to enter into contracts.

Library systems are authorized to make and enter into such contracts or agreements as are deemed necessary and desirable. All such contracts or agreements entered into shall:

- (1) Detail the specific nature of the services, programs, facilities, arrangements, or properties to which such contracts or agreements are applicable;
- (2) Provide for the allocation of costs and other financial responsibilities;

(3) Specify the respective rights, duties, obligations, and liabilities of the parties; and

(4) Set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriated to the proper effectuation and performance of the agreement.

No public or private library agency shall enter into any agreement itself, or jointly with any other library agency, to exercise any power or engage in any action prohibited by the Constitution or laws of this state. (Code 1981, § 20-5-49, enacted by Ga. L. 1984, p. 1005, § 1; Ga. L. 1985, p. 149, § 20; Ga. L. 1986, p. 10, § 20.)

#### **20-5-50. Requirement of finance bond.**

Each library board which handles finances must keep a current bond for an adequate amount determined by the board of trustees and recorded in the minutes on the library director, the treasurer of the board of trustees, or other officials and employees authorized to handle funds. Proof of the bond for each board must be filed with the Renewal Application for State Aid. (Code 1981, § 20-5-50, enacted by Ga. L. 1984, p. 1005, § 1.)

#### **20-5-51. Dissolution of or withdrawal from a library system.**

(a) A library system shall be dissolved by a reversal of procedures followed in its original organization. A majority of the board members in a majority of the counties must agree to the dissolution of the system. One county in a multicounty system may withdraw by a reversal of the procedure by which the county became a member.

(b) If the local constitution and bylaws or participating agreement does not specify a notification period for withdrawal, the proper notice shall be sent six months prior to the end of the state fiscal year. This notice must include reasons for the withdrawal and the method by which the decision was reached and must be sent to the chairman of the system board of trustees and the system library director. The Board of Regents of the University System of Georgia must be notified of the receipt of this letter of intent within five working days.

(c) Upon dissolution or withdrawal, no further state or federal grant funds shall be paid for or to the dissolving or withdrawing unit or units until such time as the unit or units reestablish the library or libraries pursuant to this part and meet eligibility requirements for such grant funds.

(d) A multicounty regional system may elect to expel a member county upon the following conditions:

(1) Failure of the county to maintain the agreed level of support to the regional system as in the most recent system-participating agreement; or

(2) Failure of the county to meet criteria which may jeopardize the system's eligibility for state or federal funds.

(e) If the system's constitution and bylaws or participating agreement fails to describe a notice period for expulsion, the proper notice shall be sent not less than six months prior to the end of the state fiscal year. This notice must be sent to the chairperson of the county board of trustees, all funding agencies party to the participating agreement, the system library director, and the Office of Public Library Services of the Board of Regents of the University System of Georgia.

(f) Upon total dissolution of a library system, all property shall be disposed of as provided in this part. (Code 1981, § 20-5-51, enacted by Ga. L. 1984, p. 1005, § 1; Ga. L. 1996, p. 167, § 12; Ga. L. 2000, p. 618, § 89.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 2005, "Board of Regents of the University System of Georgia" was substituted for "Office of Public Library Services of the Department of Technical and Adult Education" in the last sentence of subsection (b).

**Editor's notes.** — Ga. L. 1996, p. 167,

§ 1, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'Education Reform Act of 1996.'"

Ga. L. 2000, p. 618, § 1, not codified by the General Assembly, provides: "This Act shall be known and may be cited as the 'A Plus Education Reform Act of 2000.'"

## **20-5-52. Prohibition of theft or damage of library property.**

## 20-5-61. Compact enacted; terms.

The Interstate Library Compact is enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

### "INTERSTATE LIBRARY COMPACT

#### ARTICLE I. POLICY AND PURPOSE.

Because the desire for the services provided by libraries transcends governmental boundaries and can most effectively be satisfied by giving such services to communities and people regardless of jurisdictional lines, it is the policy of the states party to this compact to cooperate and share their responsibilities; to authorize cooperation and sharing with respect to those types of library facilities and services which can be more economically or efficiently developed and maintained on a cooperative basis, and to authorize cooperation and sharing among localities, states and others in providing joint or cooperative library services in areas where the distribution of population or of existing and potential library resources make the provision of library service on an interstate basis the most effective way of providing adequate and efficient service.

#### ARTICLE II. DEFINITIONS.

As used in this compact:

(a) "Public library agency" means any unit or agency of local or state government operating or having power to operate a library.

(b) "Private library agency" means any nongovernmental entity which operates or assumes a legal obligation to operate a library.

(c) "Library agreement" means a contract establishing an interstate library district pursuant to this compact or providing for the joint or cooperative furnishing of library services.

#### ARTICLE III. INTERSTATE LIBRARY DISTRICTS.

(a) Any one or more public library agencies in a party state in cooperation with any public library agency or agencies in one or more other party states may establish and maintain an interstate library district. Subject to the provisions of this compact and any other laws of the party states which pursuant hereto remain applicable, such district

may establish, maintain and operate some or all of the library facilities and services for the area concerned in accordance with the terms of a library agreement therefor. Any private library agency or agencies within an interstate library district may cooperate therewith, assume duties, responsibilities and obligations thereto, and receive benefits therefrom as provided in any library agreement to which such agency or agencies become party.

(b) Within an interstate library district, and as provided by a library agreement, the performance of library functions may be undertaken on a joint or cooperative basis or may be undertaken by means of one or more arrangements between or among public or private library agencies for the extension of library privileges to the use of facilities or services operated or rendered by one or more of the individual library agencies.

(c) If a library agreement provides for joint establishment, maintenance or operation of library facilities or services by an interstate library district, such district shall have power to do any one or more of the following in accordance with such library agreement:

1. Undertake, administer and participate in programs or arrangements for securing, lending or servicing of books and other publications, and other materials suitable to be kept or made available by libraries, library equipment or for the dissemination of information about libraries, the value and significance of particular items therein, and the use thereof.

2. Accept for any of its purposes under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, (conditional or otherwise), from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, person, firm or corporation, and receive, utilize and dispose of the same.

3. Operate mobile library units or equipment for the purpose of rendering bookmobile service within the district.

4. Employ professional, technical, clerical and other personnel, and fix terms of employment, compensation and other appropriate benefits; and where desirable, provide for the in-service training of such personnel.

5. Sue and be sued in any court of competent jurisdiction.

6. Acquire, hold, and dispose of any real or personal property or any interest or interests therein as may be appropriate to the rendering of library service.

7. Construct, maintain and operate a library, including any appropriate branches thereof.

8. Do such other things as may be incidental to or appropriate for the carrying out of any of the foregoing powers.

#### ARTICLE IV. INTERSTATE LIBRARY DISTRICTS, GOVERNING BOARD.

(a) An interstate library district which establishes, maintains or operates any facilities or services in its own right shall have a governing board which shall direct the affairs of the district and act for it in all matters relating to its business. Each participating public library agency in the district shall be represented on the governing board which shall be organized and conduct its business in accordance with provisions therefor in the library agreement. But in no event shall a governing board meet less often than twice a year.

(b) Any private library agency or agencies party to a library agreement establishing an interstate library district may be represented on or advise with the governing board of the district in such manner as the library agreement may provide.

#### ARTICLE V. STATE LIBRARY AGENCY COOPERATION.

Any two or more state library agencies of two or more of the party states may undertake and conduct joint or cooperative library programs, render joint or cooperative library services, and enter into and perform arrangements for the cooperative or joint acquisition, use, housing and disposition of items or collections of materials which, by reason of expense, rarity, specialized nature, or infrequency of demand therefor would be appropriate for central collection and shared use. Any such programs, services or arrangements may include provision for the exercise on a cooperative or joint basis of any power exercisable by an interstate library district and an agreement embodying any such program, service or arrangement shall contain provisions covering the subjects detailed in Article VI of this compact for interstate library agreements.

#### ARTICLE VI. LIBRARY AGREEMENTS.

(a) In order to provide for any joint or cooperative undertaking pursuant to this compact, public and private library agencies may enter into library agreements. Any agreement executed pursuant to the provisions of this compact shall, as among the parties to the agreement:

1. Detail the specific nature of the services, programs, facilities, arrangements or properties to which it is applicable.
2. Provide for the allocation of costs and other financial responsibilities.
3. Specify the respective rights, duties, obligations and liabilities of the parties.

4. Set forth the terms and conditions for duration, renewal, termination, abrogation, disposal of joint or common property, if any, and all other matters which may be appropriate to the proper effectuation and performance of the agreement.

(b) No public or private library agency shall undertake to exercise itself, or jointly with any other library agency, by means of a library agreement any power prohibited to such agency by the constitution or statutes of its state.

(c) No library agreement shall become effective until filed with the compact administrator of each state involved and approved in accordance with Article VII of this compact.

#### ARTICLE VII. APPROVAL OF LIBRARY AGREEMENTS.

(a) Every library agreement made pursuant to this compact shall, prior to and as a condition precedent to its entry into force, be submitted to the attorney general of each state in which a public library agency party thereto is situated, who shall determine whether the agreement is in proper form and compatible with the laws of his state. The attorneys general shall approve any agreement submitted to them unless they shall find that it does not meet the conditions set forth herein and shall detail in writing addressed to the governing bodies of the public library agencies concerned the specific respects in which the proposed agreement fails to meet the requirements of law. Failure to disapprove an agreement submitted hereunder within ninety days of its submission shall constitute approval thereof.

(b) In the event that a library agreement made pursuant to this compact shall deal in whole or in part with the provision of services or facilities with regard to which an officer or agency of the state government has constitutional or statutory powers of control, the agreement shall, as a condition precedent to its entry into force, be submitted to the state officer or agency having such power of control and shall be approved or disapproved by him or it as to all matters within his or its jurisdiction in the same manner and subject to the same requirements governing the action of the attorneys general pursuant to paragraph (a) of this Article. This requirement of submission and approval shall be in addition to and not in substitution for the requirement of submission to and approval by the attorneys general.

#### ARTICLE VIII. OTHER LAWS APPLICABLE.

Nothing in this compact or in any library agreement shall be construed to supersede, alter or otherwise impair any obligation imposed on any library by otherwise applicable law, nor to authorize the transfer or disposition of any property held in trust by a library agency in a manner contrary to the terms of such trust.

## ARTICLE IX. APPROPRIATIONS AND AID.

(a) Any public library agency party to a library agreement may appropriate funds to the interstate library district established thereby in the same manner and to the same extent as to a library wholly maintained by it and, subject to the laws of the state in which such public library agency is situated, may pledge its credit in support of an interstate library district established by the agreement.

(b) Subject to the provisions of the library agreement pursuant to which it functions and the laws of the states in which such district is situated, an interstate library district may claim and receive any state and federal aid which may be available to library agencies.

## ARTICLE X. COMPACT ADMINISTRATOR.

Each state shall designate a compact administrator with whom copies of all library agreements to which his state or any public library agency thereof is party shall be filed. The administrator shall have such other powers as may be conferred upon him by the laws of his state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact. If the laws of a party state so provide, such state may designate one or more deputy compact administrators in addition to its compact administrator.

## ARTICLE XI. ENTRY INTO FORCE AND WITHDRAWAL.

(a) This compact shall enter into force and effect immediately upon its enactment into law by any two states. Thereafter, it shall enter into force and effect as to any other state upon the enactment thereof by such state.

(b) This compact shall continue in force with respect to a party state and remain binding upon such state until six months after such state has given notice to each other party state of the repeal thereof. Such withdrawal shall not be construed to relieve any party to a library agreement entered into pursuant to this compact from any obligation of that agreement prior to the end of its duration as provided therein.

## ARTICLE XII. CONSTRUCTION AND SEVERABILITY.

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact

shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.” (Ga. L. 1972, p. 872, § 1; Ga. L. 1982, p. 3, § 20.)

No municipality, county, or other political subdivision of this state shall be a party to a library agreement which provides for the construction or maintenance of a library pursuant to Article III, subdivision (c), paragraph (7) of the compact, or pledge its credit in support of such a library, or contribute to the capital financing thereof, except after compliance with any laws applicable to such municipalities, counties, or political subdivisions relating to or governing capital outlay and the pledging of credit. ARTICLE 1

SOUTHERN REGIONAL EDUCATION COMPACT

20-6-1. Approval and terms of compact.

The following compact, as amended, is approved and this state is declared to be a party thereto; and agreements, covenants, and obligations therein are binding upon the State of Georgia:

“THE REGIONAL COMPACT

(as amended)

Whereas, The States who are parties hereto have during the past several years conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

Whereas, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College, which proposal, because of the present financial condition of the institution, has been approved by the said States who are parties hereto; and

Whereas, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities;

Now, therefore, in consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as 'States'), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States which, for the purposes of this compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions for the benefit of citizens of the respective States residing within the region so established as may be determined from time to time in accordance with the terms and provisions of this compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the 'Board'), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education, and at least one of whom shall be a member of the legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State, but the members of the Board appointed by the Governor shall hold office for a period of four years except that in the original appointments one Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of two years, one Board member to serve an initial term of three years, and the remaining Board member to serve the full term of four years, but thereafter the successor of each appointed Board member shall serve the full term of four years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment, by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish bylaws not inconsistent with the provisions of this compact to govern its own actions in the performance of the duties delegated to it including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State, and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by

appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States and to all properties and facilities used in connection therewith shall be vested in said Board as the agency of and for the use and benefit of the said States and the citizens thereof, and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative acts of the States authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two or more States who are parties of this compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of Census of the United States of America; or upon such other basis as may be agreed upon.

This compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as

six or more of the States whose Governors have subscribed hereto within a period of eighteen months from the date hereof. When and if six or more States shall have given legislative approval to this compact within said eighteen months' period, it shall be and become binding upon such six or more States 60 days after the date of legislative approval by the sixth State and the Governors of such six or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the Governor of any State approving this compact, at which time the Board shall elect officers, adopt bylaws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this compact by legislative action within two years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however that with respect to any State whose constitution may require amendment in order to permit legislative approval of the compact; such State or States shall become parties hereto upon approval of this compact by legislative action within seven years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this compact shall thereafter continue without limitation of time provided, however, that it may be terminated at any time by unanimous action of the States and provided further that any State may withdraw from this compact if such withdrawal is approved by its legislature, such withdrawal to become effective two years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or to any of the funds of the Board held under the terms of this compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the terms and provisions of this compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of

this compact, but such termination shall in no manner release such defaulting State from any accrued obligation or otherwise affect this compact or the rights, duties, privileges or obligations of the remaining States thereunder.

In witness whereof this compact has been approved and signed by Governors of the several States, subject, to the approval of their respective legislatures in the manner hereinabove set out, as of the 8th day of February, 1948." (Ga. L. 1949, p. 56, § 1; Ga. L. 1957, p. 66.)

**Editor's notes.** — This compact was also affected by a 1955 resolution (Ga. L. 1955, p. 667) which approved the admission of Delaware and West Virginia as parties. As this resolution did not specifically amend language in this Code section, Ga. L. 1955, p. 667, does not appear in the historical citation.

By resolution (Ga. L. 1985, p. 351), the General Assembly approved the admission of the State of Oklahoma as a party to the Southern Regional Education Compact.

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional, educational and lay leadership on a nationwide basis at the State and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearinghouse of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of State government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

(b) It is the policy of this Compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

(c) The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

#### ARTICLE II. STATE DEFINED.

As used in this Compact, "State" means a State, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

#### ARTICLE III. THE COMMISSION.

(a) The Education Commission of the States, hereinafter called the "Commission", is hereby established. The Commission shall consist of seven members representing each party State. One of such members shall be the Governor; two shall be members of the State legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. If the laws of a State prevent legislators from serving on the Commission, six members shall be appointed and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission for each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State government, higher education, the State education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In

addition to the members of the Commission representing the party States, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

(b) The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

(c) The Commission shall have a seal.

(d) The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice-chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

(e) Irrespective of the civil service, personnel, or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for the personnel policies and programs of the Commission.

(f) The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or form any agency of two or more of the party jurisdictions or their subdivisions.

(g) The Commission may accept for any of its purposes and functions under this Compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency, or from any person, firm, association, foundation or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted

by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

(h) The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

(i) The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

(j) The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

#### ARTICLE IV. POWERS.

In addition to authority conferred on the Commission by other provisions of the Compact, the Commission shall have the authority to:

(a) Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

(b) Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

(c) Develop proposals for adequate financing of education as a whole and at each of its many levels.

(d) Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this Compact, utilizing fully the resources of national associations, regional Compact organizations for higher education; and other agencies and institutions, both public and private.

(e) Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

(f) Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this Compact.

## ARTICLE V. COOPERATION WITH FEDERAL GOVERNMENT.

(a) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the Commission.

(b) The Commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

## ARTICLE VI. COMMITTEES.

(a) To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty-two members, which, subject to the provisions of this Compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-fourth of the voting membership of the steering committee shall consist of Governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the Commission. A federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years. The chairman, vice-chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two term limitation.

(b) The Commission may establish advisory and technical committees composed of State, local and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

(c) The Commission may establish such additional committees as its bylaws may provide.

## ARTICLE VII. FINANCE.

(a) The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

(b) The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

(c) The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this Compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

(d) The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

(e) The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

(f) Nothing contained herein shall be construed to prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

## ARTICLE VIII. ELIGIBLE PARTIES; ENTRY INTO AND WITHDRAWAL.

(a) This Compact shall have as eligible parties all States, territories and possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor", as used in this Compact, shall mean the closest equivalent official of such jurisdiction.

(b) Any State or other eligible jurisdiction may enter into this Compact by legislative Act and it shall become binding thereon when it has adopted the same.

(c) Any party State may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

ARTICLE IX. CONSTRUCTION AND SEVERABILITY.

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the Constitution of any State or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held contrary to the Constitution of any State participating therein, the Compact shall remain in full force and effect as to the State affected as to all severable matters. ## 20-8-1. Definitions.

As used in this chapter, the term:

(1) "Campus" means the grounds and buildings owned or occupied by a college or university or the grounds and buildings of a school or training facility operated by or under the authority of the State Board of Education. The term "campus" shall also include any public or private property within 500 yards of the property of an educational facility and one-quarter mile of any public street or public sidewalk connecting different buildings of the same educational facility when the property or buildings of the educational facility are located within any county in this state having a population of 400,000 or more according to the United States decennial census of 1970 or any future such census.

(2) "Campus policeman" means an employee of an educational facility whose duties include the enforcement of the laws of this state; the preservation of public order; the protection of life and property; the prevention, detection, or investigation of crime; or any combination thereof.

(3) "College or university" means an accredited, nonproprietary, public or private educational institution of higher learning located in this state.

(4) "Educational facility" means a college or university or a school or training facility operated by or under the authority of the State Board of Education. (Ga. L. 1977, p. 1160, § 1; Ga. L. 1979, p. 1323, § 1; Ga. L. 1981, p. 806, § 1; Ga. L. 1984, p. 596, § 1.)

## JUDICIAL DECISIONS

**Records of private university's police force not subject to public records acts.** — Records of a campus police force of a private university were not

subject to disclosure under the Open Records Act, O.C.G.A. § 50-18-70 et seq., as the university was a private institution that did not receive any funding from the

state, the campus police were employees of that entity pursuant to the authority of O.C.G.A. § 20-8-2, and the fact that the police performed a public function did not make their records into public records; the fact that the campus police were given authority to perform certain functions by the Campus Policemen Act, O.C.G.A. § 20-8-1 et seq., and the Georgia Peace Officer Standards and Training Act, O.C.G.A. § 35-8-1 et seq., did not make them officers or employees of a public office or agency for purposes of the Open Records Act. *The Corp. of Mercer Univ. v. Barrett & Farahany, L.L.P.*, 271 Ga. App. 501, 610 S.E.2d 138 (2005).

**Campus police authority.** — Trial court erred in granting defendant's motion to suppress the fruits of a traffic stop, which arose when defendant's vehicle was observed by a campus police officer to be weaving, the officer followed defendant's vehicle off campus, and then a stop and arrest was effected as it was unclear whether the officer was following defendant in hot pursuit at the time of the stop and arrest; the campus police officer had authority under O.C.G.A. § 20-8-1 et seq., to follow defendant off-campus and beyond the officer's jurisdiction, if the officer

was in hot pursuit, based on the officer's articulable suspicion that a criminal offense had been committed, as it was clear from a review of the statutory language of O.C.G.A. § 20-8-1 et seq. that it applied to campus officers. *State v. Durr*, 274 Ga. App. 438, 618 S.E.2d 117 (2005).

**Officer with college police had no right to appear before grand jury.** — Trial court did not err in finding that the defendant, who was an officer with a college police department, was not entitled to be present and make a statement pursuant to O.C.G.A. §§ 17-7-52(a) and 45-11-4 when the defendant's case was presented to the grand jury because the indictment did not allege that the crimes occurred while the defendant was performing the defendant's duties; the defendant was not on campus as defined by O.C.G.A. § 20-8-1(1), and the record did not show that the defendant's official duties as a campus police officer included the commission of the acts at issue, while the defendant was off duty and engaged in leisure activities outside of the defendant's jurisdiction. *Worthy v. State*, 307 Ga. App. 297, 704 S.E.2d 808 (2010).

**Cited in** *Tabor v. State*, 203 Ga. App. 60, 416 S.E.2d 138 (1992).

## OPINIONS OF THE ATTORNEY GENERAL

**Application to private colleges and universities.** — Ga. L. 1977, p. 1160 does apply to private colleges and universities, but only when the college or university desires to authorize their campus police officers to exercise law enforcement powers including the power to arrest. In that case, the law requires that the campus police officer be certified by the Georgia Peace Officer Standards and Training Council. 1980 Op. Att'y Gen. No. U80-17.

**Application to school security personnel employed by public board of education.** — School security personnel

employed by the board of education of a county or an independent board of education of a municipality for the various public schools, who are authorized by those boards to have law enforcement powers, are not campus police pursuant to paragraph (2) of O.C.G.A. § 20-8-1. 1989 Op. Att'y Gen. 89-29.

**Inapplicable to university system officers.** — O.C.G.A. Ch. 8, T. 20 has no application to campus police officers and security officers of the university system. 1990 Op. Att'y Gen. No. 90-11.

## 20-8-2. Law enforcement powers.

On the campus of an educational facility, a campus policeman employed by such educational facility who is certified in accordance with Code Section 20-8-3 and when authorized by the governing body or authority of such educational facility shall have the same law enforce-

ment powers, including the power of arrest, as a law enforcement officer of the local government with police jurisdiction over such campus. (Ga. L. 1977, p. 1160, § 2; Ga. L. 1979, p. 1323, § 1.)

**Cross references.** — Campus police of the university system, § 20-3-72.

## JUDICIAL DECISIONS

**Records of private university's police force.** — Records of a campus police force of a private university were not subject to disclosure under the Open Records Act, O.C.G.A. § 50-18-70 et seq., as the university was a private institution that did not receive any funding from the state, the campus police were employees of that entity pursuant to the authority of O.C.G.A. § 20-8-2, and the fact that the police performed a public function did not make their records into public records; the fact that the campus police were given authority to perform certain functions by the Campus Policemen Act, O.C.G.A. § 20-8-1 et seq., and the Georgia Peace Officer Standards and Training Act, O.C.G.A. § 35-8-1 et seq., did not make them officers or employees of a public office or agency for purposes of the Open Records Act. *The Corp. of Mercer Univ. v. Barrett & Farahany, L.L.P.*, 271 Ga. App. 501, 610 S.E.2d 138 (2005).

**Officer with college police had no right to appear before grand jury.** — Trial court did not err in finding that the defendant, who was an officer with a college police department, was not entitled to be present and make a statement pursuant to O.C.G.A. §§ 17-7-52(a) and 45-11-4 when the officer's case was presented to the grand jury because the indictment did not allege that the crimes occurred while the defendant was performing the defendant's duties; the defendant was not on campus as defined by O.C.G.A. § 20-8-1(1), and the record did not show that the defendant's official duties as a campus police officer included the commission of the acts at issue, while the defendant was off duty and engaged in leisure activities outside of the defendant's jurisdiction. *Worthy v. State*, 307 Ga. App. 297, 704 S.E.2d 808 (2010).

**Cited in** *Tabor v. State*, 203 Ga. App. 60, 416 S.E.2d 138 (1992).

### 20-8-3. Certification required.

As a condition precedent to the exercise of law enforcement powers pursuant to Code Section 20-8-2, a campus policeman must be certified by the Georgia Peace Officer Standards and Training Council as having met the qualifications and having completed the basic training requirements for a peace officer under Article 2 of Chapter 2 of Title 35. All costs incurred in such certification and training shall be paid by the educational facility employing the campus policeman. This chapter is permissive and shall not require the certification of campus policemen by the Georgia Peace Officer Standards and Training Council. The certification of a campus policeman by the Georgia Peace Officer Standards and Training Council does not require that the campus policeman so certified exercise the powers provided in Code Section 20-8-2. (Ga. L. 1977, p. 1160, § 3; Ga. L. 1979, p. 1323, § 2.)

**JUDICIAL DECISIONS**

**Cited in** Tabor v. State, 203 Ga. App. 60, 416 S.E.2d 138 (1992).

**20-8-4. Exemption of university system campus policemen.**

A campus policeman exercising the power of arrest pursuant to Code Section 20-3-72 providing campus policemen and other security personnel of the University System of Georgia with arrest powers for offenses committed upon university system property shall be exempt from this chapter. (Ga. L. 1977, p. 1160, § 4.)

**20-8-5. Law enforcement powers of school security personnel in each public school system of the state; certification; carrying of firearms or weapons.**

(a) In each public school system in this state, school security personnel employed by the board of education of a county or an independent board of education of a municipality for the various public schools thereof who are certified pursuant to subsection (b) of this Code section and who are authorized by the board of education of that county or the independent board of education of that municipality shall have the same law enforcement powers on school property, including the power of arrest, as law enforcement officers of that respective county or municipality.

(b) As a condition precedent to the exercise of law enforcement powers pursuant to subsection (a) of this Code section, school security personnel must be certified by the Georgia Peace Officer Standards and Training Council as having met the qualifications and having completed the basic training requirements for a peace officer under Chapter 8 of Title 35. The certification of school security personnel by the Georgia Peace Officer Standards and Training Council does not require that such security personnel exercise the powers provided in subsection (a) of this Code section.

(c) The provisions of this Code section shall not prohibit a board of education of a county or an independent board of education of a municipality from employing school security personnel without law enforcement powers.

(d) School security personnel who are certified by the Georgia Peace Officer Standards and Training Council may be authorized by a local board of education to carry a standard issue firearm or weapon generally used for law enforcement purposes for the purpose of carrying out law enforcement duties. (Code 1933, § 32-913, enacted by Ga. L. 1982, p. 515, § 1; Code 1981, § 20-8-5, enacted by Ga. L. 1982, p. 515,

§ 2; Ga. L. 1983, p. 3, § 16; Ga. L. 1986, p. 1549, § 1; Ga. L. 1988, p. 612, § 16; Ga. L. 1999, p. 362, § 4.)

**Code Commission notes.** — Pursuant to Code Section 28-9-5, in 1988, “Training” was substituted for “Tranining” in subsection (d).

### JUDICIAL DECISIONS

**Pursuit of student beyond school grounds.** — As a security officer was on school property when a fellow officer told the security officer that a truant juvenile was hiding behind a house, the juvenile could be pursued on suspicion of hindering an officer in the lawful discharge of duties in violation of O.C.G.A. § 16-10-24, even if the officer left school grounds, as the officer did so in hot pursuit of a suspected offender. In the Interest of M.P., 279 Ga. App. 344, 631 S.E.2d 383 (2006).

### OPINIONS OF THE ATTORNEY GENERAL

**Counties of less than 100,000 persons.** — School systems in counties with a population of less than 100,000 may not authorize their school security employees to carry firearms; however, law enforcement personnel who are authorized to carry firearms from some source other than the school board may provide security at school functions. 1999 Op. Att’y Gen. No. U99-1.

### 20-8-6. Reports of criminal gang activity on or adjacent to campus.

Each educational facility which employs campus policemen, including institutions of the University System of Georgia, shall report to the Georgia Bureau of Investigation and to the local law enforcement agency incidents of criminal gang activity as defined by Code Section 16-15-3 which occur on or adjacent to the campus of such educational facility. (Code 1981, § 20-8-6, enacted by Ga. L. 1998, p. 270, § 11.)

**Law reviews.** — For review of 1998 legislation relating to crimes and offenses, see 15 Ga. St. U. L. Rev. 80 (1998).

### 20-8-7. Public disclosure of campus police records.

Law enforcement records created, received, or maintained by campus policemen that relate to the investigation of criminal conduct and crimes as defined under Georgia law and which are not subject to protection from disclosure by any other Georgia law shall be made available within a reasonable time after request for public inspection and copying. (Code 1981, § 20-8-7, enacted by Ga. L. 2006, p. 519, § 5/HB 1302.)

**Editor’s notes.** — Ga. L. 2006, p. 519, § 7/HB 1302, not codified by the General Assembly, provides that: “Any offense committed before July 1, 2006, shall be

punishable as provided by the statute in effect at the time the offense was committed.”

Ga. L. 2006, p. 519, § 7/HB 1302, not

codified by the General Assembly, provides that this Code section applies to all crimes committed on or after July 1, 2006.

**Law reviews.** — For article, “Contracting to Preserve Open Science: Consideration-Based Regulation in Patent Law,” see 58 Emory L.J. 889 (2009).

**20-15-1. Short title.**

This chapter shall be known and may be cited as the “Georgia Medical Center Authority Act.” (Code 1981, § 20-15-1, enacted by Ga. L. 2000, p. 399, § 1.)

**20-15-2. Definitions; “self-liquidating” projects.**

(a) As used in this chapter, the term:

(1) “Authority” means the Georgia Medical Center Authority.

(2) “Bonds” or “revenue bonds” means any bonds issued by the authority under this chapter, including refunding bonds.

(3) “Cost of the project” means the cost of construction; the cost of all lands, properties, rights, easements, and franchises acquired; the cost of all machinery and equipment; financing charges; interest prior to and during construction and for one year after completion of construction; the cost of engineering, architectural, and legal expenses and of plans and specifications and other expenses necessary or incident to determining the feasibility or practicability of the project; administrative expenses; the cost of intellectual property; and such other expenses as may be necessary or incident to the financing authorized in this chapter, the construction of any project, the placing of the same in operation, and the condemnation of property necessary for such construction and operation. Any obligation or expense incurred for any of the foregoing purposes shall be regarded as a part of the cost of the project and may be paid or reimbursed as such out of the proceeds of revenue bonds issued under this chapter for such project.

(4) “Project” means and includes one or any combination of the following: life sciences industry research and development, manufacturing facilities, and programs based in the State of Georgia, to include office space, laboratories, treatment centers, and other related buildings, structures, equipment, as well as associated facilities such as parking facilities and common areas; and improvements of every kind and character deemed by the authority necessary or convenient for its purposes.

(b) Any project or combination of projects shall be deemed “self-liquidating” if, in the judgment of the authority, the revenues, rents, or earnings to be derived by the authority therefrom will be sufficient to pay the cost of maintaining, repairing, and operating the project and to pay the principal of and interest on revenue bonds which may be issued for the cost of such project, projects, or combination of projects. (Code 1981, § 20-15-2, enacted by Ga. L. 2000, p. 399, § 1; Ga. L. 2006, p. 1060, § 1/HB 1083.)

**20-15-3. Establishment; appointment of members; terms of office; vacancies; removal from office; compensation; authority’s existence; accountability of members.**

(a) There is created a body corporate and politic to be known as the Georgia Medical Center Authority which shall be deemed to be an instrumentality of the State of Georgia and a public corporation; and by that name, style, and title such body may contract and be contracted with, sue and be sued, implead and be impleaded, and complain and defend in all courts of this state.

(b) The authority shall consist of seven members as follows:

(1) Those persons appointed to the authority prior to July 1, 2005, and serving for terms to expire in June, 2006, shall continue to serve for the remainder of the terms to which they were appointed;

Any elected or appointed state, county, municipal, or school board official or employee, except members of the board of regents and officials and employees of the legislative or judicial branches of state government, are authorized to be appointed as members of the authority, and any person so appointed is authorized to serve as a member of the authority.

(c) All successors shall be appointed in the same manner as original appointments. Members may be eligible for reappointment. Vacancies in office shall be filled in the same manner as original appointments. An appointment to fill a vacancy shall be for the unexpired term. The authority shall elect its own officers. A majority of the membership of the authority shall constitute a quorum. The authority shall otherwise provide for its own organization and conduct of business according to *Robert's Rules of Order*.

(d) The Governor, after notice and opportunity for hearing, may remove from office any member of the authority for any of the following reasons:

The state waives any right which it may have to prevent the forced sale or foreclosure of any property of the authority so mortgaged or encumbered, to the extent of the interest of the authority therein but not any interest of the state therein, and any such mortgage or encumbrance may be foreclosed in accordance with law and the terms thereof;

#### **20-15-5.1. Payment of revenue bonds; authorization and term of bonds; refunding of bonds; interest rates; debt limitation.**

(a) Revenue bonds issued by the authority shall be paid solely from the property (including, but not limited to, real property, fixtures, personal property, revenues, or other funds) pledged, mortgaged, conveyed, assigned, hypothecated, or otherwise encumbered to secure or to pay such bonds. No revenue bonds shall be issued by the authority under this chapter unless its members adopt a resolution finding that the project or combination of projects for which such bonds are to be issued will be self-liquidating.

(b) All revenue bonds shall be authorized by resolution of the authority, adopted by a majority vote of the full membership of the authority at a regular or special meeting.

(c) Revenue bonds shall bear such date or dates, shall mature at such time or times (not more than 40 years from their respective dates), shall bear interest at such rate or rates (which may be fixed or may fluctuate or otherwise change from time to time), shall be subject to redemption on such terms, and shall contain such other terms, provisions, cove-

nants, assignments, and conditions as the resolution authorizing the issuance of such bonds may permit or provide. The terms, provisions, covenants, assignments, and conditions contained in or provided or permitted by any resolution of the authority authorizing the issuance of such revenue bonds shall bind the members of the authority then in office and their successors.

(d) The authority shall have power from time to time and whenever it deems it expedient to refund any bonds by the issuance of new bonds, whether or not the bonds to be refunded have matured, and may issue bonds partly to refund bonds then outstanding and partly for any other purpose permitted under this chapter. The refunding bonds may be exchanged for the bonds to be refunded, with such cash adjustments as may be agreed upon, or may sold and the proceeds applied to the purchase or redemption of the bonds to be refunded.

(e) Any limitations with respect to interest rates or any maximum interest rate or rates found in the usury laws of this state or any other laws of this state shall not apply to revenue bonds of the authority.

(f) The authority shall not have outstanding at any one time bonds and notes exceeding \$300 million; provided, however, that such limitations shall not apply with respect to bonds and notes issued to refund outstanding bonds and notes. (Code 1981, § 20-15-5.1, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

#### **20-15-5.2. Confirmation and validation of bonds; exchangeability and transferability; certificate of validation.**

(a) Bonds of the authority shall be confirmed and validated in accordance with the procedure of Article 3 of Chapter 82 of Title 36.

(b) Bonds issued by the authority may be in such form, either coupon or fully registered, or both coupon and fully registered, and may be subject to such exchangeability and transferability provisions as the bond resolution authorizing the issuance of such bonds or any indenture or trust agreement may provide.

(c) Bonds shall bear a certificate of validation. The signature of the clerk of the Superior Court of Richmond County may be made on the certificate of validation of such bonds by facsimile or by manual execution, stating the date on which such bonds were validated; and such entry shall be original evidence of the fact of judgment and shall be received as original evidence in any court in this state. (Code 1981, § 20-15-5.2, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

**20-15-5.3. Provisions of agreements or instruments; use of proceeds; issuance of subsequent bonds; renewal of validated bonds.**

(a) Subject to the limitations and procedures provided by this Code section and by Code Section 20-15-5.2, the agreements or instruments executed by the authority may contain such provisions not inconsistent with law as shall be determined by the members of the authority.

(b) The proceeds derived from the sale of all bonds issued by the authority shall be held and used for the ultimate purpose of paying, directly or indirectly as permitted in this chapter, all or part the cost of any project, or for the purpose of refunding any bonds or bond anticipation notes issued in accordance with this chapter.

(c) Issuance by the authority of one or more series of bonds or bond anticipation notes for one or more projects shall not preclude it from issuing other bonds in connection with the same project or with any other projects; but the proceeding wherein any subsequent bonds are issued shall recognize and protect any prior loan agreement, mortgage, deed to secure debt, trust deed, security agreement, or other agreement or instrument made for any prior issue of bonds, unless in the resolution authorizing such prior issue the right is expressly reserved to the authority to issue subsequent bonds on a parity with such prior issue.

(d) The authority shall have the power and is authorized, whenever bonds of the authority shall have been validated as provided in this chapter, to issue from time to time its notes in anticipation of such bonds as validated and to renew from time to time any such notes by the issuance of new notes, whether or not the notes to be renewed have matured. The authority may issue such bond anticipation notes only to provide funds which would otherwise be provided by the issuance of the bonds as validated. Such notes may be authorized, sold, executed, and delivered in the same manner as bonds. As with its bonds, the authority may sell such notes at public sale or at private sale. Any resolution or resolutions authorizing notes of the authority or any issue thereof may contain any provisions which the authority is authorized to include in any resolution or resolutions authorizing bonds of the authority of any issue thereof; and the authority may include in any notes any terms, covenants, or conditions which the authority is authorized to include in any bonds. Validation of such bonds shall be a condition precedent to the issuance of such notes, but it shall not be required that such notes be judicially validated. Bond anticipation notes shall not be issued in an amount exceeding the par value of the bonds in anticipation on which they are to be issued. (Code 1981, § 20-15-5.3, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083; Ga. L. 2007, p. 47, § 20/SB 103.)

**20-15-5.4. Sale of bonds.**

The authority may sell its bonds in such manner and for such price as it may determine to be for the best interests of the authority. Whenever the authority shall determine to issue its bonds, it shall request the Georgia State Financing and Investment Commission to approve the bonds and carry out other services for the authority as provided by Article 2 of Chapter 17 of Title 50. (Code 1981, § 20-15-5.4, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

**20-15-5.5. Timing of issuance of revenue bonds.**

Revenue bonds may be issued without any other proceedings or the happening of any other conditions or things than those proceedings, conditions, and things which are specified or required by this chapter. In the discretion of the authority, revenue bonds of a single issue may be issued for the purpose of paying the cost of any one or more, including combination of, projects at any one unit or any number of units. Any resolution providing for the issuance of revenue bonds under this chapter shall become effective immediately upon its passage and need not be published or posted. Any such resolution may be passed at any regular or special or adjourned meeting of the authority by a majority of its full membership. (Code 1981, § 20-15-5.5, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

**20-15-5.6. Bonds do not create a debt of the state.**

Revenue bonds issued under this chapter shall not be deemed to constitute a debt of the state or a pledge of the faith and credit of the state, but such bonds shall be payable solely from the property provided for in Code Section 20-15-5.1; and the issuance of such revenue bonds shall not directly, indirectly, or contingently obligate the state to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment; and all such bonds shall contain recitals on their face covering substantially the foregoing provisions of this Code section. (Code 1981, § 20-15-5.6, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

savings and loan associations, building and loan associations, investment companies, and other persons carrying on a banking business; all administrators, guardians, executors, trustees, and other fiduciaries; and all other persons whatsoever who are now or may hereafter be authorized to invest in bonds or other obligations of the state may properly and legally invest funds including capital in their control or belonging to them. The bonds are also made securities which may be deposited with and shall be received by all public officers and public bodies of this state and all municipalities and political subdivisions for any purpose for which the deposit of the bonds or other obligations of this state is authorized. (Code 1981, § 20-15-5.7, enacted by Ga. L. 2006, p. 1060, § 4/HB 1083.)

#### **20-15-6. Public purpose; tax exemptions.**

The State of Georgia covenants with the holders of the bonds that the authority shall be required to pay no taxes or assessments upon any of the property acquired or leased by it or under its jurisdiction, control, possession, or supervision or upon its activities in the operation or maintenance of the facilities erected, maintained, or acquired by it or any fees, rentals, or other charges for the use of such facilities or other income received by the authority, and that the bonds of the authority, their transfer, and the income therefrom shall at all times be exempt from taxation within the state; provided, however, in no event shall the exemptions granted in this Code section extend to any lessee or other private person or entity. **A. Course placement** — When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the stu-

dent's enrollment in the sending state school or educational assessments conducted at the school in the sending state if the courses are offered. Course placement includes, but is not limited to, honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course.

**B. Educational program placement** — The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation or placement in like programs in the sending state. Such programs include, but are not limited to, gifted and talented programs and English as a second language. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

**C. Special education services.**

(1) In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C.A. Section 1400 et seq, the receiving state shall initially provide comparable services to a student with a disability based on his or her current Individualized Education Program.

(2) In compliance with the requirements of Section 504 of the Rehabilitation Act, 29 U.S.C.A. Section 794, and with Title II of the Americans with Disabilities Act, 42 U.S.C.A. Sections 12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

**D. Placement flexibility** — Local education agency administrative officials shall have flexibility in waiving course or program prerequisites or other preconditions for placement in courses or programs offered under the jurisdiction of the local education agency.

**E. Absence as related to deployment activities** — A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment

to a combat zone or combat support posting shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

ARTICLE VI

ELIGIBILITY

A. Eligibility for enrollment.

(1) Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

(2) A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

(3) A transitioning military child placed in the care of a noncustodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent may continue to attend the school in which he or she was enrolled while residing with the custodial parent.

**B. Eligibility for extracurricular participation** — State and local education agencies shall facilitate the opportunity for transitioning military children’s inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII

GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

**A. Waiver requirements** — Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

**B. Exit exams** — States shall accept exit or end-of-course exams required for graduation from the sending state, national

norm-referenced achievement tests, or alternative testing in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of Section C of this article shall apply.

**C. Transfers during Senior year** — Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this article.

## ARTICLE VIII STATE COORDINATION

A. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own state council, its membership must include at least the state superintendent of education, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative from the executive branch of government, and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

B. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the Governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the state council, unless either is already a full voting member of the state council.

ARTICLE IX  
INTERSTATE COMMISSION ON EDUCATIONAL  
OPPORTUNITY FOR MILITARY CHILDREN

The member states hereby create the 'Interstate Commission on Educational Opportunity for Military Children.' The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

(1) Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact;

(2) Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner and:

A. Each member state represented at a meeting of the Interstate Commission is entitled to one vote;

B. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission;

C. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the Governor or state council may delegate voting authority to another person from their state for a specified meeting; and

D. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication;

(3) Consist of ex-officio, nonvoting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include, but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the United States Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members;

(5) Establish an executive committee, whose members shall include the officers of the Interstate Commission and such other

members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact, including enforcement and compliance with the provisions of the compact and its bylaws and rules, and other such duties as deemed necessary. The United States Department of Defense, shall serve as an ex-officio, nonvoting member of the executive committee;

(6) Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests;

(7) Give public notice of all meetings, and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

A. Relate solely to the Interstate Commission's internal personnel practices and procedures;

B. Disclose matters specifically exempted from disclosure by federal and state statute;

C. Disclose trade secrets or commercial or financial information which is privileged or confidential;

D. Involve accusing a person of a crime, or formally censuring a person;

G. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding;

(8) For a meeting, or portion of a meeting, closed pursuant to this provision, the Interstate Commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each

relevant exemptible provision. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission;

(9) Collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules; and

(10) Create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

ARTICLE XI  
ORGANIZATION AND OPERATION OF THE INTERSTATE  
COMMISSION

A. The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

- (1) Establishing the fiscal year of the Interstate Commission;
- (2) Establishing an executive committee, and such other committees as may be necessary;

- (7) Providing 'start up' rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided, however, that subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, Officers, and Personnel.

- (1) The executive committee shall have such authority and duties as may be set forth in the bylaws, including, but not limited to:

(i) Managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

(ii) Overseeing an organizational structure within, and appropriate procedures for, the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

(iii) Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

(2) The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, however, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state, may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(2) The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the Attorney

General or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

## ARTICLE XII

### RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

**A. Rulemaking Authority** — The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact; provided however, that in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

**B. Rulemaking Procedure** — Rules shall be made pursuant to a rulemaking process that substantially conforms to the 'Model State Administrative Procedure Act,' of 1981 Act, Uniform Laws Annotated, Vol. 15, p. 1 (2000) as amended, as may be appropriate to the operations of the Interstate Commission.

**C.** Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable

law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

### ARTICLE XIII

## OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

### A. Oversight.

(1) The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact shall have standing as statutory law.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

(3) The Interstate Commission shall be entitled to receive all service of process in any such proceeding and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

**B. Default, Technical Assistance, Suspension, and Termination** — If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the Interstate Commission shall:

(1) Provide written notice to the defaulting state and other member states of the nature of the default, the means of curing the default, and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default;

(2) Provide remedial training and specific technical assistance regarding the default;

(3) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact shall be terminated from the

effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default;

(4) Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the Governor, the majority and minority leaders of the defaulting state’s legislature, and each of the member states;

(5) The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination, including obligations, the performance of which extends beyond the effective date of suspension or termination;

(6) The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state; and

(7) The defaulting state may appeal the action of the Interstate Commission by petitioning the United States District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney’s fees.

**C. Dispute Resolution.**

(1) The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states and between member and nonmember states.

(2) The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

**D. Enforcement.**

(1) The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) The Interstate Commission may, by majority vote of the members, initiate legal action in the United State District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the

provisions of the compact, its promulgated rules, and bylaws against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney's fees.

(3) The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

#### ARTICLE XIV FINANCING OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant, and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

#### ARTICLE XV MEMBER STATES, EFFECTIVE DATE, AND AMENDMENT

A. Any state is eligible to become a member state.

B. This compact shall become effective and binding upon legislative enactment of this compact into law by no less than ten of the states. The effective date shall be no earlier than December 1, 2011. Thereafter, it shall become effective and binding as to any other

member state upon enactment of the compact into law by that state. The Governors of nonmember states or their designees shall be invited to participate in the activities of the Interstate Commission on a nonvoting basis prior to adoption of the compact by all states.

C. The Interstate Commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the Interstate Commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

## ARTICLE XVI WITHDRAWAL AND DISSOLUTION

### A. Withdrawal.

(1) Once effective, the compact shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

(2) Withdrawal from this compact shall be by the enactment of a statute repealing the same.

(3) The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other member states of the withdrawing state's intent to withdraw within 60 days of its receipt thereof.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(5) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

### B. Dissolution of Compact.

(1) This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

(2) Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

**ARTICLE XVII**  
**SEVERABILITY AND CONSTRUCTION**

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

C. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

**ARTICLE XVIII**  
**BINDING EFFECT OF COMPACT AND OTHER LAWS**

**A. Other Laws.**

(1) Nothing herein shall prevent the enforcement of any other law of a member state that is not inconsistent with this compact.

(2) All member states' laws conflicting with this compact are superseded to the extent of the conflict.

**B. Binding Effect of the Compact.**

(1) All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the member states.

(2) All agreements between the Interstate Commission and the member states are binding in accordance with their terms.

(3) In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state." (Code 1981, § 20-17-2, enacted by Ga. L. 2012, p. 377, § 1/SB 227.)
